Mount Allison Ladies' College. A Leading Canadian Institution. Prof. Burwash, of Victoria College, Toronto, one of the leading educationists in Canada said some time ago in speaking of the Mt. Allison institution that it was the best all round educational institution of the kind in Canada. There is nothing in the maritime provinces to approach it. While there are institutions which furnish a literary education to young ladies, there is not one that possesses the facilities to impart a literary, a musical or an art education equal to Mt. Allison. Nor can such an institution be found in Canada. In the upper provinces there are schools of art, but they have at their head no better teachers than Prof. Hammond, whose reputation as a painter has become national; and then these schools are not in a position to furnish their students with either a musical or a literary education. Mt. Allison easily stands at the head of the institutions in Canada for the education of females. Further information will be found in the advertising column.
