Was Bothered With Severe Headaches Is Not Troubled Now

Mrs. James Rossiter, Riverside, N.B., writes:—"I was bothered with severe headaches, for years, and tried many different medicines, but to no effect. One day a friend told me about

and after I had taken three bottles I found it had done me a world of good. Now I don't know what a headache is like. I certainly have great faith in Burdock Blood Bitters."

THE SALE AT CYMBRIA of J. Wellington Mutch's farm and furniture has been postponed until Saturday, 9th inst., at noon. 5082

RESERVE Thursday evening, the 21st inst. for Zion Church Choir Concert and Play (The Sheriff?) This will be good. 5061

THE REV. HAMMOND JOHNSON RESIGNS—At a meeting of the congregation of Trinity Church last evening, the resignation of the Rev. Hammond Johnson as joint minister was received. After a brief discussion that matter was referred to the official board to be dealt with.

TEMPERATURE DROPS—There was a sudden change yesterday in the weather, which during the past few days has been quite springlike. The barometer dropped to an extreme not reached for some years, and by the afternoon the thermometer had fallen to several degrees below freezing. The slight snowstorm, following the previous night's rain, made the streets and sidewalks dangerous for pedestrians.

A QUESTION OF FEED—A resolution unanimously adopted by the Prince Edward Island Dairymen's Association points out "the depressing influence of New Zealand butter on the provincial dairy industry" and requests a "substantial reduction" in freight rates on mill-feeds from Upper Canada to the Maritimes, in order to assist the dairymen of these provinces to compete with the New Zealand product, and also to assist the live-stock industry generally. Here is a case where the "fiscal faddists" find small scope for their theories. With the tariff bars down, butter comes into Canada from the Antipodes in a flood; while "the incidence of the tariff on the instruments of production" is a mere catch-phrase when it is remembered that mill-feed is produced in Canada and that it is freight rates, not Customs duties, in relation thereto, that is the big consideration from the Canadian producers' standpoint.—Halifax Herald.

EVIDENT CARELESSNESS—It is regrettable that proper arrangements had not been made for the series of farmer's meetings now being held in Prince of Wales College Hall. Last evening the assembly hall was so cold that quite a number left the building during the meeting, while those who remained put on their overcoats. During the earlier part of the week men who brought seed grain for exhibition could not find out where the seed fair was to be held, and left their bags upstairs. There were no placards to indicate either the direction to the assembly hall or the seed fair, and it was only after considerable difficulty that some visitors discovered that the fair was being held on the lower floor. And at that time (about five o'clock in the evening) enquirers were told that the fair was closed for the day. These matters have been the subject of considerable complaint, especially by people unacquainted with the College building and who had driven in for the express purpose of hearing the speakers scheduled for last evening's meeting.

The friends of Mrs. (Conductor) A. J. Harper will regret to learn of her serious illness.

RACES at Souris Monday March 11 at 1 o'clock. 5064

Twelve George II three-pronged silver forks were recently sold in London for \$675.

BIRTHS

DUNBAR—At Alma, P. E. I., on Feb. 24th, 1929, to Mr. and Mrs. Howard Dunbar (nee Jennie Platts) a son. Congratulations.

BARBOUR—At Alma, P. E. I., Feb. 24th, 1929 to Mr. and Mrs. Nell Barbour (nee Gladys Larkin) a daughter. Jennie Ferné. Congratulations.

SMITH—At the Prince County Hospital on Feb. 27th, to Mr. and Mrs. John A. Smith, Kinkora, a daughter, Mary Dorothea Therese.

DEATHS

CURRIE—At Elmsdale on Sunday morning, March 3rd, Mrs. George E. Currie, after an illness of five weeks, aged 88. Funeral on Thursday afternoon the 7th.

LECTURE AND DEMONSTRATION AT A. HORNE'S

Large Crowd Attend Chevrolet Chassis Lecture in Showroom Last Evening.

From the famous potato fields of Prince Edward Island, the "Bluenose" fishing fleets of Lunenburg and the iron mines of Sydney to the logging camps of British Columbia is a far cry. Yet the several hundred people who were fortunate enough to gain admittance to the special Chevrolet Chassis Lecture and Demonstration held in Chevrolet showroom last night, viewed these scenes and more from the length and breadth of the Dominion, illustrative of the nation's vast natural resources and scenic wonders.

"Chevrolet Across Canada" is the title of the highly educational moving picture which was specially taken for the Chevrolet Motor Company of Canada and was shown here under the auspices of A. Horne & Co., local dealers. Chevrolet cars and trucks were seen playing their part in the gathering of the potato crops on Prince Edward Island the Nova Scotia fishing and mining industries, or doing their bit in the building of good roads in the Prairie Provinces. Gathering the nation's wheat in the Canadian West, the same sturdy vehicles were shown beside the combines loading grain for speedy transportation to the elevators.

Thrills of another kind were seen in Ontario where numbers of Chevrolet trucks do service as fire engines. A fire truck was pictured making a record run and fighting and putting out a real live fire. A horrible railway accident was narrowly averted through the efficiency of the car's four wheel brakes.

Most of the principal Canadian cities visited by the camera man were shown on the screen. In Montreal the audience saw the large fleet of Chevrolet cars and trucks in the service of the Bell Telephone Company. At Toronto were seen fleets of two dozen Canadian National and Canadian Pacific Express trucks starting out on their runs.

The towering Rocky Mountains, pictures of Banff and the placid waters of Lake Louise, the tall timbers of British Columbia, and bathing scenes at English Bay, Vancouver, were among the scenic pictures of the Chevrolet film.

Following the moving picture film, an interesting and instructive description of the inner workings of the new Chevrolet Six was afforded the audience by means of an illustrated lecture delivered by Mr. S. D. Hubbell of Oshawa, Chevrolet expert.

LAD TO REST—The funeral of the late Mr. George J. Rogers, which was privately conducted, took place yesterday afternoon from his late residence "Fairholm" to the People's Cemetery. Only the relatives and intimate friends were present. Rev. Dr. Ramsay of the United Church, performed the services at the house and grave. All the employees of the firm of The Rogers Hardware Company were also present. The pallbearers were A. A. Alley, Charles Moore, W. S. Tidmarsh, L. D. Murray, E. F. Fisher and W. W. Owen.

MANY ARRESTED

DUBLIN, Mar. 6.—Detectives late tonight made several more arrests in a round-up believed to have been prompted by a statement by President Cosgrave that there existed here a conspiracy to intimidate juries and witnesses. Most of the forty youths who were taken from their homes early today had been released tonight but the new captures kept the total under the confinement at about thirty.

A. F. CAMPBELL, Montague, P. E.

Splendid Meeting

—Continued from page 1—

financial reports were adopted. Mr. Thompson, wool grader, then gave a most interesting and instructive address, which will be found on Page nine of this issue.

He spoke in praise of the co-operative marketing of wool, saying that only in that way could good prices for wool be maintained. The man who sells the wool locally was not acting square with the breeders. He hoped this year to see not 38,000 lbs. so marketed but 75,000 lbs. of wool on the island, and more of it ought to be marketed co-operatively.

Mr. Hayer stressed the necessity of better breeding of sheep; also better feeding. He thought that many more farmers should take up co-operative marketing. It was high time we woke up to the necessity of it.

Mr. W. J. Wortman of O'Leary called to the attention of the meeting the activities of a group of Jews who were provided with large trucks. In the west they picked up three truck loads. Those who dealt with them, however, lost five cents per lb. in the price of wool. He counselled those present to tell their neighbours to be on guard against such persons.

On motion, Mr. Thompson's report was adopted.

As two directors, Mr. C. B. Clay of Kings County and Mr. John R. Dennis, are retiring from the directorate this year, Mr. Alexander Campbell of New Perth, Kings County and Mr. George L. Boswell of Frenchfort, Queens County, were elected.

Mr. W. H. MacGregor was elected as delegate to the Canadian Co-operative Wool growers.

In answer to a question by one of the members, Mr. Bouter stated that the Association supplied such articles as shears, twine and dip for the use of the sheep raisers.

Mr. Oliver Saunders of Winsloe, did not agree with the proposition of raising only one breed of sheep on the Island so as to get uniformity. He noted that at the exhibition, prizes have been cut down, so that

they were given now for only a few breads. He mentioned the Hampshires as being a fine breed of sheep.

Mr. E. C. Holmes described the co-operative building, in his settlement of a large tank for sheep-dipping; also a dipping table. The cost was about \$200 for each of thirteen members. The tank was 7 feet long, 20 inches wide on top, and 8 inches wide on the bottom. The proposition had been very successful, and many sheep had been freed from parasites.

Mr. Harold Clay offered the help of the live stock branch towards those desirous of building a concrete dipping tank. Blue prints and specifications could be supplied to those interested.

SWINE BREEDERS MEETING
The Swine Breeders Meeting was then held, the President Mr. W. J. Reid occupying the chair.

The minutes of the previous meeting were read by the secretary, Mr. J. Gillis, who then presented the financial report. This showed a credit balance of \$312.70.

On motion, both were adopted as read.

The President, Mr. W. J. Reid stated the Swine Breeders Association had made great progress, having grown to be one of the foremost organizations of its kind in the province.

In 1928, and previous to that, a number of swine clubs had been operating throughout the province. These, as was intended, developed into shipping clubs, until there are now 32 of them, which last year shipped 32,000 hogs and 16,000 lambs.

The speaker next described the little competition, instituted to bring in litters in January and February, so that they might be shipped in July and August. The consequence was that the production of animals was made more even, reducing the glut in the fall months, and giving a larger supply in the summer months when prices are higher.

The year before this, we had high prices for potatoes and low prices for hogs. Now it is the other way about.

In 1928 there were four swine shows conducted by boys and girls clubs; also one swine show and sale, with upwards of 100 entries distributing \$300 in prizes, bringing about 56 sales, bringing in \$2010, or about \$36

BARTHELMESS AT BEST "WHEEL OF CHANCE"

GIVES POWERFUL PORTRAYAL IN PICTURE OF DRAMA, PUNCH AND SUSPENSE—LINA BASQUETTE AGAIN CHARMS AT HEAD OF SUPPORTING CAST.

The whims of fate, as exemplified by the roulette wheel, provides the theme of "The Wheel of Chance," Richard Barthelmess' new starring vehicle which opened at the Strand Theatre yesterday.

The effect of circumstances and environment upon the twin brothers, separated in childhood by relentless fate, was the idea behind the original story, "Roulette," by Fannie Hurst. It is followed faithfully in the picture version, which brings Barthelmess to the screen at his best, in a powerful, dramatic vehicle with suspense and "punch" throughout.

Barthelmess plays the dual role, portraying both twins. One is red-haired and one black. One is denied the guidance of his parents, the other is more fortunate. With great realism and understanding, the star enacts the two characters, giving to each the qualities as developed by their individual upbringing. In the climax of the story, staged in a courtroom where one brother prosecutes the other for murder without being aware of the relationship, Barthelmess rises to dramatic heights seldom witnessed on the screen. It is an unforgettable scene, and one that will go down in screen history as a masterpiece of dual acting.

Lina Basquette, who played opposite Barthelmess in "The Noose," is again his leading lady in "The Wheel of Chance," and is both charming and convincing. Margaret Livingston is the "other girl," who ent the life of both boys. Warner Oland, Bodil Rosing, Ann Schaeffer and several others have character roles of exceptional merit.

In "The Wheel of Chance," Barthelmess has a splendid screen story one that demanded the finesse of genuine artist and he has not disappointed his innumerable followers. It is one of the big pictures of the year.

As a consequence of these sales we will have better quality, and a uniform grade of swine throughout the province.
Mr. Reid, alluded to the assistance rendered by the marketing board, and told of his attendance at the last
