## DUPLESSIS RAPS DOMINION PROPOSALS TO N.F.L.D.

### Freighter Adrift In Stormy Lake Michigan

MUSKEGON, Mich., Nov. 8.—(AP)—The United States Coast Guard reported at 1:30 a.m. AST today that a railroad car ferry had come within 200 feet of the crippled freighter Jupiter, struggling in stormy Lake Michigan.

The Coast Guard said the Chesapeake and Ohio Railroad's car ferry, City of Saginaw, had reached the Jupiter's vicinity and was trying to get a line to her.

MUSKEGON, Mich., Nov. 7.—(AP)—The Great Lakes freighter Jupiter, badly crippled and buffeted by a strong on-shore wind, wallowed in high seas in Lake Michigan tonight.

With 28 men aboard, the 346-foot freighter was reported fighting desperately to avoid being beached as Coast Guard vessels strove to bring her help.

The Coast Guard reported the Jupiter five or six miles out at midnight AST with her steam line broken and the vessel struggling in the vicinity of dangerous shoals.

At the time Capt. George Fletrowski, commander of the Coast Guard station at Muskegon, said the Jupiter described as missioned aircraft officers, kept off the beach. The Coast Guard was in radio-telephone communication with the Jupiter.

The Jupiter position, between Muskegon and Ludington, was in the area known to Great Lakes seamen as a "graveyard of ships."

First reports from the Coast Guard did not state whether the rock salt, was making any headway.

### Says Justice Should Be Done To Maritimes

QUEBEC, Nov. 7.—(AP)—Premier Duplessis today accused the Federal authorities of "anti-Canadian arrogance" in negotiations for what he termed the "annexation" of Newfoundland.

The Quebec Premier at his weekly press conference questioned the right of the Federal Government to offer terms to Newfoundland "without consulting the Province, particularly Quebec."

He said the proposals to Newfoundland represented an "increase of the taxpayers' burden" at a time when Federal income taxation was "excessive and exorbitant."

Premier Duplessis thought it would be "more opportune to do justice to the legitimate claims of the Maritime Provinces."

Proposals for Newfoundland's representation in the Canadian Parliament would affect Quebec's constitutional guarantees, he said.

He asked what would happen to United States bases in Newfoundland and if territory elsewhere would be "detached" to become part of the United States. Premier Duplessis suggested that Newfoundland's entry into confederation at the present time and under the conditions he described would add to "complicated" national problems.

He contradicted a report in one Montreal newspaper (Le Canada) last week concerning an alleged plot to burn religious buildings in Quebec and a story in another (Le Devoir) that the Quebec Government intended to take over Les Caissees Populaires (People's Banks).

Dealing with the Newfoundland.

### Yanks Absent As Red Army Holds Parade

U.S. Observers Fail To Get Invitation; Anti-American Posters Are Carried.

By EDDY GILMORE  
MOSCOW, Nov. 7.—(AP)—Russia's traditional military-civilian parade thundered through a sleet-beaten Red Square on the 30th anniversary of the Bolshevik revolution today before a distinguished audience of Soviet leaders and foreigners, but conspicuously absent were the Ambassador and representatives of the armed forces of the United States.

Reviewed by Defence Marshal Nikolai Bulganin, who declared in a speech that "war-mongers" of the capitalist system were "making plans for a new imperialistic war" against the Soviet Union, the parade was characterized by a complete absence of foreign-made guns, tanks, trucks or other equipment.

Outstanding were caricatures directed against Britain and the United States carried by shouting, marching groups of students and workers. These pictured the United States as rigging votes in the United Nations and holding the British lion on a leash.

United States Ambassador Gen. Walter Bedell Smith said it was "too cold and wet and there is no significance to my not being there." He had received an invitation.

No invitations were received to the annual parade, however, by Maj.-Gen. Robert Macdon, military attaché, Rear Admiral Leslie Stevens, naval attaché, and Brig.-Gen. Warren Carter, newly-arrived United States attaché for the capital.

### Police Meet Two Tough Tiny Tots

OTTAWA, Nov. 7.—(CP)—The latest development in a wave of juvenile crime in Ottawa came today when a seven-year-old and his bolliergent six-year-old brother appeared in juvenile court on a charge of stealing \$10 from an eight-year-old girl.

Detective Edward Logan told the court that when he went to arrest the two youngsters Wednesday, the seven-year-old had challenged him with: "Let's see your badge."

And the six-year-old had then stepped in both fists flying, saying: "I don't gotta take this from you or anyone else."

The two were charged with snatching a wallet from an eight-year-old girl who was running an errand, removing the money and flinging it into the empty purse in her face.

The detective said he found them a little later gulping down hot dogs at a nearby store.

The seven-year-old was allowed to remain in his mother's custody but the six-year-old, whom police said was "head man" of the team, was remanded a week.

The arrest of the two brought to eight the number of youthful offenders for whom the youngsters, taken into custody in the last few days.

The six others, in their teens, are said by police to have been members of a ring responsible for numerous burglaries in the city.

### Electric Power Is Rationed In Ontario

TORONTO, Nov. 7.—(CP)—Electrically-lighted outdoor advertising signs, Christmas lighting of business sections and operation of electric heating devices in stores and offices are banned and use of outdoor lights on parking lots and service stations is restricted by new Ontario power rationing regulations effective Nov. 10.

Ontario Hydro-Electric Power Commission officials said the rationing, not as drastic as wartime rules which dimmed street lights and established daylight time on a year-round basis, were necessary to help provide sufficient electricity for full production in industry and to maintain employment.

Coupled with a publicity campaign to persuade householders to economize in use of power and an appeal to industry to reduce its power demand as much as possible, the regulations apply to all Ontario and will remain in effect indefinitely.

Commissioner W. Ross Strike said continued industrial expansion in all parts of the Province created power demands which outstripped the rate at which the commission's new generating units were coming into service.

Mr. Strike emphasized that the power saving drive was a 24-hour-a-day proposition. Cutting down during peak load periods was not enough.
