### VARIETY CHAINS UNDER PROBE OF COMMISSION

Woolworth, Metropolitan and Kresge Store Managers Give Evidence.

(C. P. By Guardian's Special Wire) OTTAWA, Dec. 11.—While making profits of 20 percent or \$1,000,000 and at the direction of its New York office, the F. W. Woolworth Company Limited reduced the wages of its employees 10 percent in 1932, the parliamentary mass buying commission learned today from Leslie C. Harrington, manager for Canada.

One after another, managers of Canadian Variety chains came before the commission today and were questioned on wage policies. They promised to do something about the low levels—Harrington said he would discuss with his directors the question of increases and J. H. Unger, comptroller of Metropolitan Stores, Limited, said his company was ready to co-operate with other chains in boosting wages but he insisted one organization could not increase salaries and stay in competition.

Also Heard

Other witnesses heard today were J. E. Hearst, comptroller of the S. S. Kresge Variety chains and Alex Scheiderman of the United Five Cents to 51 Stores.

The Woolworth manager was on the stand the longest and was taken to task for the wage policies of his company. "The average wage for full time women clerks in Woolworth Stores was \$10.80 with some getting as low as \$7.

"With a company making as large profits as yours, returning a profit of 20 percent, could you not pay better than an average of \$10.80 a week," asked Norman Sommerville, commission counsel.

"Well, they could have yes," Harrington replied. "The 10 percent wage reduction was made in July, 1932. 'Why,' Sommerville asked, 'you were making handsome profits in Canada at that time. In 1932 you made a return of 20.52 percent on the capital invested in this business to the Woolworth Company—What justification could there be for a 10 percent reduction in the wages of the thousands of employees you had in Canada?"

**Drop In Sales**

Although net profits increased in 1933 and sales jumped, the Woolworth organization did not return the salary cut, Harrington admitted, although he said "we probably should."

"How can we expect to get out of the depression," asked Sam Fenton, Toronto West-Centre, "if a profitable business concern cuts wages and does not restore the cuts when it increases its profits?"

"I think," Harrington replied, "you will find we were one of the last to cut wages."

The wage reduction was demanded by the New York head office because a similar cut was being made in the United States, the Canadian manager said.

"Why should conditions in the United States affect wages to that extent in Canada, why is that taken as the gauge especially where handsome profits are being shown in Canada," Sommerville asked.

"Probably it should not."

Officials of the Kresge and Metropolitan chains were questioned on the large percentage of part-time employees on their rolls. Metropolitan having 70 percent on part time and only 30 percent full time. They said they were forced to follow the practice because a large percent of their business was done

**To Reclaim Drought Lands**

(C. P. By Guardian's Special Wire) WINNIPEG, Dec. 11.—Farmers on the western plains tonight looked hopefully toward a permanent agriculture that would withstand the scourge of drought. The problem will be studied by the premiers of Manitoba, Saskatchewan and Alberta at a conference to be held at Regina before the new year.

Dominion co-operation in reclaiming dried-out areas of the southern prairies may be definitely relied upon, Premier John Bracken of Manitoba stated today. Assistance of qualified technical men from the Federal Department of Agriculture were promised by Prime Minister R. B. Bennett to aid in finding a solution to the problem.

### FAVORS UNION OF RAILWAYS

Hon. W. D. Euler Urges One Company Control the Two Lines.

MONTREAL, Dec. 11.—Entry of Hon. W. D. Euler, Minister of National Revenue in the Mackenzie King government, into open discussion of Canada's railway problem is to be welcomed, on all counts," E. W. Beatty, President of the Canadian Pacific Railway, said today. At Chatham, Ont., last night, Mr. Euler advocated unified ownership of the two transcontinental lines by a holding company.

Mr. Beatty did not offer an opinion on the practicability of the plan, pending further study.

In part, Mr. Beatty's statement was as follows:

"The matter is of so grave importance and its early solution so imperatively necessary that it should occupy the vigorous attention of our public men to a greater extent than has yet been apparent. 'I am well aware that it is being given a great deal of study under the surface, but I think it high time that more of our national leaders should come forward and follow Mr. Euler's example, and proposals reflect a broad appreciation of the dangers of a continuance of the present situation and of the difficulties that lie in the way of its rectification."

**Dr. A. F. Dafoe Given Oration**

NEW YORK, Dec. 11.—Dr. A. R. Dafoe, the country doctor who delivered the Dionne quintuplets, was acclaimed tonight in historic Carnegie Hall where the world's leading artists have been greeted.

Applause such as sweeps the famous auditorium on appearances of noted singers and conductors, met the plucky physician from the backwoods of Ontario as he appeared on the platform and bowed.

A moment later and there was dead silence from orchestra pit to top gallery as the Canadian, without a word of nervousness, began a human lecture, his first in the United States on the case histories of the five babies from the time of their birth, May 28.

For one of the first times in his career, Dr. Dafoe was dressed in a dinner jacket.

**Toronto Boy Wins Free Trip To Jamaica**

MONTREAL, Dec. 11.—The result of a contest and drawing conducted by the Tourist Trade Development Board of Jamaica, British West Indies for a free trip to Jamaica as the guest of the colony was announced in a cable just received from Kingston, Jamaica, Henry William Petrie, 100 Roxborough Drive, Toronto, Ont., is the lucky winner.

Some time ago 4,000 letters were mailed from Jamaica to prominent Canadians across Canada each bearing a numbered post card, with the request that it be signed and returned to the Tourist Trade Development Board and today's announcement declares Mr. Petrie the winner in this contest. As a result of his good fortune, Mr. Petrie will now have the opportunity of a free ocean journey to Jamaica and return on one of the "Lady" liners of the Canadian National Steamships in addition to being the guest of that beautiful Island Colony for several days, with inland travel and entertainment privileges without any expense whatever during the time occupied by such a visit to the Colony. This campaign was undertaken by the Tourist Trade Development Board of Jamaica to bring the attractions of that beautiful tropical colony in the Caribbean Sea to the attention of Canadians and they announce that they will be delighted to entertain the winner in this contest with the best of the Island's attractions without any financial obligation on the part of the distinguished visitor.

In offering this free trip during 1935 it is stipulated that the "Lady" cruise liners of the Canadian National Steamships will be used as a means of transportation to Jamaica these liners having established a close reciprocal relationship in passenger service and trade requirements.

### Seek Provincial Defense Drops Fruit Board Bombshell Into For Nova Scotia Lindbergh Case

(C. P. By Guardian's Special Wire) KENTVILLE, N. S., Dec. 11.—Seeking the establishment of a provincial fruit board, similar to that set up in British Columbia, which will foster orderly marketing of Annapolis Valley apples in central Canadian markets, two representatives of the Nova Scotia Fruit Growers' Association will go to Ottawa this week.

They will be accompanied by F. W. Walsh, director of marketing in the Nova Scotia government and will confer with L. F. Burrows, Secretary of the Horticultural Council on the formation of the new board.

This action was planned today at an executive meeting of the Fruitgrowers' Association acting immediately on resolutions passed at a convention last week which urged protection of the new-found market in central Canada.

Already 250,000 barrels of apples have been shipped this season by Nova Scotians to Ontario and Quebec and it is anticipated that total sales for the year will reach 500,000 barrels.

(A. P. By Guardian's Special Wire) FLEMINGTON, N. J., Dec. 12.—The defence tossed a verbal bombshell into the Lindbergh kidnaping case late today with the calm announcement that it had learned one of the ransom notes which Col. Charles A. Lindbergh received was written, not by Bruno Richard Hauptmann, but by a New Jersey carpenter with gangster affiliations.

"The second note was written and mailed by a member of the gang who had been a Jersey carpenter," said chief defence counsel Edward J. Reilly.

He followed this statement with a declaration that "if the hands of the police in the Lindbergh case had not been tied, the case would have been cleaned up in 48 hours." He charged Col. Charles A. Lindbergh with refusing to accept police assistance, and promised to call Governor A. Harry Moore and police officials at the trial to testify on these phases of the case.

The normal duty on Canadian wheat imported into the United States is 42 cents per bushel.
