Clearing Teeth of Film Essential, Present-Day Dental Advice

For Clearer, Whiter Teeth and Firm, Healthy Gums, This Way Strongly Suggested

WHAT many serious tooth and gum disorders, and nearly all cases of so-called "off-color" teeth, are largely traceable to a film that is largely invisible to the eye, but of utmost importance.

By running the tongue across the teeth, one can easily feel this film—stagnant, slippery coating that ordinary brushing fails to combat successfully.

Film absorbs discolorations from food, smoking, etc. That is why, according to leading dental opinion, teeth look dingy and "off color."

Film clings to teeth, gets into crevices and stays. It invites and feeds the germs of decay. And that is why it is judged so grave a danger to the teeth by authorities.

Film is the basis of tartar. And tartar, with germs, is the chief cause of pyorrhea. That is why regular film removal is urged as probably the best in correct gum protection.

Most dental authorities urgently advise thorough film removal at least twice each day. That is, every morning and every night.

For that purpose, obtain Pepsodent, the special film-removing dentifrice which leading dental authorities favor. Different from any other tooth paste.

Pepsodent curdles the film, then removes it; then polishes the teeth in gentle safety to enamel. It combats

the acids of decay and scientifically firms the gums. It multiplies the alkalinity of the saliva. And meets, thus, in all ways, the exacting demands of modern dental science.

On dental advice, people are adopting this new way of tooth cleansing. Obtain Pepsodent, the quality dentifrice, at drug stores. Two months' supply at a moderate price—or send coupon for 10-day tube. Use twice every day. See your dentist twice each year. Make both a habit.

Easy to Gain With Yeast and Iron

New Combination of Yeast with Vegetable Iron Quick Way to Build Up Weight

This new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and endurance and supplies the system with the vitamins that build up weight.

For years yeast has been known as a rich vitamin food, but not until we perfected "Ironized yeast," which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

Vegetable "Iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just twice as beneficial as ordinary fresh or cake yeast.

Ironized Yeast tablets are composed of concentrated food elements, therefore, they are pleasant to take and free from drug-like effects. If you are under weight, do not enjoy good health, lacking in energy and force, "Ironized yeast" tablets will pick you right up, and if they fail, you get your money back.

Sold by druggists, at \$1.00 for a large 60-tablets package. Ironized Yeast Co., Fort Erie, Ontario, 206.

On Every Car the same skilled Craftsmanship

In all its resources, in all its facilities, in all its capabilities of experience and organization, General Motors of Canada, possesses no asset surpassing that of its veteran Canadian craftsmen.

They are skilled as only those can be who have grown up with their trade. They have mastered each his task as only one can who loves it. They are perpetuating that traditional artistry which is the just pride of Canadian labor.

Built by these master craftsmen, Canadian-built Fisher bodies present an order of workmanship, acknowledged the world over as superior.

Exported in huge volume to every corner of the Empire, General Motors cars are every-

where building Canadian prestige for other qualities as well.

Canadians may well take pride in this, and particularly since their General Motors cars are the result, not only of Canadian craftsmanship, but of Canadian materials.

Canadian-built Cadillac, McLaughlin-Buick, Oakland, Oldsmobile, Pontiac, Chevrolet... each exhibits the superiorities of Canadian materials and Canadian workmanship.

That is why Canadians may select any car produced by this pioneer Canadian institution with full assurance of satisfaction. Built by Canadians especially for Canadian conditions of travel and use, each gives Canadians the utmost value-per-dollar in quality, distinction and dependable performance.

Hunter River Masonic Hall

The main room has three direct lights with handsome shades. The walls are plastered and the finish throughout, including ceilings is of Douglas Fir. The floors are of hardwood and the regular hall chairs will be used for seating. The architects were Messrs. Hunter and Chappell, Charlottetown, and the wiring, twenty-three lights in all, was done by Messrs. Palmer & Watson, Charlottetown. The contractor was Mr. Watson Wray, for some years a resident of this place and the building is at once a credit and compliment to his skill and to the unflinching energy of the committee in charge.

Press notices later will advise the public of the formal opening.
