OPEN SIXTY SECOND ANNUAL CONFERENCE

OTTAWA, June 9.—The bulk of the ecclesiastical machinery of the Canadian Congregational denomination is concentrated in Ottawa, some eighty clerical and lay delegates attending the sixty-second annual Congregational Union which opened today in Wellington Church.

"Hundreds of our men have gone to the front," stated Rev. W. T. Gunn, Toronto, general secretary, in presenting the report of the executive, "and eight ministers, including the chairman, Rev. Mr. Craik, have contributed to patriotic duty."

"Our people in Canada have come back to a safer and better plan of life. Self-indulgence and extravagance have been cut down, unselfish giving and service have increased, and the deeper eternal things of life have come to the front. Our churches have had a good year, marked by many accessions to membership."

"In financial matters the local church funds, though feeling the war strain, especially in the West, have kept up nearly to the usual mark."

The Central Commission to prepare for the proposed general conference on unity has, in spite of the interruptions caused by the war, gone steadily ahead, and is developing the methods to be pursued at the conference, and from time to time reports the appointment of representatives by Christian bodies in various lands.

It was gratifying, the report said, that the seven associations made a total membership of 13,658. It was made up of—Quebec, 2,334; Western Ontario, 2,214; Central Ontario, 2,230; Eastern Ontario, 963; Nova Scotia, and New Brunswick, 567; Northwest Provinces, 3,352.

"In response to requests from many quarters we are repeating our one-day special in bananas, 23c. per dozen, for Saturday only. R. T. Holman, Limited, Summerside. 1356-6-11m21e1

SHRAPNEL

(Wall Street Journal)

The complete shrapnel is composed of three principal parts: (a) The time fuse; (b) the projectile proper, a hollow steel shell filled with bullets and a bursting charge of black powder; (c) a brass cartridge case filled with smokeless powder to shoot the projectile from the gun. This brass cartridge case is similar to the shell of an ordinary rifle or revolver cartridge.

The time fuse is a very complicated mechanical device which may be set to burst the steel projectile any number of seconds or feet after it has left the muzzle of the gun. It is as delicately constructed as a watch or a safe lock and is made largely of brass and alloys of aluminum.

The time fuse is screwed into the point of the steel projectile, the projectile is filled with small bullets, usually about 250 in number and is exploded by means of a charge of black powder seated at the opposite end from the time fuse. When it explodes the bullets are hurled over a range of about 250 square yards. The bullets are 88 per cent. lead and 12 per cent. antimony.

The cartridge case is from a foot to almost two feet long and is made of sheet brass and filled with smokeless powder. It is set off by a percussion cap and will hurl the projectile up to 6,000 yards, making that distance in a trifle less than 20 seconds.

GIVE OLD ADDRESS.—Subscribers are asked when having their paper changed from one address to another to please give old address as well as new one. This prevents any delays and saves unnecessary trouble in going over the books.

CHESS MEETING.—The annual summer outing of the Charlottetown Chess Club, will be discussed at Monday night's meeting, at Dalton rooms at 7.30 p. m. This will be the last session until the autumn. Every member is expected to attend the third annual picnic and take a whole day off with the boys. All lovers of the Royal game are invited to be present at Monday night's session.

SERIOUS ACCIDENT.—Mr. David Scott, Cornwall, met with a serious accident on Thursday night. While in the field attending to some horses one of the horses kicked him in the face rendering him unconscious, when picked up it was found that his lower jaw was broken and that he was badly cut about the face and head. He was brought to the P. E. I. Hospital yesterday morning where his injuries were attended to and at last report was resting easily.

ART EXHIBITION.—Many citizens called yesterday and last evening to see the exhibition of art work in the Kindergarten Hall. The exhibition is the handiwork of Miss Helen M. Haszard's pupils and it is really creditable both to herself and her pupils. Several pieces in pastel, charcoal and watercolors show artistic talent of a very high order and would be a credit to any art school. Miss Haszard is to be congratulated on the splendid showing made by her pupils, and citizens should not miss the opportunity of seeing this splendid exhibition which will be open again to-day.

THE GARDENS.—The Queen Square Gardens are already beginning to assume a beautiful appearance under the skilful and artistic management of the city gardener, Mr. James Tait. The flower beds have all been put in heliotrope, Clarkin, Anter-rhinum, Zinnie, Serene, Mimulus, Ageratum, Petunia, Phlox, and many other flowers and shrubs. The grass is smooth and velvety, the paths are in excellent condition and the fountain has also been thoroughly cleaned out and repaired. The Gardens are now lovely and all that is needed is a band concert in the prettily located band stand, while the evenings are fine.

SUCCESSFUL ISLANDERS.—The Guardian is pleased to learn from the New York Times that Mr. J. J. Kenny, of St. Theresa's, has received his degree of M. D. from the Columbia University of New York City. Dr. Kenny has distinguished himself since he left St. Dunstan's College, having won his degree of B. A. a few years ago with high honors and last year when he won the Harson Scholarship in the Columbia University. He has just received an appointment to the First Surgical Staff of Roosevelt Hospital in competition with 125 students from all parts of America. The Guardian congratulates Dr. Kenny and wishes him still further success. His sister, Marie J. Kenny, has also received her diploma with high honors, as graduate nurse from St. Vincent's Hospital, New York City. Dr. Kenny and Miss Kenny referred to above are the son and daughter of Mrs. John Kenny, St. Theresa's who is to be congratulated on the success of her children.

"FLORAL SOCIETY"—In order that citizens, who desire to join this Society, may conveniently do so, any person leaving the 50c. membership fee, and name at Mr. Alley's store, Queen Street will get a receipt for the members of the above society have donated \$50.00 to patriotic funds and all funds, now received, will be cheerfully applied to the same worthy cause. The President and committee feel greatly encouraged by the response given to suggestions about a general clean up, care of lawns, planting of seeds and flowers, and the taking down of fences, giving a boulevard appearance to the grounds and street. Brighton holds the 1st prize (Mrs. C. R. Smallwood) for the best kept grounds, for the last year. Judging from the way some citizens are working there will be keen competition for the honours for 1915. This award will be given out in August, at the annual meeting of the Prince Edward Island Floral Association Show. Every member of the society has an opportunity of competing.

Your fishing trip or picnic is not complete without a Thermos lunch kit. There should be a Thermos Bottle in every lunch basket. It is certainly nice to have your hot tea or coffee, without any trouble. We carry a full supply of all Thermos Goods. E. A. Foster, Central Druggist.

HOG MARKET

Owing to the very limited quantity of hogs now available, Davis & Fraser have notified their buyers that they intend discontinuing packing for this season on Saturday, June 12th inst. This means that hogs from the country points would need to be delivered to shippers not later than Friday, 10th. Hogs will be bought at the packing-house as usual on every day up to and including the 12th. Buying will be resumed, as in other seasons, early in September. The outlook at present is for high prices by that time and farmers could hardly make any mistake in having all hogs possible ready for market early this coming fall. 1224-6-34od 1wk

SPECIAL SALE of olives to-day, 29 cents only. A genuine bargain. Jenkins, the Grocer. 1389

COOKERY.—There will be a table of dainty cookery at St. Vincent's Orphanage on next Wednesday, June 16, 1915.

ISLAND BOYS WELL.—Word has been received of the docking at Plymouth, England, of the S. S. Northland of the White Star Line. This steamer carried the 38th Battalion C. E. F. that has been training at Niagara-on-the-Lake, and that will form a reinforcement to the Princess Pats. Island boys aboard reported to be well and have enjoyed a good passage.

OVERSEAS TOBACCO FUND.—Recently several letters have been received from the boys in the line telling of the deadly effect of the German gas and how the use of tobacco helps them in overcoming it. With this as an incentive Mr. Vinicombe is anxious to secure all the money he can for the Overseas Tobacco Fund in order that the Island boys at least may have all the tobacco they need at an early date. It should be remembered that 25 cents given to this fund will supply one man with a quarter pound of tobacco, fifty cigarettes and one box of matches and a very great deal of comfort as their letters show. The following amounts have been received: Mrs. James Simpson, 25c; Miss Simpson, 25c; Mrs. James Peake, \$2.00; Miss Blanche Haviland, \$1.00.

BEAUTIFUL SCHOOL GROUNDS.—Mr. J. D. Seaman, (Principal of Prince Street School) and his able staff of teachers are to be congratulated on the interest they take in improving the school and its surroundings. The land at the South Side of the school which hitherto had been rough and uneven and broken with ash walks is now being converted into a beautiful lawn, which is a credit to the school. Shrubs of various kinds are being planted in the lawn and by the side of the school "runners" will be grown to give the building a more picturesque appearance. A hedge is also being planted around the borders of the school grounds which will greatly add to its appearance. Connected with this school is the School Garden, which is very neatly laid out and divided into twelve sections, one for each class. Seeds of different kinds have already been planted, and some are now above ground. This feature of school work is a great encouragement to the pupils, among whom exists a friendly competition as to which class will have the best plot when the season is over. After the contemplated improvements are carried out Prince Street School is expected to rank among one of the finest schools in the Maritime Provinces.

THE SOLDIER'S BOOTS were found to be too tight but not even a soldier on active service gives harder wear than a romping boy. There is one brand that will stand up with the hardest youngsters—CROSBY'S "YOUNG CANADA" School Shoes. They are not heavy or clumsy but made of the best leather and ALL leather. Half shoddy shoes are a poor investment when a few cents added will get CROSBY'S.
