Important "Ifs"

IF an hour's reading makes your eyes ache, IF the printed page occasionally "goes misty," IF you are obliged to stop work periodically to rest your eyes for a few moments, IF you find it easier to read closer or further away than the normal twelve or fourteen inches. If you cannot see people across the street, IF you cannot read street names easily or distinguish the time by public clocks, IF you have to make an effort to see—kneading the brows or frowning, IF a bright light gives you pain in the eyes, or if you require more light than hitherto, IF your eyes ache, water, or become inflamed by use.

IF you have any of the above difficulties, let us make an examination of your eyes so that you may learn definitely whether glasses have become necessary to your comfort and well-being.
