Queen Quality
WILL YOU TRY IT?

Are you ever irritable? Many a woman can trace her irritability to ill-fitting shoes. It is hard to be cheerful, isn't it, when all the time there is a drag and pinch upon the feet.

But there is one shoe that is different in this matter of fit.

It is not made like a box into which the foot is thrust, but on the plan of a bandage wrapped around the muscles to strengthen and sustain them.

That Shoe is the "Queen Quality." It makes walking easier for thousands of women.

Boots - - - \$3.75
Oxfords - - - 3.00
Fast color eyelets, do not wear blassy.

ALL NEWS OF LOCAL INTEREST

Reporters and Correspondents Everywhere

Rev. W. H. McIntosh will preach in Georgetown, July 5th and 12th.

SERVICES at De Sable on Thursday, July 2nd, at 11 a. m. and on Saturday at 6 p. m.

Rev. F. D. DAVIDSON, who has been at Hopewell, N. B. for nearly five years intends removing to P. E. Island.

Mrs J. Ross and Miss Florence M. Ross of Boston have arrived home on a four week's visit to relatives in Grand View.

BAIRD & Peters, blenders and packers of Vim Tea, have decided to give the citizens of St. John the pleasure of a series of band concerts, an example in public spirit that is worthy of emulation. They have arranged with the City Cornet Band to give a series of fourteen concerts. (St. John Telegraph.) This very commendable act on the part of the Vim Tea people should be highly appreciated by the music lovers of St. John, and is a good example to Charlottetown firms.

WEBSTER'S CORNER NOTES.—Alex. McEachern, Mount Stewart, who operates the road machine, has run the machine over his district Number Eight and put them in good condition.—Since the last rain the grain and potatoes are looking well, and the prospects for hay have improved although the hay crop will be short—some say not more than half a crop.—The East River Cheese Factory is running with a short supply owing to the poor pastures and cold weather. The milk haulers, who are paid by the hundred pounds are complaining of the short quantities given them to haul.

DAVID Snowie of Mayfield met with a heavy loss on Sunday evening last while attending church at New Glasgow. He, accompanied by his two sisters were in their wagon ready to start for home when their horse, a young three year old reared up in the shafts and falling backwards was instantly killed. Mr. Snowie and one of his sisters were fortunately able to jump from the carriage but Miss Mabel was thrown out on the road. Although not seriously injured she received a bad shaking up. Mr. Snowie's loss is heavy as the horse was a valuable one for which he was offered \$170 on the previous Saturday. The carriage was also badly broken.

EVERYONE should plan to hear Mrs Conklin in her Party addresses next week, under auspices of Y. M. C. A. and Ladies auxiliary of Y. M. C. A. The "Times," Portsmouth, N. H. speaks as follows: "Never in this city has a speaker addressed an audience who were more impressed. Mrs Conklin is a remarkable speaker and, as is often heard expressed, her audience never tire of her graphic experience, her pointed illustrations, and solid arguments. She charms, interests, instructs, and convinces; hers is a great power, wonderfully well-used for the good of her fellow men and women and the noble cause she represents."

THE semi-annual examinations took place in Brackley Point school on Monday the 29th June. The school was examined by Albert Shaw, Mrs. Colin C. MacLure, Mrs. H. Howard and Miss Ada Shaw. All were highly pleased with the good work done by the teacher Miss Mabel Brown and many regrets were expressed at her departure from our midst as she was highly esteemed. Mr. Shaw gave an neat speech in favor of Miss Brown and her excellent teaching qualities. A few complimentary remarks were then made by the ladies and then all repaired to their homes feeling a pleasant afternoon had been spent.

It is not boasting to say that probably two thirds of the Canadian people use the E. B. Eddy Co's matches. The Maritime Provinces are following the West very quickly now. When people once use the single stick match they will never use the card match again. While they were the only match on the market, everybody used them, but since Eddy's Telegraph sulphur "Headlight" parlor, and "Capital" safety have become known, the demand for them is steadily growing. The effect is like the modern Street Railway on the human system. At first you only use them when it rains, then you say well once a day and before long you use them constantly. You first see Eddy's matches perhaps at your neighbors, then you keep a package as well as the card match in the house, eventually the single stick alone will satisfy.

THE Plant liner Olive, which arrived from Boston at four o'clock yesterday afternoon lost a man overboard on the passage. The steamer was out three hours out when the unfortunate fatality occurred. Jose Fernandez was the name of the poor fellow. He was Spaniard and had shipped on the steamer when she was running between Port Trampa and Havana. When the accident happened Fernandez was at work on the promenade deck near one of the boats and it is supposed missed his footing. In falling it is thought he struck his head on the rail, as he was never seen after he went over. Life buoys were at once thrown over and the steamer stopped as quickly as possible and a boat was put out and rowed about the spot for some time but without avail. He was a veteran of the Spanish American war.—Halifax Chronicle.

THE Rev. D. J. MacDonald, B. A. went to Summerside Tuesday morning on his way to Cedar Rapids, Iowa, via Montreal and Chicago.

"Changes" of ads. must be in not later than 1 p. m. each day to insure insertion following morning, and not later than noon Saturday for the "Weekly."

ON Friday, June 21st, the semi-annual examination of Cavendish school was held very successfully in the presence of a number of visitors. The children acquitted themselves with honor and the condition of the school reflects great credit on the energetic and popular teacher, Miss Nora Lefursey. At the close of the examination a beautiful dressing case was presented to Miss Lefursey by her pupils, accompanied by the following address:—Dear and respected teacher.—Having heard of your intention of leaving us, we, as scholars, cannot allow this opportunity to pass without expressing to you how deeply we regret to hear of your departure. During the two years in which you have taught us you have labored most earnestly and diligently for our welfare and your kindness and interest in us have endeared you both to pupils in the school and friends in the district. For all that you have done for us we thank you heartily and sincerely. Our best wishes will go forth with you in whatever new sphere of labor your lot will be cast. We hope that all the blessings of success, health and happiness may be yours. In conclusion we ask you to accept the accompanying token of the love and regard of your affectionate pupils. Signed on behalf of the school.

A GREAT INCREASING ARMY.

composed of men and women that spend heart and soul in the vain effort to overcome a lack of vigor in the body. To replace inertia by vigor, to make good, red blood that will build up the system, to have strong nerves, you must eat more, digest more, assimilate more. How can it be done? By using Ferrozone. It invigorates, strengthens, possesses magical health giving powers. Get Ferrozone today and make yourself strong and well. All reliable druggists and medicine dealers sell Ferrozone.

SAMPSON AT SANTIAGO.

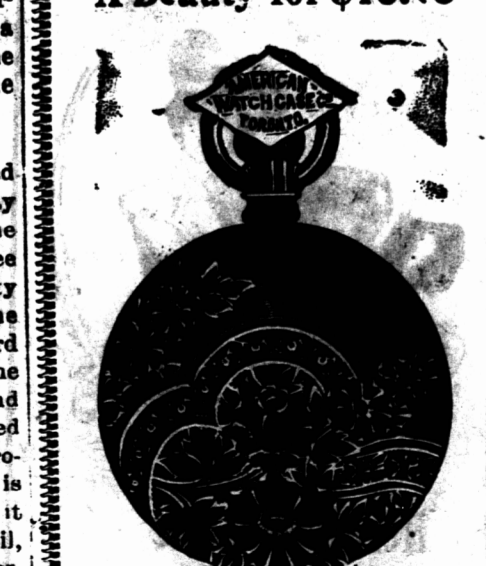

Ex-Secretary John D. Long in his narrative of the Battle of Santiago (part of his series The New American Navy, now appearing in The Outlook) stoutly maintains that Sampson was in actual as well as technical command at Santiago. He says:—

He was as much in command as Grant at Chattanooga, although Grant's generals were doing the actual fighting at Lookout Mountain and Missionary Ridge, where he could not personally be. The historian Rhodes comments on McClellan's customary absence from the actual battles fought by his troops, and yet everybody recognizes that McClellan was in command, responsible for results, and to him is given the credit for the victories and the blame for the defeats of his army. Sampson was likewise in actual and not merely in technical command. President Roosevelt, in his summing up, on his rejection of Schley's appeal to him from the Court of Inquiry, says it was a "captain's fight." This is true if only the actual fighting is referred to, just as, in that sense, it might have been said of Chattanooga. In that sense, as I said in an address at Atlanta, the result would have been the same if both Sampson and Schley had been ten thousand miles away on the day of the Santiago fight. Neither of them was essential to the immediate battle or gave an order that day that affected the fleet's action until its close. It was, of course, fought under Sampson's general order in case the enemy came out, but that order had been standing a month and was familiar to every captain.

NOTE YOUR WEIGHT.

By noting your increase in weight while using Dr. Chase's Nerve Food you can prove for a certainty that new firm flesh and tissue is being added to the body. This is the severest test you can apply to any treatment and proves the superiority of this great restorative prescription of Dr. A. W. Chase, the famous Receipt Book author.

THEY'RE ALL RIGHT

Say, those Star Laundry people certainly do know how to get a soiled shirt into such shape that a fellow doesn't feel like thirty cents when he puts it on. Collars are cuffs the same. It's a pleasure to wear linen done up by them. Just a little solicitude of a man who has found out how they do things at the Star Steam Laundry. Have YOU ever tried them?
