STALLION INSPECTION

All owners of stallions that have not been previously inspected, must have their horses inspected during the present season, in order to qualify for service during the season of 1938. Inspection will be conducted during the latter part of August. Any owners who neglect to arrange for this inspection, and are found offering stallions for service, will be dealt with under the provisions of the Stallion Enrolment Act. Application should be made at once to the Department of Agriculture, Charlottetown.

STOCK QUOTATIONS

FINANCIAL NEWS BRIEFS

(Received over Pittfield and Co's Private Wire)

NEW YORK, Aug. 2—Traders were agreeably surprised that the stock market did not show any selling on the Senates action on the Wage and Hour Bill. There was professional profit taking but it was readily absorbed and that clients would buy if anything developed which made an incentive therefore. Brokers report that London has been a mild seller of U. S. Steel. London has been a buyer of U. S. copper shares in small volume from domestic sources. There is no expectation of an immediate metal price advance in local markets although foreign prices are firm. Some traders have gossiped about the Chinese-Japanese hostilities as a factor in a red metal situation, but traders do not believe that it will work out to be an important impulse in the price structure.

WASHINGTON, Aug. 2—Wholesale price commodity index declined moderately last week. This index in week ended July 31 was 88.3 per cent of the 1926-28 average versus 88.6 per cent in preceding week.

WINNIPEG, Aug. 2—All days rain over Northern Alberta also Calgary reports all day rains. Very heavy downpour in Southwestern Manitoba which did considerable damage. Looks like rain here today.

NEW YORK, Aug. 2—Magazine Steel says. Signs are appearing that bottom of summer lull in steel industry has been reached and that July probably represents low buying point in buying. Places last weeks operating rate at 84 per cent or 3 points above previous week. Says quiet conditions likely to continue through part of August with the latter of the month expected to show upturn as

fall programs get under way. Commonwealth Edison on period ending June 30 net income \$13,592,918 after \$843,407 surtax on undistributed profits or \$8.43 a share against revised net income \$9,946,643 or \$6.14 a share in preceding 12 months.

MONTREAL, Aug. 2—Regular dividend of 50 cents declared on Inter. Nickel.

NEW YORK, Aug. 2—The Bulk division of General Motors reports second 10 days of July totalled 6,094 cars comparing with 6,144 in the first 10 days of the month and 4,376 in the corresponding period of a year ago. This was a gain of 1,718 cars or 39 per cent over the 1936 volume. Sales showed a smaller summer decline than ago, and are expected to continue at or above present levels for the remainder of the month. Production is being maintained at more than 1,000 at the factory in excess of 16,000 units. Used car sales by Buick dealers during the second 10 days of July totalled 10,474 units against 9,847 in the first 10 days of the month with used car stocks reduced to 30,171.

NEW YORK, Aug. 2—The Senate passed the Wage and Hour Bill on Saturday but it is not as drastic as the one being considered by the House. The House will consider the bill this week, but it will probably be several days before anything final is done. Plans are for Congress to adjourn within 3 weeks. The Magazine Steel says evidence is increasing that the summer lull in the steel business is over. This publicity may help the steel stocks further. We would expect the market to do better today and it would be especially encouraging if the rails participated to a greater extent.

Currencies

MONTREAL, Aug. 2—(CP)—Pound sterling advanced 15-32 cent on Montreal foreign exchanges today to 498 3-8. The French franc remained unchanged at 375 cents while the United States dollar was 1-32 lower at par.

NEW YORK, Aug. 2—(AP)—With London exchanges closed for the bank holiday, leading currencies on Montreal narrowly against the United States dollar in foreign exchange dealings today.

The franc closed up 00 3-8 of a cent at 375 3-8 while sterling was steady at \$4.97 3-4. The Netherlands guilder held even. The discount on the 90-day forward franc was 09 of a cent below spot prices with official control board support continuing. The Canadian dollar was unchanged at 99 31-32.

DESTROY GALLONS OF LIQUOR. JOHANNESBURG, (CP)—Police arrested 577 natives and destroyed 12,892 gallons of native liquor concoctions, some which included carbide as a constituent, in week-end raids in western suburbs of the city.

LIVERPOOL, England (CP)—Arix a young male leopard at the Liverpool Zoo, sprang on his keeper, 35-year-old John Ashworth, killing him before an attendant watched from outside could render assistance.

NEW HAVEN W. I.

The monthly meeting of the New Haven W. I. was held at the home of Mrs. Michael Devereaux, on July 14 with fourteen members and three visitors present.

The meeting opened by singing "The Institute Ode." Roll call was answered by "What we dislike most in men." The minutes of the last meeting were read and adopted.

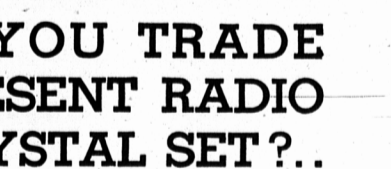

Mr. Richard MacPhee gave a very interesting report on the Annual Convention held at Charlottetown. Bills amounting to 98c. were paid. It was moved and seconded that the thanks of the Institute be extended to all those who helped in any way to make the lawn party a success and to Mr. Michael McManus for the use of his field. It was decided to invite the Kingston W. I. to the September meeting and also to hold a picnic on August 5th. The Sick Committee for next month is: Mrs. Michael Devereaux and Miss Minnie Brown. The next meeting is to be held at the home of Mrs. Michael Murphy, on Aug. 11th, roll call to be answered by "Threading a Needle on a Bottle." The meeting closed by singing the National Anthem.

MONTREAL CURB

Table with columns: Stocks, Close. Includes Bouscand, Cart Mal, Duparc, Thump Cad.

SMART DOG KNOWS MASTER'S HABITS

ADELALDE, Australia, July 30—(CP)—Tim, the collie, knew where his master was going. A plain clothes policeman called at the man's home and brought him to police station here by street car. Tim followed them onto the car, but was ejected a mile from the city. When the policeman and Tim's master reached the station, they were greeted by the collie, who waited for them at the entrance.

WOULD YOU TRADE YOUR PRESENT RADIO FOR A CRYSTAL SET?..

Of course not, yet you might still be using a crystal set if it were not for the inventions made available to Canadian Radio Manufacturers by Canadian Radio Patents, Limited.

This is true, unbelievable as it may seem, because a radio receiver is a composite of many highly technical developments upon each of which there is a Canadian patent which might have been independently owned.

Canadian Radio Patents, Limited, was incorporated for the purpose of making available to Canadian radio manufacturers basic inventions, thus eliminating multiple royalties and expense which would result if these patents were owned separately. Without these basic inventions, production of the present day radio sets would not be possible. The Canadian public is now able to enjoy radio reception of a character which could not have been obtained without the use of these inventions.

Support Canada's great radio industry and its thousands of workers by making sure the radio you are about to purchase bears the license of Canadian Radio Patents, Limited, and thus avoid the liability which may result from patent infringement.
