"DEAD ON THE FIELD OF HONOUR."

PARIS, March 24.—A note issued by the War Office yesterday concerning the death recently on the battlefield of Henri Collignon, Councillor of State, says M. Collignon was trying to take a wounded soldier out of the range of fire when a fragment of shell struck him. The note orders that Collignon's name shall be carried on the rolls of his regiment, the 46th Infantry; and that when the regiment's roll is called the oldest sergeant shall answer to Collignon's name "dead on the field of honour."

A Remedy For All Pain

"The efficiency of any drug" says Dr. C. P. Robbins, "is known to us by the results shown from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in using it. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for. I have used largely in my practice is Anti-kama Tablets. Many and varied are the occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-kama Tablets are also excellent for the headaches of a neuralgic origin, and especially for women subject to pains at certain times. Two Anti-kama Tablets give prompt relief, and in a short time the patient is able to go about as usual. These tablets may be obtained at all druggists. Ask for Anti-kama Tablets, and see the enclosed for headache, neuralgia and all pains.

TABLET UNVEILED OF LATE DR. MCNEILL

Rev. L. G. McNeill referred to in the following extract from a St. John exchange, was a native of Cavendish, this province, and is fondly remembered by many friends here. ST. JOHN, N. B., March 23.—A tablet was unveiled and a sermon was preached by Rev. J. H. MacVicar, D. D., at St. Andrew's Presbyterian Church last evening to the memory of the former pastor, the late Rev. L. G. McNeill. The tablet was the tribute of the congregation and largely through the suggestion of Mrs. E. Altherton Smith, it was arranged that the unveiling should take place before the impending departure of Rev. Mr. MacVicar, who will preach his last sermon at St. Andrew's next Sunday before leaving for Montreal where he will remain until August when he will sail for Honan, China, to resume the mission work that he was forced to give up twenty years ago. The inscription of the tablet is:

Sacred to the memory of Rev. L. G. Macneill, A. M., Who for 18 years was the faithful Pastor of this Church, 1886-1904. Died 14th October, A. D., 1913.

Universally esteemed. This Tablet is erected to his memory by his congregation. "For He Giveth His Beloved Sleep." Mr. MacVicar's sermon was a warm-hearted tribute, vibrating with sympathy for that best portion of a good man's life—His little nameless, unremembered acts of kindness and of love.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If peevish, feverish and sick, give "California Syrup of Figs." Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given. Nothing equals "California Syrup of Figs" for children's ailments; it gives a tea-spoonful in a few hours all the stool, and in a few hours all the food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and see that it is made by the California Syrup Company.

Should any tie occur in the scores, the games will be played off Monday night. Dr. Lundie is still leading all the players and if his nerves do not give way will likely be champion for this year. But it's a long way, even yet, to the enchanted cup. Everybody made welcome to these last two sessions.

PROVINCIAL LEGISLATURE

(Continued from Page One) the people of this province, having claims against the Government, a fiat to enforce those claims. He thought that the position he took now was the same as they took then. He believed that, on a just cause being shown, if a settlement could not be arrived at the granting of a fiat, was the just and proper course for the Government to take. But it must be guarded very carefully. It must not mean an open door to every person who wished to bring an action against the Government to come in and try his luck. Surely there should be something done before an application was made for the right to sue. Surely in every case a claim should be presented and some opportunity given the Government to settle without a suit. In this case the first and last they knew about the claim was to be found in a petition to the Governor-in-Council in the name of Davidson, signed by John H. Bell, his attorney and agent. They never got a claim never got an account, never got any opportunity whatever to settle, and Mr. Bell simply came in and said "we want you to allow us to sue you; we want you to grant permission to sue the Government." He did not think that any Government, guarding the Treasury as carefully as it was their duty to do, would ever think of granting a fiat on an application such as that. If the case were presented to the Government he could assure his hon. friend that an enquiry would be made and every effort put forth to do justice in this case, as in every case. He thought he was only taking that precaution which should be expected of every Government in requiring first of all a precise statement of what the claim consisted of, how much it was and what its foundation was. The committees then reported on the following bills, which were read a first time: To incorporate R. W. McEwen & Co., Ltd., the Charlottetown Curling Club, Auld Bros. Ltd., and to allow Wm. Doucette to assume the surname "Summer". In pursuance of notice No. 16 the Premier then presented a bill entitled "An Act to amend an Act for the appointment of Stipendiary Magistrates for the different counties of the Province of Prince Edward Island." He also asked that Rule 13 be suspended in order to allow the bill to be read a second and third time that day, in view of the desirability of having it enacted immediately. In explaining the bill he stated that the Magistrate for Western Prince was given exclusive jurisdiction at the present time, and that exclusive jurisdiction had given rise to the difficulty which they proposed to solve by removing that part of the act which made his jurisdiction exclusive, so that the Magistrate for the other part of the County would have co-ordinate jurisdiction. The remedy required to be applied at once, and he therefore asked the incidence of the House in suspending Rule 13 to allow of the bill being read the second and third time then. The bill was accordingly read a second time, considered by a committee of the whole House, Mr. Doble in the chair, engrossed, read a third time and passed. "An Act to amend an Act for the appointment of Stipendiary Magistrates for the Different Counties of the Province of Prince Edward Island. WHEREAS it is desirable to alter the jurisdiction given to the Stipendiary Magistrate at West Prince over Townships Numbers 1 to 11 inclusive, so that the same shall not be an exclusive jurisdiction. BE IT THEREFORE ENACTED by the Lieutenant Governor and Legislative Assembly of the Province of Prince Edward Island, that the section added to the 57 Vic. Cap. 16 by 61 Vic. Cap. 6, be amended by striking out the words "and as Stipendiary Magistrate he shall have exclusive jurisdiction in said Townships," and the said Act 57 Vic. Cap. 16 and amendments thereto shall be read and construed if the said words had never been inserted therein." At this stage the Public Accounts and the Report of the Department of Public Works were tabled. On the motion of the Premier the committee for the further consideration of the "Companies Act" After half-an-hour the Chairman (Mr. Temple McDonald) on the motion of the Premier reported progress and asked leave to sit again. The motion was carried. The Lieutenant Governor then entered the House and formally assented to the Act for the appointment of the Stipendiary Magistrates of the Province. HON. MR. ARSENAULT, as Chairman of the Committee on Private Bills, reported the following bills of a private nature and recommended the payment of the fees set opposite their names: Wm. Doucette to change his name to that of Wm. Summer, \$10. An Act to incorporate the Charlottetown Curling Club, \$10. An Act to incorporate Auld Bros., Ltd., \$10. An Act to incorporate R. W. McEwen & Co., Ltd., \$30. On the motion of the Premier the House then adjourned to Friday, March 26, at 3 p. m.

DOMINION TRUSTS' PRODIGAL ACCOUNTS

(Continued from Page Two) since been reduced to about \$85,000. "The Honorable C. Dalton remitted the sum of \$85,381.25 for investment in a specified security, all of which money has been misappropriated, and he has now no security. Canadian Home Investment Company "Canadian Home Investment Company.—The company is acting as trustee for the contract-holders, and the sum of \$43,533.19 is included among the deposits. This sum is made up of the money originally taken over at March 24th, 1914 (which was then on deposit in two or three different banks), and moneys they have collected from the contract-holders since. There is no doubt but that the company should have kept all this money in separate banking account, but they failed to do this, and quite recently the Standard Trust, Limited, has been appointed receiver by an order of the court. They have made a demand on the Dominion Trust Company for this sum, which they are now unable to pay.

Shortage in Vancouver Office "The above are the largest individual examples of money which has been misappropriated. In addition to this, the company has acted as executors of various estates, and also as trustees and assignees. Practically all the moneys collected in connection with the administration and winding-up of these estates has been misappropriated. The shortage in the Vancouver office alone is \$33,502.32. Owing to the lack of time I have not investigated the shortages in the branch offices. In connection with the loan made by the company I wish to point out that at the time the transactions were entered into the security taken was considered to be sufficient, and had the company wished at that time to realize them, the market conditions were such that they could not have done so. In this report, I have called upon Mr. Baird to search the titles to some of the properties held as security. Credit Balances and Liabilities "I am submitting also as a part of this report a statement showing the credit balances and liabilities of the Dominion Trust Company to depositors, creditors and clients as at October 10, except that statements from some of the branch offices are included as at September 30; this because later returns have not been received. The total liabilities to the depositors, clients and the public amount to \$2,067,583.69, in addition to which the liability to the Royal Bank is as follows: Loan account.....\$150,000 Overdraft.....23,471 Bills under discount.....23,295 Total.....\$196,766 "As security for this indebtedness the bank holds various securities, the nominal value of which amounts to about \$1,500,000, this including \$640,000 for the holdings in the British Columbia Securities, Limited, a subsidiary company, various stocks and bonds of the Columbia Valley—Orchards, Limited, Seymour Air Estates, Limited, Central Okanagan Lands, Limited, the realizable value of which at the present time cannot be ascertained. Hypothecated to Bank. "In addition, there are also included amongst the securities some municipal debentures, debentures of the Howe Sound and Northern Development Company, Limited, a note of the Central Okanagan Lands, Limited, and various accepted drafts amounting to approximately \$130,000, all of which I believe will eventually be paid. "I will point out that at December 31, 1913, the company had earmarked for the security of depositors a large amount of securities, most of which have since been hypothecated to the bank as security for the above overdraft and is included in their security above referred to. I might point out that part of the indebtedness of the Central Okanagan Lands, Limited, hypothecated to the bank had previously been set aside and earmarked as security for some of the clients, therefore the company committed a breach of trust in again hypothecating it to the bank. Serious State of Affairs "Mr. Hoopes reported in September to the inspector of trust companies that from the Victoria branch there had been remitted to the head office, \$116,000 collected from depositors and clients. He forwarded trial balances of the Victoria and Regina offices. Of the latter he said there were some points in it which he did not understand, and he revealed serious state of affairs. The cash on hand was shown as \$5,180, but there was an overdraft to the Royal Bank of \$4,227.31, and assuming this to be represented by either or its equivalent there was only a net amount of \$892.69 on hand, against which liabilities which might have to be taken care of within a reasonable time or perhaps almost immediately were the following:—Depositors, \$141,275.79; clients, \$8,593.58; mortgages, \$7,762.75; trust funds, \$32,724.68; or an aggregate of \$190,356.80. "A statement of the Vancouver office showed that from April 1, 1912, to October 10, 1913, there had been deposits to the amount of \$8,553,795.10, and withdrawals to the amount of \$8,086,922.56, leaving a balance on deposit when the company closed its doors of \$467,772.54, but this was \$21,237.17 less than was on deposit at the former date named."

HOUSE OF COMMONS (Continued from Page One.) he agreed to the I. C. R. to ratify the agreement by which the Government pays \$2,700,000 for the Intercolonial Railway of New Brunswick and to authorize the Government to take over the New Brunswick and P. E. I. Railway for \$270,000. Mr F. B. Carvell asked if any new arrangements had been made regarding the St. John Valley Railway. Mr Cochrane replied that he proposed entering into an agreement under the Act in April for the roads north of Fredericton. Regarding the line from Fredericton to Gagetown, the Minister said that it would not be placed under the Act, but that a service would be given upon it. The Minister said that the new line would enable an engine to carry one-third greater load than the old line. On the new line the east-bound grade would be six-tenths per cent, and the west-bound five-tenths. The grades on the present line, he said, were over one per cent. Mr Cochrane informed W. F. Carroll that the contract of General Manager Gutelius will expire in May, and that it is almost certain to be renewed, as he is giving satisfactory service to the Government. Mr Carroll thereupon declared that Mr Gutelius is not worth the \$20,000 per annum he is being paid. He believed that in expressing such an opinion he was in line with the views of the member for Colchester (Mr Stanfield, chief Government whip). He believed that there were men who had grown up in the service, some of whom had left it to go to other railways just as capable of managing the road as Mr Gutelius. Replying to his critics, the Minister of Railways said that in the administration of the intercolonial he had endeavoured to look after the interests, not only of the Maritime Provinces, but of the whole people of Canada. He had tried to keep out politics, and he believed that that was in the interest of both the employees and of the people at large. He might be wrong, but as long as he held his position he intended to carry out that policy. Another principle which he had laid down was that promotion should be by merit and by merit alone. Mr Cochrane said that he was not the

only Minister of Railways who had been criticised. He had heard that a former occupant of that position had locked his car door at stations to avoid troublesome callers. He had never locked his car door at stations. Proceeding, Mr Cochrane said that under the present Government the pay of employees had been increased a tremendous amount in the aggregate. He thought that there was no railway in the land which had a better class of employees as a whole than the I.C.R., and every man who showed that he took an interest in his work was being watched for promotion. Regarding the change in the system of management, Mr Cochrane said that he did not think that the system in vogue under Mr Graham had worked well. Mr Pottinger was a good man, but he was getting old. He had kept Mr Brady over from the former Board because Mr Brady had seemed

to know more about the road than anybody else and had been able to give the Minister the information he required. Mr Cochrane said that the management was getting the confidence of the men now. The men realized that the management had their welfare at heart. They were taking great interest in their campaign for safety first, both for themselves and for the safety of the travelling public. Mr Gutelius, said the Minister, had satisfied him to the full. He was prepared to take complete responsibility for what Mr Gutelius had done. He did not think the salary he received was excessive, and he proposed to keep him at that salary as long as he had the consent of his colleagues. The chief trouble with the I.C.R. in the past, Mr Cochrane thought, had been that they tried to get grades instead of getting freed of them.
