A MARVELOUS MACHINE WHICH OPERATES A UTOMATICALLY

The Last Word In Phonograph Production—Sensational In Its Mechanical Construction And Workmanship Can Be Heard At Miller Bros.

During the past number of years, rapid progress has been made in the production of high class phonographs. Every attention has been paid in order to place on the market a development that will fulfill all the requirements of the music lover. With the production of the Automatic Orthophonic Victrola, the last word in this form of music entertainment has been realized and the public supplied with an instrument which is, in its mechanical construction unique and in its cabinet workmanship a product of art.

This marvel of music instruments is now being demonstrated at Miller Bros. Show Rooms. On account of its original sensational construction it is being viewed by many who marvel at this latest achievement of Victrola engineers. The cabinet, beautiful and striking in its design is made of the best American walnut and divided into two compartments. In one an idea can be obtained of how this instrument is the triumph of phonograph construction. It changes its own records by means of a specially constructed magazine spindle, which holds twelve records and when one is finished it is carefully deposited in a special felt-lined compartment, replacing it with another record, and repeating the operation until all have been played when the machine automatically stops.

It is this device which places the instrument above all former productions, and renders it the long looked for realization of musical entertainment.

All the nuisance and bother of personal attention to the machine is eliminated. All that is necessary is the placing of the records on the magazine arm, the touching of a switch and then the machine will automatically operate for an hour without attention of any kind. No winding is necessary as it is electrically operated.

The five distinguishing features of the Automatic Orthophonic are: It changes its own records; it plays for an hour without attention; it plays a pre-selected program of one's own choosing; it rejects any record in the program at one's desire, and it stops itself at the end of the program.

The Automatic Orthophonic retails for $775 and is on sale at Miller Bros., Queen Street where the public can at any time visit and view this latest and greatest in phonographic production.

When Brig.-Gen. Cornelius Vanderbilt III. was a young man he defied his family's wishes and picked his own bride. History has just repeated itself in the case of his aughter, Grace, who tossed aside opportunities to marry into noble European families in order to wed the man of her choice, Henry Gassaway Davis, scion of an old Virginia family. Gen. Vanderbilt and his daughter are shown above.

Canadian Historical Drawings For Framing Purposes

The Guardian has pleasure in announcing that it has procured a few complete sets of the Canadian Historical Drawings (recently published in its columns) printed on high-toned art paper suitable for framing. These pictures by Mr. C. W. Jefferys, the Distinguished Toronto Artist, are worthy of being framed not only for their historic interest but because of their artistic merit. The nominal price is $1.00 for the set of 12 pictures.

Apply early to avoid disappointment.

J. W. Fraser Is Winner Of Golfing Title

MONCTON, Aug. 18.—The championship of the Maritime Senior Golf Association was won today, on the completion of the second day's play on the Riverdale links, by J. W. Fraser, of Moncton, with a gross score of 157. The runner up was Hon. F. B. McCurdy, Ashburn Club, Halifax, whose gross score was 167. The best net score was registered by A. C. Currie, Riverside Club, Saint John, with a total of 135. The runner up for the second best net score was J. L. McDonald, of Moncton, 139.

In class A the best gross score that of Dr. H. K. McDonald, Ashburn Club, Halifax, 179, and the best net score was that of W. C. McInnes, Lingan Club, Sydney, 143.

In class B, the best gross score was registered by Senator C. W. Robin, Moncton, 171, and the best net score by Prof. Desbarres, Sackville, 131.

The leaders in class C were best gross score, A. C. Puddington, Westville Club, Saint John, 170, and best net score Dr. J. H. Magee, Riverside, Saint John, 148.

The highest gross score for the thirty-six holes was registered by F. E. Dennison, Moncton with 267.

Liverpool Defeats Kentville Nine

LIVERPOOL, Aug. 18.—Liverpool champions of the South Shore, defeated Kentville, Valley representatives by 11 to 0 in the first playoff game in this section of the Nova Scotia baseball championship, this afternoon. Eight hundred spectators attended. Liverpool scored four in the first, two in the fifth and sixth one in the seventh and three in the eighth.

Meeting Of Associated Boards Of Trade

The following letter speaks for itself:

To Boards of Trade, Farmers' Institutes, Agricultural and Live Stock Societies, Egg Circles, Fishermen's Clubs and the Provincial Women's Institutes:

At an Executive meeting of the Prince Edward Island Associated Boards of Trade, held recently, it was decided to hold the annual meeting on Thursday, the 25th day of August, at Charlottetown.

The first, on morning session, of Voting Delegates only, will take place in the Bord of Trade Rooms, at 10.30, when routine business will be disposed of, such as reading of Minutes, appointment of Committees, and Election of Officers, etc.

The afternoon session will be held at the Experimental Farm at three o'clock, when the President's Report will be presented, followed by Addresses, and discussions of matters of great importance, such as Freight Rates, and the need of a permanent Traffic Expert, as well as other questions of economic importance to the advancement and prosperity of our Province.

Every Farmers' Institute, Live Stock Society or Club, Egg Circle, Fishermen's Society, and the Provincial Women's Institute, is invited to send, at least, two delegates to the afternoon session. All members of Boards of Trade are entitled to attend and participate in the discussions.

All Boards, Societies, Clubs, or Institutes, having problems of Provincial importance to submit, are requested to give notice as early as possible prior to the meeting, and all resolutions should be in the hands of the Secretary not later than the 20th of August, for consideration of the Resolution Committee.

A Picnic Supper will be served, by the Management at the Experimental Farm, to those attending the afternoon session, and it is, therefore, absolutely necessary that the Secretry be notified, not later than the 20th of August, of the names of all those who purpose attending, so that provision can be made. Tickets will be issued, without charge, for the Supper, to those in attendance at the afternoon session.

Yours faithfully,
J. O. HYNDMAN, President,
G. ELLIOTT FULL, Secretary.

"I am an Agnostic!" said a young man, in swelling accents. "And an Agnostic is what?" inquired an elderly gentleman. "An Agnostic," replied the fresh youth, in a manner expressive of his pity for his interlocutor's ignorance—"an Agnostic is a fellow, you know, who isn't sure of anything." "I see," replied the old gentleman. "But how does it happen that you are sure you are an Agnostic?"

Westville Teams Wins Series From Waterford

GLACE BAY, Aug. 18.—Westville made it two straight at New Waterford today when they won from Cape Breton champions by the score of four to two in one of the snappiest amateur ball games seen here for some time. As on the previous day, the Waterford hitters were helpless before another Westville southpaw, Sandy Marshall, who in the eight innings that he pitched allowed one hit to the Waterford team, a triple by F. Connors, first man up in the eighth. He started away a bit rocky but though the home players connected with his offerings they could not hit him safely and with that his team-mates gave him some flashy support in the pinches. McIntosh was in difficulty several times, particularly in the sixth innings, and had Flemming with his speed gone on the box in the ninth inning, when it was beginning to get dark the result might have been different. W. Richardson went in to pitch, Cormier going to first base.

Halifax Team Plays Poorly Against Miners

SPRINGHILL, Aug. 18.—The local "fence busters" got away to a good start in the provincial play-offs by taking a 11 to 5 win over the visiting St. Agnes' team. The game was one of the worst ever played on the local diamond, with the visitors pulling off most of the misplays. The champions of the Halifax Twilight League were not expected to make much of a showing against the local nine, but there is little doubt but they would have made a much better showing than was expected of them if they had not put up one of the worst games of their career. Whether it was stage fright or plain nervousness we can't say, but we do say that we have never seen the St. Agnes play as rotten as they did today. McLeod was on the hill for the winners and he twirled a good game. He had eight strikeouts, walked two and allowed six hits. Hatherley pitched for the visitors and turned in a nice game, and would have held the winners down to a much lower score had he been given any kind of support.

RUTH GETS HIS 38TH

NEW YORK, Aug. 18.—Babe Ruth's 38th home run smash today broke up an eleven-inning pitching battle between George Connally of the White Sox, and Pipgras and Moore of the Yankees, to give New York its second straight triumph at Chicago by 3-2. Ruth's blow placed him in a deadlock with his mate, Lou Gehrig for home run honors.

Associated Boards Of Trade

The annual meeting of the Associated Boards of Trade will be held at the Experimental Farm, Charlottetown, on Thursday next, August 25th.

The sessions of the day will be concluded with a banquet in the evening. Farmers are particularly invited to the discussions, for matters of mutual interest to business men and agriculturists will be taken up.

This is a Provincial matter, and Provincial questions will be dealt with. By working together the farmers and the business men of this Province can bring about a still greater production and a wider trade than we have heretofore enjoyed. The more these two important bodies get together, and the greater the co-operation and the relationship between them, the more may be expected to their mutual advantage.

In this Island we are all bound up together, to a great extent—greater perhaps than in any other Province of Canada—by kinship, for most of our people are either directly or indirectly related to one another.

Important addresses will be given by prominent speakers. There will be practical talks by men who have studied the matters that they will take up.

No doubt the outcome of this get-together meeting will be profitable and be to the advantage not only of the farmers and business men, but to all our people generally.

Mr. J. O. Hyndman, the energetic President, will preside.

Douglas—Pigot

A very pretty wedding took place in Mt. Stewart United Church on the evening of Wednesday, Aug. 10th, when Miss Edith E. Pigott, only daughter of Mr. and Mrs. Ross Pigott of Mt. Stewart, was united in marriage to Mr Otis Harvey Douglas of Head of Hillsborough, youngest son of the late Elisha A., and Mrs. Douglas.

The church was prettily decorated for the occasion with potted plants and cut flowers. The bride was very becomingly gowned in white georgette crepe trimmed with rhinestones, veil and orange blossoms, carried shower bouquet of white carnations and maidenhair fern. The ushers were Mr. Harold Coffin and Mr. Ira Douglas cousins of the groom. After the young couple received congratulations from the many friends present they repaired to the bride's home where a reception was held and dainty supper served to the immediate relatives of the bride and groom. A jolly crowd of serenaders assembled which added to the merriment of the occasion.

The young couple left for a short motor trip to some of the beauty spots of the Province.

Many gifts were received from friends and relatives. The bride had been organist of the Mt. Stewart Church for some time prior to her marriage.

They will reside in their new home at Head of Hillsborough, where the groom is a progressive young farmer.

Minard's Liniment for toothache.

Rothesay Star Fights Way To Finals

MONCTON, Aug. 18. — Jack Thomson, of Rothesay, playing the most brilliant tennis of his career triumphed over M. C. Horner, of Moncton, sensational find of this year's tournament, in the semi-finals of the men's singles of the N. B. tennis championships here yesterday morning. The match went to five sets and produced the keenest competition and was the finest singles event in many years of New Brunswick tennis.

Horner's wonderful comeback, after Thomson had two sets up and the score 5—2 in the third set, was one of the most thrilling things in years. The Moncton man took the set 8—6 and swept through the fourth at 6—2, leaving the gallery spellbound. Thomson hit his stride in the last set, and with his beautifully executed strokes working perfectly and Horner, weakening after the strain of his uphill fight, ran out the match, the last set going 6—3. The gallery gave both players a wonderful ovation.

BASEBALL

The Maritime College Players Baseball team have arrived in the city by motor bus and are all in readiness to meet the Abegweits this evening on the local diamond.

As the evenings are getting short and they are anxious to crowd as much baseball as possible into the game they have decided to get the game under way at sharp 6 o'clock and the fans are asked to be on hand as early as possible so they will have a chance to see two champion teams in action from start to finish.

The Maritime College Players are a snappy lot and the fans know the good ball the Abegweits are putting up so that the game this evening should be a hum dinger from the outset.

A little encouragement is surely due the Abegweits for bringing such high class ball players to the city for games and we hope the fans will take full advantage by being present to give the boys a hand out each way.

They play this evening and again on Saturday evening at the same hour, so that the fans will have a chance of sizing both teams up to see how they class for the coming Maritime play-off.

Do not forget this evening at six o'clock at the Abegweit grounds.

INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body and produce ill health.

HAVE YOUR EYES EXAMINED
