A New Egg Factory

As will be seen by an advertisement in this paper Mr. J. M. Auld is again engaged in the business of buying and exporting Island eggs.

Associated with him is his nephew Mr. Leslie F. Simmons and their egg warehouse and office is at 21 to 217 Water street close to the R.R. Station.

Mr. Auld's connection with the egg business dates back quite a while to the years when he occupied the large warehouse on Grafton street near the present Prince Edward Theatre building and where he built up a large and profitable business and became the leading exporter of eggs of this province.

Mr. Auld built the first cold storage plant, and was the first to apply the cold storage system in the handling of Island eggs, and as this system, here and elsewhere, has since added millions of dollars to the value of the egg output of this province no apology is due from him for having introduced it.

The new firm do not aim to handle any very large part of the great quantity of eggs exported from this Island, but by close attention to the business and paying the very highest prices for eggs of high quality they expect to develop a first-class egg business of good size and at the same time help to raise the standard of quality and the value of Island eggs.

The location of this new egg factory is very convenient to people coming to this city by rail.
