DAVID KENNEDY AND JESSIE MACLAGHLAN.

Though it is thirty years or thereabouts since David Kennedy and Jessie MacLachlan were heard here, his rendition of Scottish Song and Story will never be forgotten by those who had the pleasure of hearing them. The same applies to Jessie MacLachlan whose sojourn among us is of but recent date. On the 12 of next month we will have an entertainment combining the pleasure received in both the Kennedy and MacLachlan concerts. In Geo. Neil, Mackenzie Murdoch, and Harry Munroe, we will hear the greatest tenor, Violinist, and Character Comedian at present before the public in Scotland, beside a fine soprano Flora Meivor Craig, and Alfred Lawrence Murdoch, Pianist. In Scottish song the program will be replete. In Scottish story add comic song Harry Munroe may be expected to compare with the late Kennedy and as for the wonderful violinist the Scotch airs as he will play them will prove a revelation to all patrons. Plan opens at the usual places Friday Nov. 6th.

STARTLING REVELATIONS. It frequently happens that people suffer for years from kidney derangements without knowing the cause of their backaches, aching limbs and other bodily sufferings, suddenly the truth is revealed to them that they are the victims of serious kidney disease and in imminent danger. There is no medicine which gives such prompt and lasting relief for every form of kidney disease as Dr. Chase's Kidney-Liver Pills. They are positively effective even in the most chronic cases.

WOULD FIGHT IN NIGHT GOWN

Says Chief Irish Secretary Wyndham At Dover.

LONDON, Oct. 25—Chief Irish Secretary Wyndham, whose declaration on the fiscal policy has been awaited with considerable interest spoke at Dover. He announced himself as thoroughly in accord with Premier Balfour and Joseph Chamberlain in fiscal matters and he paid a tribute to the former Colonial Secretary as "the man who had seen the lack of wisdom of the Nation entering the commercial lists without arms and without armor." Mr. Wyndham said that the American tariff of 1896 was the greatest protectionist tariff ever introduced in the history of the world, and that its results refuted the declaration that protection killed the industry and the energy of a country. This had also been proved, he continued, by recent history in France and Germany. In conclusion Mr. Wyndham said he was not a protectionist but a champion of free trade he was willing to fight for it, but he declared that to discard the armor of retaliation was to enter the contest in a night gown.

BOSTON PUBLISHER COMMITS SUICIDE

Haverhill, Mass., Oct. 24—The body of Frederick G. Tuttle, the treasurer of the Banner of Light Publishing Company, publishers of the Spiritualist organ, with offices at 204 Dartmouth street, Boston, was found in Lake Pentucket yesterday. In letters to his family at Needham and a brother, Frank D. Tuttle, of Fitchburg, mailed here at 11 o'clock yesterday, Mr. Tuttle communicated his intention of committing suicide and said that his body would be found in the lake. The suicide of Mr. Tuttle was a great shock to a large circle of business and social acquaintances, and is generally credited to a temporary derangement of the mind following a nervous collapse. For a few days past Mr. Tuttle's actions had caused some uneasiness on the part of his family, but what brought about his mental breakdown is not generally known. Frank D. Tuttle said tonight that his brother had recently interested himself in a large financial undertaking that promised to make him independently rich. The failure of the scheme to materialize, as he had hoped, Mr. Tuttle thought, affected his brother's mind. Yesterday morning Mr. Tuttle left his home ostensibly for his office in Boston, and at that time had said or done nothing which caused his family to believe that he planned a desperate act.

NEWS FROM THE METHODIST SEAT OF LEARNING IN NEW BRUNSWICK.

Rev. Dr. Paisley, Dean of Theology preached in the Sackville Methodist Church Sunday morning.

On Tuesday 20th, the Sackville Epworth League invited the students of the Academy, Ladies' College and University to a reception. An excellent program was rendered, after which there was a social, hour and refreshments.

On Wednesday 21st, the Athletic Association held a business meeting and voted money to pay the expenses of a football trip to Truro. As Truro did not offer sufficient guarantee, the project has since fallen through.

The concert given by the Faculty of the Ladies' College last Friday was of exceptional quality especially notable was it for the many encores. Last year's favorites were as popular as ever. Professor Wilson, Miss Hathaway, Miss Webb and Miss Richardson received round after round of applause. The new vocalists Miss Ruggles and Miss Hingley took the audience by storm. Music lovers here are looking for their next appearance with keen interest. Miss Plummer, the new pianist, performed most artistically. The Ladies' College this year has a highly efficient corps of teachers in music, and we are compelled to prophesy an unusually successful year for the Conservatory.

Much interest is centered on the football game this week between University of New Brunswick and Mt. Allison. It is reported that U. N. B. has a better team than ever. Last year's game resulted 9-0 in favor of Mt. Allison.

LOU DILLON IS THE QUEEN TURF

Plucky Mare Trots a Marvelous mile

"She's Faster Than Any Pacer on Earth," Says Her Driver Goes the Distance in the Time of 1:58 1-2.

MEMPHIS, Tenn., Oct. 24.—Lou Dillon, owned by C. K. G. Billings, of Chicago, and driven by Millard Sanders, this afternoon proved her right to the title of Queen of the turf by trotting a mile under adverse conditions in the remarkable time of 1:58 1/2. The daughter of Sidney Dillon was paced by a runner driven by Scott McCoy and another runner followed closely to urge the mare to a supreme effort. The track was perfect. A strong wind from the north swept down the back stretch, however, and Judge Newton announced to the spectators that too much should not be expected of the game little trotter. Lou Dillon appeared on the track at 5.10 p. m. and after a preliminary canter Sanders announced that he was ready for the start. The two runners were lined in position and it was noticed that a strip of board about one yard wide was fastened to the pace maker's sulky, directly under the seat. This, it was announced, was used to keep the dust out of the mare's face.

At the first start, Sanders nodded for the word and the flag dropped. After going an eighth of a mile Sanders yelled to McCoy to drive faster and it looked as if the mare would catch the runner. Taking the first turn, the remarkable work of Lou Dillon could be better seen by the thousands present, and like a piece of perfect machinery, she reached the quarter pole in 30 seconds.

The turn for the back stretch was won reached and many expected to see the champion falter, because of the wind. To

the surprise of everyone, Lou Dillon seemed to travel faster and when the half mile was reached the time slate clicked out 59 1/2. A great cheer arose and many horsemen predicted that a new record was making. On the far turn McCoy was forced to whip the runner to keep clear of the trotting marvel which was pushing him closely. The three-quarters pole was passed in 1:28 1/2 and the mare had turned for home. The wind now was an advantage rather than a detriment and with a superb burst of speed Lou Dillon urged on by the shouts of the drivers and by the runners, dashed under the wire in 1:58 1/2.

When the time was flashed to the spectators, hats were flung high into the air and cheer followed cheer. Sanders was lifted from his sulky by an admiring throng while Mr. Billings was showered with congratulations. The watches of the three timers agreed to a fraction and many horsemen standing in the infield caught the time as officially announced, to a fraction. The timers were Bud Doble, Fred Hartwell of Chicago, and John Dickerson of New York. After the mare had been blanketed and sent to her barn, her driver said: "I am not a bit surprised at the result of Lou Dillon's effort. I expected to break the world's record despite the adverse conditions. I desire to say that it is my candid opinion that Lou Dillon can trot as fast as any horse in the world can pace and next year I will demonstrate this statement. With perfect conditions today I would be afraid to say how fast the mare would have trotted the mile."

MESSENGRERS LOCKED OUT

By the Company Who Anticipated Trouble.

BOSTON, Oct. 24—More than 150 boys employed by the American District Telegram Messenger service were locked out yesterday as a result of friction over the formation of a union among the lads. The trouble began several weeks ago and reached a climax resulting in the indefinite suspension of Charles Winters, president of the Messengers' Union. The organization officials tried to have Winters reinstated, but failed. The messengers began to talk strike, and a special meeting of the union was held, but mainly, it is said, through the efforts of the suspended President Winters and men prominent in organized labor, a strike was averted. It is said that no intimation was given, that any further action by either side would be taken until when the boys were told that their services would no longer be required. They were dismissed in body. The company has filled the boys' places with men, women and girls. The company's management state that they have been subject to the whims and fancies of the boys until a decided stand had to be taken.

THERE'S NOT EVEN MENACE OF WAR

PARIS, Oct. 24—The Japanese legation here and the French foreign office do not believe that war between Russia and Japan is imminent. They say the negotiations continue, and they predict a peaceful termination of the conference at Tokio. Dr. Motono, the Japanese minister here, made a formal statement during the day, denying the report from Honolulu of a declaration of war; but only had there been no serious menace of war, all the alarmist rumors to the contrary. The minister added: "The information which I have received shows the negotiations are proceeding at Tokio in a normal and satisfactory manner. Japan seeks certain legitimate guarantees, but she maintains most conciliatory sentiments. Russia has the same disposition. We therefore expect that a solution will not long be deferred and that it will be equally satisfactory to both."

SPEAKER'S SORE THROAT. Public speakers and singers know how useless and sickening are cough mixtures and sprays, lozenges, etc., for irritable or sore throat, and state that the most satisfactory remedy is Catarrhose. The advantage of which is that it acts quickly and is convenient to use in public places. Catarrhose relieves congestion, allays inflammation, and is a protection to the membrane. As a safe guard against colds and Catarrh it has no equal. Rev. Mr. McKay, Goletich, says "Catarrhose is an excellent remedy for throat irritation.
