Dr. A. Gilmore

An assistant surgeon in the British East Indian Army says a native, swallowed 15 rupies worth $7.50 one of which is shown in the museum of the College of physicians and surgeons of London. Now we are going to give a reduction of 40 per cent off for three or four weeks as we want money on account of having a dull trade the past winter, and we are going to make better of it than swallowing it or putting it on exhibition or museums. We want the money to pay for our new goods just arrived and also to pay other bills, so come along and help us. We have some very nice Broocies, rings, sleeve links, watches and chains, ladies' guard chains, stick pins, clocks, silver ware, spectacles, etc.

Does it not seem more effective to breathe in a remedy, to cure disease of the breathing organs, than to take the remedy into the stomach?

Vapo-Cresolene

Established 1879.

Cures While You Sleep

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Is a boon to asthmatics.

—FOR—

Whooping Cough	Bronchitis
Croup	Coughs
Catarrh, Colds	Grippe and Hay Fever

The Vaporizer and Lamp, which should last a lifetime, together with a bottle of Cresolene, $1.50. Extra supplies of Cresolene 25 cents and 50 cents. Write for descriptive booklet containing highest testimony as to its value.

VAPO-CRESOLENE IS SOLD BY DRUGGISTS EVERYWHERE.

HOW TOBACCO ACTS.

Effects on Human Body Shown by Some Scientific Tests—Interesting in View of Commons' Vote.

Tobacco, like all elements which have an effect upon the nerves, differs widely in its actions upon different individuals and no sweeping statements can be made, says a writer in The World's Work. Upon most constitutions its action is deleterious. It is always injurious before the period of complete development and cannot be used before the age of twenty-five without harm.

Dr. Seaver, director of the physical laboratory at Yale, tabulated the record of the students entering that university during nine years, when all the young men were examined and measured. The smokers averaged fifteen months older than the nonsmokers. They were also shorter in stature.

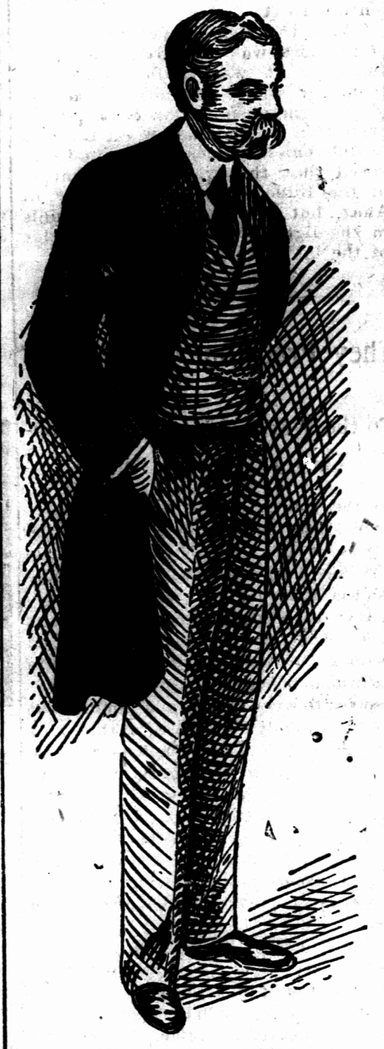
Nicotine interferes with growth, and its effect in that regard is very measurable. At Yale during the four years' course the non-users of tobacco, although taller when they enter, gain 24 per cent. more in height and 26.7 per cent. more in girth of chest than do the habitual users. Dr. Hitchcock of Amherst College found even greater differences. The difference in the lung capacity is very striking in the two classes and has been noticed by all observers. It shows the effect of tobacco on the respiration, nicotine being a potent depressor.

As regards the effect of nicotine on the mental processes it is more difficult to interpret the meaning of statistics. Out of the highest scholarship men at Yale only 5 per cent. use tobacco, while of the men who do not get appointments 60 per cent. use it. It is not necessary to interpret this as meaning that mental decrepitude follows the use of tobacco by young men, for there are other factors to be considered, but it is certainly not conducive to the best work.

THE NEW DIPLOMACY.

Sir Michael Herbert a Leading Exponent at Washington.

Sir Michael Herbert, the new British Ambassador at Washington, has only been a few weeks at his post, but in that time he has done some things of importance, chief among them being the closing up of the Venezuelan mess, and the completion of the Alaska treaty. He is a close personal friend of President Roosevelt, and will, it is understood, co-



SIR MICHAEL HERBERT.

operate with the President and Secretary Hay in the settlement of all outstanding questions between Canada and the United States. Official sentiment at Washington strongly favors the re-assembling of the Joint High Commission at an early day. Sir Michael is an exponent of the new diplomacy, which is another name for straightforward dealing and publicity, as opposed to intrigue and deception. Whether Washington is a good field for the practise of the new diplomacy is a problem still to be solved.

Whitaker Wright.

Whittaker Wright, who was recently arrested in New York, promoted the London and Globe Finance Cor-

poration, Limited, and its failure caused a loss of $100,000,000. Wright is held in New York for extradition.

An Automobile Fire Engine.

Oil is the fuel employed by this automobile fire engine and the steam it generates is used alike for the propulsion of the machine and for pumping the water through the hose. This particular engine is the inven-

AUTOMOBILE FIRE ENGINE.

tion of an Englishman, who has succeeded in having it adopted by the London fire brigade. If they should do all that is claimed for them, it may not be many years before horses as an adjunct of a fire department will be things of the past. These machines have under rather unfavorable conditions attained a speed in excess of fifteen miles an hour.

Curious Prophecy.

In the year 1913, ten years hence, the German Empire is to go to pieces, according to a Polish prophet. His reasons for the prophecy are so cogent that there is no room for doubt.

Take, he says, the year 1849, the date when the "constitution of the German Empire" was first framed, and add the figures. The result is twenty-two. If this is added to 1849 we get 1871, the year when the German Empire was founded.

Now add together the figures of that year. Result, seventeen. Tack this on to 1871 and 1888 comes out, the year when Germany lost her first two Emperors, the Emperors William and Frederick.

Repeat the addition process 1x8x 8x8 equals 25; 1888x25 equals 1913.

What does this signify? To most people nothing more than 1913. But the Polish prophet has an answer pat—1913 is the date of Germany's destruction? Could anything be clearer?

Great Natural Flying Machines.

The largest flying machine in nature is found by Langley and Lucas to have been the Ornithostoma ingens, the greatest of the pterodactyls of ancient days, whose body weight was probably about thirty pounds and whose extended wings measured about twenty feet from tip to tip. The largest of existing flying creatures is the albatross, which has a weight of eighteen pounds and a spread of wing of eleven and one-half feet, though its wing area is but seven square feet, while it develops only a twentieth of a horse-power, and such is this bird's power of progression by mysterious soaring that a tagged individual has been known to traverse at least 3,150 miles in twelve days.

Pains in the Back For Twenty Years

Could Not Turn Over in Bed—Kidneys and Bladder Affected—Experienced Great Suffering—Cured by

Dr. Chase's SYRUP OF Linseed and Turpentine.

The old people especially appreciate the effectiveness of Dr. Chase's Kidney-Liver Pills, because the kidneys are usually the first of the bodily organs to give out, and the result is backache, lumbago, pains in the side and limbs, urinary disorders and constipation.

Old people learn to trust in Dr. Chase's Kidney Liver Pills, for when all other treatment fails this great medicine seems to go directly to the diseased part, and promptly affords relief and cure.

Mr. David Misener, farmer, an old and respected resident of Port Robinson Welland County, Ont, writes:—"I wish to state to you that I had pain in my back and left side for over twenty years. At times I could not turn over in bed, I was so badly used up. I had cramps in my feet and legs, and my hands were so entirely useless that I could scarcely lift anything.'

"Kidney disease was, no doubt the cause of all my suffering, and sometimes the urinary trouble would be so bad that I would have to get up five or six times during the night. Fortunately, I began using Dr. Chase's Kidney Liver Pills, and they cured me completely. I am now seventy nine years old and quite well now, but still occasionally use these pills to keep my system in good order. Several persons to whom I have recommended Dr. Chase's Kidney-Liver Pills have been equally benefited."

Dr. Chase's Kidney-Liver Pills have the comfort of old age, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co. Toronto.

INTENSE HEAT.

NEW YORK, May 2.—Two deaths and about a dozen cases of prostration today marked the hottest weather ever recorded by the local weather bureau on May 20 since a record of maximum of the daily temperature has been kept.

PENNY POSTAGE COMPLETE.

OTTAWA, May 20.—Monday the 25th, penny postage will go into effect from Canada to Australia. This historic day Victoria Day, will see the completion of Penny Postage from Canada to all parts of the British Empire.

The North American Life Assurance Co., Toronto, Ont.

DEAR SIR,—I AM in receipt of your cheque for $1,296.00, through your Provincial Manager at Halifax, in settlement of my policy No. 4431, which matured this month.

This policy was a 15 Year Endowment, 15 Year Investment period, for $1,000.00, and I find that I have had this amount of protection for fifteen years, and have received $273.00 more from the Company than I paid in for premiums.

I am so pleased with these results that I intend to take out another Endowment policy with your Company.

Yours truly, W. H. DORY.
