VEEDOL

Veedol is called "The Lubricant that resists heat." Think carefully just what that phrase means—there are lubricants which do not resist heat and are consequently cheaper to buy.
But for use, for service, and for its effect within the cylinders of the internal combustion engine of automobile, motorboat or airplane, Veedol is the cheapest lubricant that can be obtained. The cost of a cylinder oil is to be measured by its lubricating value and on this basis Veedol is the choice of the experienced Motorist.

connection with land settlement for soldiers, for which the sum of over twenty-five million dollars is to be voted. Another large proposed expenditure is \$22,763,420, provided the Department of Soldiers' Civil Re-establishment, which includes the amount to be devoted to vocational training of returned men.

The railway and canal votes, chargeable to capital, include over eleven million dollars for Government Railway equipment. The \$100,000 Hudson Bay vote is for Port Nelson terminals. Provision is made for the spending of \$2,500,000 on the Wolland Canal.

Railways and canal votes, chargeable to income, total over thirty-six million dollars. This sum includes a loan, not exceeding thirty-five million dollars, repayable on demand, with interest payable half yearly at the rate of six per cent., to be used to meet expenditures or indebtedness incurred in paying interest on securities in excess of the amount available from net earnings, or paying maturing loans of the Canadian Northern Railway Company, or any other company included in the Canadian Northern System, and for construction and betterments, said loan to be secured by mortgage upon the undertaking of the Canadian Northern Railway System, containing such terms and conditions as the governor-in-council may approve.

Harbor and river votes, chargeable to capital, include three hundred thousand dollars for improvements at Port Arthur and Fort William, \$750,
