

# MONTAGUE, SOURIS and KING'S COUNTY

...It pays to buy in this Province.

...James Hayes, of Souris west, left this week for Winnipeg.—J.

...Jan. Paquet, of Souris, left this week to attend the military school in Quebec.—J.

...Hon. Lauchlan McDonald of East Point, was in Souris yesterday. He intends leaving for Charlottetown this morning.—J.

...George Mellick of the Klondike Lumber Mills, Souris, who has been confined to his home with quinsy is able to be out again.—J.

...Andrew Mooney, of Souris, left yesterday en route for the western part of the Province. Mr. Mooney represents the Page Wire Fence Co.—J.

...A number of young people left Souris at 6 p.m. last evening for Clear Springs where they spent a pleasant evening in music and dancing at the home of Mr. McDonald.—J.

...A Mt Hope Correspondent writes: The farmers of this vicinity are busy hauling wood.—The roads have been in bad condition since Jan 15th.—The mail carrier, Leo Burdge, is giving us good satisfaction in carrying the mail from the Five Houses Station to Mount Hope.—George E. St. Aubin delivered a lecture here on Tuesday on his trip through the Western States and Canada. He is the right man in the right place. The people of this vicinity are sorry to learn that Daniel McKay, butcher, has decided to move west.—George Dechond is busy hauling lumber for a large two-story house which he intends building next spring.—Allan J. McDonald is doing a rushing business in his new blacksmith shop.

On Sunday evening, 5th February, William Stewart of West River, East Point, passed away at the age of 75, another link of the fast shortening chain, linking the present with the past. He was the youngest son of the late William Stewart of the same place, his elder and only brother, John, being lost at sea on the schooner Sweepstakes on the trip from Gloucester, Mass., to Gloucester on Cold Friday, Feb. 8, 1851, and William was buried on the 11th Feb., 1911, fifty years afterwards. William, too, had a close call. When a young man he was one of five aboard a small schooner called the Almira, which capsized on a stormy night of the North Side. Three of the crew were drowned, but he and the captain, John Beaton, of East Point, clung to the side of the floating wreck, every sea washing over them, till she drifted ashore at Black Point, a short distance west from East Point, a place noted for its wrecks for a century. In early life he married Miss Emily Leet, who with three daughters predeceased him. Four sons and five daughters remain. Three sons and one daughter are at present in the United States, while one son, Charles, lives of the old homestead. The funeral took place on Tuesday and was largely attended. Services were conducted by Rev. G. F. Camp. Though by no means exempt from human failings, he had many qualities of head and heart that were worthy of imitation, and this tribute to his memory is written by his old neighbor of many years.

### HOUSEHOLD HINTS.

When a room reeks of tobacco smoke set a bowl of cold water some where in the room and the odor will soon be absorbed.

To clean white fur rub in a paste made of cornmeal and gasoline and shake it out well. This must not be done near the fire.

In making creamed oysters use all the liquor from the oysters in place of some of the milk. This quite changes the flavor of the dish.

Butternuts make a delicious filling for dates as anything to be found. Candy made of maple sugar and butternuts cannot be excelled.

A mixture of finely powdered Fuller's earth and alum is excellent for cleaning white gloves. It should be rubbed in well, then brushed off, and the gloves sprinkled with dry bran and whitened.

Patent leather shoes should be carefully wiped off with a soft cloth when they are removed and then a few drops of olive oil should be rubbed into them. This will keep the leather soft and prevent them from cracking.

When the knob of a teakettle cover, coffee pot or kettle lid falls off, many a horn can be prevented by using as a substitute a medium-sized cork, held in place by a slender screw driven from the under side of the lid. The most practical use for old corks is to make a low fire burn up. Empty spoons also make good kindling, and if these things are saved it will be surprising how many will accumulate in the average household.

An excellent way to pad the edges of dollies or centrepieces before buttonholing them is to work the chain stitch in rather coarse cotton. The depth of the scallop is a determining factor as to the size of the thread to use.

### SPORTING NEWS FROM ABROAD

MONTREAL, Feb. 7.—Canadiens had an easy victory over the Wanderers tonight, winning by nine goals to two. The Wanderers were out-pointed at every stage of the game, and towards the end tried to hustle the Frenchmen, and at one time it looked as if the game would end in a free fight. The final period of the game degenerated with a brutal attack by Wanderers to the penalty timer's box until there were only two of them left on the ice.

The standing of the league is as follows:

Won.	Lost.	To Play.
Ottawa..... 8	0	8
Wanderers..... 5	4	7
Canadiens..... 5	4	7
Renfrew..... 3	6	7
Quebec..... 1	8	7

This week's games—Wanderers at Ottawa; Quebec vs. Canadiens at Montreal.

TORONTO, Feb. 8.—George Hackenschmidt, the Russian wrestler, defeated Dr. Roller, of Seattle, in two straight falls before a big crowd at the Riverdale rink last night. The first fall was secured in one hour, 16 minutes, and the second in 13 minutes 5 seconds.

Hackenschmidt's manager posted a \$5,000 forfeit for a match with Frank Gotch, and Tom Flanagan, of Toronto, posted a similar amount. The offer of \$50,000 made by a Toronto syndicate for a match, still is open. Gotch is matched to wrestle here with Giovanni Peroni, champion of Italy, on March 3.

DEB MOIQUES, Iowa, Feb. 8.—In a wrestling bout held here last night, Frank Gotch, champion heavyweight of the world, had an easy-time with Leo Wisconsin, throwing him in two straight falls, the first fall in 25 minutes, the second in nine minutes. It was a tame affair.

BOSTON, Feb. 9.—Alfie Shrubbs, will not have it that he did not make a new record for fifteen miles in his recent races in Baltimore, and once more asserts that he was never run- ning faster in his life. Shrubbs wrote me a letter from Philadelphia which arrived yesterday. In his letter the little Englishman states: "The track upon which I ran was eight laps to the mile and the correct time was 1h. 19m. 58s. and not 1h. 19m. 1s. as the London papers have made it. It is 1h. 19m. 58s. and that was correct, and is a new world's record." Shrubbs, as a rule, is inclined to be modest, and does not usually claim records that he is not entitled to and I am quoting from this letter to show that he is sincere in his claims. The measurement of these indoor tracks is somewhat unexact.

SARANAC LAKE, Feb. 7.—Edmund Lamy, the amateur champion, made a broad jump on the ice here yesterday of 25 feet 2 inches, breaking the world's record by 3 feet 7 inches. The record held by P. McDaniels until now was made at Minneapolis, Dec. 23, 1907, when he made a broad jump of 21 feet 7 inches.

#### Evangelist Macmillan Coming

Evangelist A. H. Macmillan, of the City of New York, and able exponent of Biblical doctrine, is to be in Charlottetown on Sunday, Feb. 11, and will speak in the Opera House at 2.30 o'clock in the afternoon.

Mr. Macmillan has won encomiums of praise for his exceedingly logical treatment of his subjects, and, being an extensive traveller, is in a position to speak intelligently of existing conditions in the Christian world, and also of heathendom.

His subject Sunday afternoon will be "How Shall God Save the Heathen?" Considering that the number of the heathen exceeds 1,200,000,000 it will be readily seen that the question is a vital one, and should interest all intelligent and thinking Christians.

Mr. Macmillan presents his arguments in a clear and forceful manner, interspersing the same with pathos and humor, of which he has an abundant supply. No one can listen to him without being deeply impressed with the wonderful things contained in the Bible, and the great blessings God has in store for those who obey him.

The lecture is free, not even a collection being taken.

### FAVOR FLOGGING TO CURB CRIME.

How to get rid of anarchists in London, how to prevent their landing in England, and how to punish them when caught offending, are questions being more widely discussed than ever since the police discovered an anarchist arsenal in Gold Street, Stepney, in connection with the Houndsditch murders. The discovery only lends additional color to the suspicion widely prevalent of late that London has been seriously menaced by an organized conspiracy of a desperate character.

The number of alien criminals who habitually make London their home have had their already very considerable forces so heavily reinforced during the last twelve months that an organized outbreak has not been entirely unexpected. The door to English hospitality has been taken full advantage of during the last year or so by foreign criminals, the "undesirables" of Europe simply "pouring in."

At the time of King Edward's death an organized descent was made upon England by an invading army of the worst criminals of Europe, attracted by the vast concourse of persons they knew would attend His Majesty's funeral. They attended the funeral themselves and a large percentage of them have remained in.

London ever since.

During the last Summer bands of these desperadoes visited the English side that never before had so large a number of foreigners been present at race meetings. Houndsditch and Soho are said to be honeycombed with these living dangers to society. These are the creatures whom the unarmed London police have to fear, who, when brought to bay, have no hesitation in opening fire with the revolvers they always carry.

One of the questions that are being seriously discussed is how to punish foreigners who are found carrying revolvers without cause, and the revival of flogging seems to be the most generally favored. Mr. Plowden, the Margate police magistrate. Sir Robert Anderson, formerly head of the Criminal Investigation Criminal Department, and Dr. B. P. Quinton, one time Governor of Holloway prison, all of whom have had wide experience in dealing with the criminal classes, are equally in favor of corporal punishment as a crime deterrent.

Mr. Plowden, writing recently, said "There is no imagination so dull that it cannot take in the terrors of the 'cat,' and I believe if such a punishment could be made part of the sentence for murder, even without abolishing the capital punishment, the deterrent effect would be unmistakable."

Sir Robert Anderson says:—"As a rule, I think that in punishing brutal criminals, it is right to resort to the 'cat.' Flogging, I am convinced, would put a stop to crimes of a brutal nature. There is a class of criminal to whom imprisonment is little, if any, hardship, and for that class we would do well to resort to flogging."

Dr. Quinton says:—"For the brutal criminal, flogging is the only remedy. My experience is that men who commit cowardly and brutal attacks, are themselves cowards, and nothing terrifies them more than the thought of the 'cat.' In the old days I have seen criminals flogged, and I know how they dread it."

"Your valentine will be skating in the Arena on Tuesday. See if you can find her. Barrels of fun for all."

### Get the Phone in Your Home—Its Indispensable

No modern home can do without a phone—it is really indispensable in every up-to-date household.

The phone will connect you with your friends and acquaintances, will be a constant source of protection in case of fire or thieves and in time of sickness will pay for itself over and over. The phone saves long walks and tedious shopping tours, it does away with errand boy charges, and offers communication with everyone you wish at any time. The phone links your home with all leaders of all professions, trades and occupations. You can buy what you wish and secure the personal attention, service and advice of all leading business men without leaving your room.

It is false economy to try to do without a phone—to be abreast with modern progress, you need one now and need it badly.

### Get after Business

The man who knows how to use printed matter has no difficulty in securing customers. I have ideas to put into your printed jobs.

Can you go out into any market in the country and get a good customer for the price of a thousand mailing cards,—or folders, or circulars?

Try mailing some special printed matter to a list of prospective customers. Don't you think they will be interested in what you have to tell them.

And, really, it will cost you very little.

Please telephone No. 201-J and talk about it.
