## N. B. Fox Breeders Meet

(Moncton Times)

Plans are in the course of preparation for the holding of a Maritime Fox Show at Amherst this year, in connection with the annual Maritime Winter Fair, it was announced yesterday at the semi-annual meeting of the New Brunswick Fox Breeders Association held in the Council Chambers of the City Hall. Mr. S. C. Avar, of Sackville, President of the Association, occupied the chair and seated on the platform with him were Mr. G. Shelton Sharpe, of East Bideford, P. E. I., President of the Canadian National Silver Fox Breeders Association; Dr. Ennis Smith, Superintendent of the Dominion Experimental Fox Farm at Summerside, P. E. I., who were the principal speakers of the afternoon, Mr. A. L. Comeau, of Moncton, Vice President of the N. B. Association; Dr. A. B. Teakles, Sussex; Mr. L. T. Leeman, Salisbury, and Mr. W. H. Harding, of Hammond River, directors of the Association.

There was a fairly good attendance present at the meeting and after same had been called to order by President Avar, the Secretary-Treasurer, Mr. Frank H. Copp, of Port Elgin, read the minutes of last meeting which were approved. Mr. L. T. Leeman, as chairman of the three provinces appointed in the three provinces to enquire into the holding of a fox exhibition in conjunction with the Maritime Winter Fair, then presented the committee's report which recommended the staging of such an exhibition this year, the meeting endorsing the report. The members of this special committee included Dr. Spruill, Springhill; L. D. MacKenzie, Truro; Claud Chapman, Amherst, representing Nova Scotia; Keith Boswell, Victoria; E. H. Monkey, Summerside; George E. Brown, Kennington, representing P. E. I.; F. H. Copp, Port Elgin; Dr. A. B. Teakles, Sussex, and L. T. Leeman, Salisbury, the chairman.

Following a review by President Avar, of the work of the association since last meeting, he called upon Mr. G. Shelton Sharpe, President of the Canadian National Silver Fox Breeders Association, to address the meeting. The speaker expressed the pleasure it gave him to be present to address the New Brunswick Association, which would make the ninth of the provincial organizations he had addressed in the Dominion since becoming president of the parent body last year. He paid a fine tribute to Mr. L. T. Leeman, of Salisbury, for the great work he had accomplished in the interests of the Canadian National Silver Fox Breeders Association since his appointment on the Board of Directors three years ago. The speaker traced the growth of the association since its inception ten years ago and while it was still one of the youngest organizations operating under charter from the Department of Agriculture at Ottawa, yet it was the largest of any. Mr. Sharpe told of the number of foxes inspected in Canada by the association's inspectors last year, which was much larger than in any previous year in history and went on to deal with the matter of inspection in detail, declaring that the best was being done in the interest of the fox breeders. He emphasized the producing of the best foxes, for the men engaged in the fox business today were making money were those who were raising the highest type of fox. It was to the interest of all breeders to raise the standard of quality which would ensure the highest returns for pelts, he said, and he predicted that soon second grade foxes will not be worth raising.

Mr. Sharpe then referred to the part played by the Canadian National Silver Fox Association in the fox section of the Royal Winter Fair at Toronto and he also outlined the policy of the Association with regard to contributing to regional fox fairs.

After describing how Western Canada fox breeders were working so as to produce the best breeds, the speaker dealt in detail with the co-operative marketing of fox pelts in the Canadian, U. S. and London markets, in which he told of the benefits that accrue to breeders by using the association's marketing service. In conclusion the speaker told of the finances of the parent association, stating that up to last year a surplus of \$200,000 had been accumulated, which is invested in bonds and securities. The time has
