POULTRY SIDE LINES

"Poultry shippers often forget the value of the feathers. If packed in sacks and sent with the poultry, they won't cost anything to send, and they'll help to pay express charges. During the past two years feathers have been low in price because of the war, but this will change. Duck and goose feathers are worth normally 25 to 40 cents a pound; white turkey body feathers 20 to 40 cents a pound; colored turkey quills 10 to 14 cents a pound. Chicken feathers are never worth more than 2 or 3 cents a pound and it doesn't pay to ship them. "A lot has been said about big money in squabs. As a matter of fact, not one out of fifty makes a success with this stock. The raising is not so difficult as the selling. Before going into the squab business, one must be sure of his market. The general demand for squabs is limited and spasmodic. "Guineas are profitable, if one can

The Central Why Hair Falls Out

IT PAYS to buy in this province

TRYON BAPTIST—Services next Sunday will be—Albany, 10.30; Tryon, 2.30; Westmorland, 7.00. Monthly Conference on Saturday, 2.30.

THE STANLEY—The Stanley dock in Picton yesterday at 10.20 with tons freight, two and a half tons of express, 50 sacks of mail and twenty passengers.

NOTICE—All notes and bills not paid by the tenth of March will be handed over for collection. John Horne, Winsloe. 7593-31-3131pd

AT HOME—Mrs. Ira M. Brown, will receive at her home 28 Elm Avenue on Thursday afternoon, March 2nd from 3 o'clock to five (5) and in the evening from 7.30 to 9.30. 7589

PATRIOTIC DANCE.—The ladies of Vernon River are giving a patriotic dance in Vernon River Hall on Friday evening, March 3rd, in aid of Red Cross. Hot supper served, and all are assured of a good time. Come and help the Red Cross. 7575-4

APPRECIATION.—The officers and members of the League of the Cross desire to extend their sincere thanks to all those who in any way contributed to the annual Feast of the younger members of the society.

HIGH BANK SCHOOL—Following is the standing of pupils of High Bank school for month of January. Grade VI—Alice McLeod and Marion Gillis equal. Grade V—1, Euphémie Hayter; 2, Peter McPherson. Grade IV—1, Anna B. McPherson; 2, Sadie David; 3, Roy McSwain. Grade III—1, Hastings McLeod and William H. Munroe, equal; 2, Jessie M. Stewart; 3, Raleigh Hater. Grade II—1, Malcolm N. Stewart. Grade I—Walter Livingston and Thomas Hayter, equal.

Attendance—Alice McLeod, Hastings McLeod, Peter McPherson, Sadie David, Roy McSwain, William H. Munroe, Jessie M. Stewart, Malcolm N. Stewart, Walter Livingston, Thomas Hayter, equal.

Every farmer should keep enough poultry on his farm to consume his waste feed and turn it into money. A flock of 100 chickens, 30 or 40 turkeys and perhaps 20 ducks and geese can be maintained on the average farm with very little feeding, except at fattening time and for winter laying. If the farmer will consume his many poultry, fatten the surplus for market, he will make money with very little outlay or trouble.—"Farmer," St. Paul.

CHURCH causes a feverish irritation of the scalp, the hair roots shrink, Mar. 5th, and then the hair comes out at 2.30 and to stop falling hair at once and scalp of every particle of dandruff.

AT HOME—Mrs. Ira M. Brown, will receive at her home 28 Elm Avenue on Thursday afternoon, March 2nd from 3 o'clock to five (5) and in the evening from 7.30 to 9.30. 7589

TROTTERING RULES CHANGED.—At the meeting of the National Trotting Association held in New York recently the following changes were made in the racing rules:— A horse with a win race shall be allowed one second for each quarter of a mile or fraction thereof in the distance to be raced when entering on a half-mile track, providing the class to which he would be eligible under this allowance is not slower time than his win race for the distance of a half-mile track. Other allowances may be granted if so stated in the published conditions, but when offered for losing performances in public races they shall be limited to the current year. A nominator is also required to claim time allowance when making entry and also state in same why his horse is entitled to it. Should he fail to do so his nomination is not entitled to any time allowance in the event.

The time between heats for any distance up to the including a mile shall be 25 minutes; for any distances between one and two miles, 30 minutes; for any distance between two and three mile heats, 35 minutes and for any distance between three and four miles, 40 minutes. "Any public race at an irregular distance, for example 7 1/2 furlongs shall be regarded as irregular time made at any such distance shall create a bar at the next regular distance.

The tide will be high this morning at 8.06 and tomorrow at 9.33; it will be high tonight at 7.52 and tomorrow at 9.06. The sun sets this afternoon at 5.48 and tomorrow at 5.40; it rises tomorrow morning at 6.37 and Friday at 6.35. The moon sets this afternoon at 2.30. The last quarter of the moon was on Saturday, Feb. 26 at 5.24 a. m. There will be a new moon on Friday, March 3rd at 11.50 p. m. The length of today will be eleven hours and ten minutes.

NO-YARD POULTRY HOUSES.—The city dweller with only a backyard for space may keep fowls successfully if he adapts the fresh air type of chicken house. A house of the shed roof pattern with 6 feet by 8 feet floor space and roof 6 feet 6 inches high in front and 4 feet high at the back, will house ten to twelve birds comfortably. The house may be without windows, but the doorway at the front should be wide and the door frame covered with chicken wire. In winter a second door, either

solid or covered with oil-cloth muslin, can be used when necessary to keep out snow. A curtain dropped in front of the roosts at night will keep the birds warm enough in the coldest weather.

With this plan of house no yard is needed, as with the netting covered door the fowls are in the fresh air all the time and exercise can be provided by the introduction of a deep layer of bedding on which the grain should be buried so that the hens will have to scratch for a living. By feeding dry feeds only the work of looking after the fowls is reduced to a minimum, as there is no need to bother with the cleaning of frozen-up feed troughs. Dropping boards may be done without if a deep layer of sand (about 6 inches) is placed on the ground, and renewed every six months.

The best plan of poultry keeping is not the best suited to the fancies of breeding stock, but for the sake of getting a lot of eggs on a small piece of land nothing can beat it. By buying pullets and keeping them for just one year very satisfactory results may be obtained by this system, especially as ground space may be raised in the ground space saved by keeping the hens housed during the summer.

The non-fancier who simply wishes to obtain a supply of eggs that he can be sure are new laid should be satisfied with a system that does away with the trouble of setting hens or tending incubators, the crowding of roosters, and chasing of chickens that will fly if fenced in in the usual way.

DAIRY AND COLD STORAGE.

It is doubtful if any subject, excepting only the war itself, at this juncture in the world's history is commanding more attention than the production of the dairy, with which cold storage is intimately allied. There is, however, the report of the Dairy and Cold Storage Commissioner for the fiscal year ending March 31st, 1915, recently issued, and which can be had on application to the Publications Branch, Department of Agriculture, Ottawa.

Mr. J. A. Riddick, briefly records his experience on a visit to Europe as Canadian Government delegate to the sixth International Dairy Congress held in June, 1914, at Bern, Switzerland. Returning via England, he found that Canadian cheese stood in the highest possible favor, commanding even a better price than that of New Zealand, whose special and unremitting efforts are being made to capture the British trade in dairy products, and where the cheese factories have recently greatly increased in number. Canadian cheese, Mr. Riddick testifies, has become the standard for all importations. He paid a visit of inspection to the centres of the cheddar cheese industry in Shropshire, Flintshire and Cheshire, and was surprised at its extent. An interesting account is given in the report of the extension of marketing facilities and of the operations of the Finch and Bromie Dairy Stations. Other matters dealt with are the dairy herd

records, excess of water in butter in the activities of the precooling and experimental fruit storage warehouse at Grimsby, Ontario, cold storage progress, publications and meetings. An exceptionally full appendix, covering 96 pages, and divided into twelve sections, deals historically with the 25 years' life work of the Assistant Dairy Commissioner, Mr. J. C. Chapuis; with the work of the chief of the market extension division, in connection with which a quantity regarding the needs and methods of the British and French markets with tables of prices of every variety of farm and garden produce and stock at each month in the year; and with dairy herd records and tests in different provinces. Reports in full are also furnished as parts of the appendix of the cold storage inspector, of the chief inspector of dairy products, of the fruit, cold storage transportation investigation division, and of the inspector of weighing butter and cheese, the whole concluding with statistics of the total Canadian exports and imports of butter and cheese for the last 35 years, for the last 7 years of the Canadian exports of cheese, butter, cream, condensed milk, casein and fresh milk, and for the last 11 years of the total exports of cheese and butter by all countries.

WHAT CANADA PAYS!

SOLDIERS PAY AND ALLOWANCES, CONDITIONS OF ENLISTMENT PROVISION FOR WIVES, MOTHERS AND CHILDREN

Canada is determined that her sons shall be as well paid and their families as well cared for, as a grateful and wealthy country can afford. The scale of pay for Overseas Service, the allowances from the Patriotic Fund, and the Pensions, are on a more liberal basis than those of any other country engaged in the war.

SCALE OF PAY

RANK	Pay per day	Field Allowance per day	Separation Allowance per month
Sergeants.....	\$1.35	\$0.15	\$25.00
Corporals.....	1.10	.10	20.00
Privates, Buglers, Drummers etc.....	1.00	.10	20.00

The men are, of course, fed and clothed by the Government. The Separation Allowance is the sum paid by the Government to the wife of each enlisted man, or to the widowed mother if the son is unmarried and is her sole support. This is in addition to part of his pay which is reserved for her.

One-half of a soldier's pay is withheld by the Government and paid to his dependents. This ensures that at least \$35.00 per month is paid by the Government to the wife of each soldier.

THE PATRIOTIC FUND

The Patriotic Fund has been created to assist those dependents of a soldier who need more help than the Government gives. From this Fund the following sums are paid if the need exists:—

Wives.....	From \$5.00 to \$10.00 per month
Children of widowers.....	
Mothers of unmarried men.....	
Children of married men according to age and number in family.....	\$1.50 to \$6.00 each per month

Ladies representing the Patriotic Fund pay regular visits to families of men on Overseas Service, and give friendly advice and practical help in case of need. Many employers have pledged themselves to give preference to returned soldiers when engaging men.

PENSIONS

The Canadian scale of pensions range for private soldier, from \$75.00 per year for certain minor injuries to \$264.00 for total disability. In case of death \$22.00 a month is paid to the widow, and \$5.00 a month for each child. A widowed mother whose son was her whole support receives \$22.00 a month.

CONDITIONS OF ENLISTMENT

Age—18 to 45 years. Height—5 feet 2 inches minimum

HOW TO ENLIST

Apply to LIEUT. COL. CAMPBELL or to any recruiting officer LIEUT. COL. ALLAN, MAJOR LEIGH, JUDGE FRASER, Souris, or write for information to

Provincial Patriotic Society, Charlottetown

T. EDGAR McNUTT, MAJOR, Hon. Secretary
