A special Sunday evening church service was held in the Centreville Bedeque Church on Sunday evening, Rev. W. H. Mr. Harding preached a wonderful sermon to the young folk, which will not be easily forgotten. Mr. Gordon MacCallum sang a solo, very nicely, while the choir rendered music and singing in their usual high order. Mrs. John Stuart, organist and choir director.

BOSTON STRIKE UNSETTLED

(Canadian Press)
BOSTON, Mass., Oct. 21—Joseph P. Ryan, president of the international longshoremen's association, came to Boston yesterday for the second time in three weeks in an effort to settle disputes with longshoremen and steamship companies which have occasioned a strike along the waterfront.
While Ryan was conferring with the Boston district council, a group of strikers, stoned an automobile near the Charlestown docks, injuring the bodyguard or a steamship official and two girl bystanders.
Ryan conferred later in the day with the operator's committee. Union officials announced tonight that a conference had been arranged for the morning when the operator's committee and delegates of the Longshoremen's association will be present, as well as president Ryan.

The week end very pleasantly in Middleton, the guest of Mr. and Mrs. Edison Wright.

A rather serious car accident occurred at 9 a. m. on Monday at Searletown, when a Chevrolet Sedan, driven by a young lady of Middleton, was coming out the Middleton Road onto the Searletown road, another car, a Plymouth Sedan, driven by a Tryon lady, was proceeding in the direction of Bedeque, and in some unfortunate way, the two cars struck head on, the Plymouth car driving the Chevrolet back into the bank, a distance of several yards. The first mentioned car, had two young lady occupants, and the latter car the young lady driver and a young gentleman. With the exception of the young lady from Tryon, all escaped without injuries, she having her head slightly hurt. Those who gathered on the scene say that how the occupants of the Chevrolet escaped without injuries is surely remarkable. Its fenders, radiator and axle were very badly broken. The Plymouth car had the fenders and radiator and bumper somewhat broken, but was able to proceed on its journey. The two young ladies were driven to their destination by a passerby.—B.

NEW CONSTRUCTION—A fine new house is being constructed by Mr. B. T. Myers, Contractor, on Gratton street near the corner of Hillsborough for Mr. Robert Duncan, of the C. N. R. The house is of the most modern design, with an expensive asphalt shingle roof, being designed by Mr. Myers himself. The genial contractor reports that the building trade this year is as good as it ever was, there being considerable construction and repair work handled throughout the country. He reports that very good prices may be secured on lumber, both here and in Summerside, especially the latter.

FREAK OF NATURE—A peculiar and noteworthy weather phenomenon occurred in the City early yesterday morning when Charlottetown was blanketed by a thick creamy white fog. The vapor was so thick that people made their way about with difficulty, while motorists had to exercise extreme care to avoid hitting people crossing the streets. The strange part of this freak was that just outside the City the sun was shining and the day extremely fine. In Charlottetown, however, the sun looked a great deal like the moon.

ISLAND DELEGATE—Weldon L. IN MEMORIAM

MR. EDMUND BYRNE
The death occurred at St. Teresa after a lingering illness of Mr. Edmund Byrne at the age of seventy years.

Deceased was stricken with heart trouble almost a year ago and last spring entered the City Hospital for treatment. After five weeks, he returned home much improved, but it was soon realized his cure was only temporary and he gradually grew worse until his death on Oct. 5th.

The late Mr. Byrne was of a kind and cheerful disposition and his death will be sincerely regretted, not only in the community in which he lived, but also by his many friends in Fort Augustus, where for years he carried on an extensive business. He also spent a number of years in the teaching profession.

Mr. Byrne leaves to mourn, two daughters, Bertha, Mrs. Vernon Donnelly, Vernon River and May, Mrs. Philip Smith, Webster's Corner; also a sister-in-law, Mrs. Patrick Byrne, with whom he made his home for the past few years and who with his daughter Bertha, tenderly cared for him during his last illness. His wife predeceased him twelve years ago.

The funeral was held on Wednesday morning, Oct. 7th, to St. Catherine's Church, St. Teresa, and was largely attended. Requiem Mass was

Under Jack's good retraining and care, and as this mare carries very little rigging with the exception of a pair of goggles (which have already been supplied by Mr. E. E. Parkman) he will make a lot of them step on the ice this winter.—S

SKUNK SHOT—Summerside citizens have been troubled more or less for some time with numerous skunks, which have become very bold of late. On Monday afternoon workmen were engaged tearing up the boards of Mr. Thomas Johnson's hen house preparatory to putting down a cement floor, when nearly all the boards had been removed, to their astonishment, they discovered a huge skunk hiding in the corner. They immediately beat a retreat and called Mrs. Johnson to acquaint her with the fact. She told them to go back and shut the door so that the animal could not escape. Mrs. Johnson then ran to Mr. Woodside's house nearby and found Mr. Woodside at home. There was a good deal of excitement as Mr. Woodside gun in hand proceeded to the spot, and shot the animal through his head. Neighbors flocked in when all danger was passed to view the body. The animal was a very large male and no doubt thought the house a nice place to camp for the winter. Mr. Woodside has had considerable experience with these marauders and has a reputation for hitting his mark every time.—S

Canadian Chemist Highly Honored

MONTREAL, Que., Oct. 20. (By the Canadian Press)—The award to Howard W. Matheson, M. S. O., vice president in charge of research of Shawinigan Chemicals Limited, of honorary membership in Great Britain's famed society of chemical industry, pays signal honor to one of Canada's most able chemists.
Formal presentation of the award was made here at a meeting of the Montreal section of the society of chemical industry when F. J. Hamby, vice president of the local body and president of the Canadian Council, presented Mr. Matheson with the scroll denoting the honorary membership. Also, Mr. Matheson received a silver replica of the plaque given to each delegate at the jubilee celebration and 50th annual meeting of the British society in London last July. Both had been given to Mr. Hamby by H. R. H. Prince George for presentation to Mr. Matheson in Montreal.
Noting the award, the journal of the society points out that "Dr. Matheson is a Canadian—his work has concerned the use of waterpower and the conversion of it into useful chemicals. Starting from coke and lime, the chain runs, acetylene, acetyde, acetic acid, artificial silk. For a long time, most of the world's supply of acetic acid came from the factory of Shawinigan Chemicals, Limited, at Shawinigan Falls, where he and his team of chemists work. He was unanimously proposed by his Canadian conferees for this honor."
Mr. Matheson is a leading figure in the world of chemistry in Canada. Born in Pictou County, N. S., in 1886, he graduated from Dalhousie University in 1910, taking high honors in chemistry and chemical physics, and being awarded the university medal. In 1910 he was appointed instructor in chemistry at McGill University, and the following year he was awarded the degree of M. S. C., as well as the governor-general's medal for research in the graduate school.

And Gandhi came and this is what he said:—
Two laws there are to us which e'er we will,
Destruction dreadful that is sure to fill
Earth with sore sorrow, but against is laid
Years of remorse for vengeance is repaid.
The other, love as gentle as a rippling rill
That laughs and loiters on the way, until
It reaches the great source whence it was made,
This last his choice, but Gandhi where, oh where?
Learned you this law? Jesus the suffering one
Lived, loved and taught along with earnest prayer
That love alone was greatest and had won
For man redemption, and a plan so rare,
God made, that for fulfillment sent His Son.

GANDHI GIVES HIS DOCTRINE TO THE WORLD

"Can Conquer All With Love," He Tells a Press Review

Yes; healer of the aches and pains of suffering men,
I answer Thee, the question Thou hast asked,
Well dost Thou know, my brother of the Occident
That from the brow of Christ, Thy answer came,
As the disciples praised their Lord from hearts of love.
"Blessed be the King that cometh from above,
Bringing peace and glory in the highest name."
And when the smug complacent Pharisee
Wished them rebuked,
Our Lord Himself silenced their call by words like these,
"The very stones would cry, if I but held my peace."
