PROVINCIAL LEGISLATURE

Continued from page 1

The act respecting the Indexes in the Offices of the Registrar of Deeds Prince County.

House then went into Committee of the Whole to consider the act to amend the Act respecting the Oyster Fisheries of P. E. Island.

The Act is as follows.

"Be it enacted by the Lieutenant Governor and Legislative Assembly of the Province of Prince Edward Island as follows:

"The following section is hereby added to Chapter 2 of the Acts of 1906:

"'Provided however, that nothing in this Act is intended to affect any public harbour.'"

Mr. Morson moved an amendment that the words "the rights of Canada" be inserted so that the amendment would read:—

"Provided, however, that nothing in this Act is intended to affect the rights of Canada in any public harbor."

Premier Haszard explained that the late Premier had given his word that the Act should be amended in the words of the bill submitted now. He thought the amendment proposed by Mr. Morson unnecessary. He could not see that the bill would take away any of this Province's right in the public harbors.

Mr. Morson wanted to know of any "private" harbors. Are not all harbors "public" harbors, and has not this Province the right to use bottoms. He couldn't understand why his amendment should be refused. Don't let us put a millstone around our necks.

Premier Haszard did not think the amendment made any difference. The Dominion Government has certain rights, and they declare it is not their intention in this act to legislate with regard to public harbors.

Mr. Mathieson hoped the Premier would not press this matter. If this matter is put through it should not be because of any preliminary arrangements made by any Premier. If this is put through now it must be by the Act of this House. In all our dealings with Canada, Canada has always exacted to the fullest limit all the rights to which she was entitled. This Legislature cannot diminish the rights of Canada in navigation. Yet for fear her rights may be held up Canada challenges the oyster act of this Province, and says these words must be inserted "provided nothing in this act affects any public harbor," and if this is applied, it will mean that the most valuable oyster areas shall pass out of the operation of our act. What more does Canada want? Does she mean that we should accept her dictation and not legislate to the limit of our own abilty. In future this might be accepted as a very dangerous precedent—that Canada might dictate our Legislation.

Hon. Mr. Hughes wished to say he could not understand what "public" meant, it seemed to have that over rights over the oyster fisheries might be affected. He thought it was a serious matter to be fully discussed before acting upon.

Mr. Prowse thought there was not sufficient knowledge of the meaning of the words public harbor. He thought the amendment of Mr. Morson should be added, or the bill stand over till members knew what they were doing.

The Premier maintained that the proposed act would not have the affect feared.

Mr. Mathieson wished members to carefully consider. Each had an equal interest in seeing that the measure was weighed with scrupulous exactuess before going any further.

Premier Haszard: There seems to be some misunderstanding about this bill. I move that the Speaker take the Chair.

The Bill was therefore dropped for the present.

The House then went into Committee of the Whole to continue the consideration of the Election Law, and was thus occupied till adjournment.

IMPURE BLOOD

Clogs the Kidneys
Slows the Heart
Fags the Brain.

Weakens Every Part of the Body. Causes Organic Diseases.

Just as strength is the natural outcome of pure blood, so is debility and sickness the result of impure blood.

To know how quickly how surely Ferrozone cures, to see how it rebuilds and restores, you have only to read the following letters—read them carefully—see if the symptoms resemble yours.

Miss Evelyn M. Gaetz of Kingston, writes: "I have had an attack of blood disorder which broke out in horrid looking pimples. They were ugly red disfiguring blotches that ruined the appearance of my facr. I tried all sorts of medicine, but the pimples did'nt leave. I was recommended Ferrozone and gave it a trial. I noticed an improvement after the second box, and kept up the treatment which finally cleared my skin. As the result of Ferrozone I have a clear healthy complexion and an recommend it to all other young women similarly affected."

Another young lady well known in society circles of Springfield, who derived exceptional benefit from Ferrozone, says: "I felt it my duty to make known the value of Ferrozone. My trouble was poor weak blood, and as a consequence my lips were pallid, and my cheeks had no color. I was'nt at all strong, and required a bracing tonic. Ferrozone soon brought color to my cheeks, improved my appetite and made me stronger than I had been in years. I favor Ferrozone because it is so simple to take and works so quickly.

No blood remedy exists that has the power to cure, to heal, to restore like Ferrozone; try it, 50c per box at any drugstore.

HAVE YOU A GOOD COMPLEXION.

First of all you need plenty of blood—the red kind. Have it pure, or otherwise blotches and pimples will render your natural charms unavailing. Nothing can equal Ferrozone, either as a former of rich blood as a skin purifier. By driving out humors, Ferrozone cleanses inside just as water does outside. Because of the nourishment and building properties it contains, Ferrozone, brings the system to a high point of vigor, from which shines vim, ambition, good spirits. For good spirits, for good looks, good health, take Ferrozone. All dealers in 50c. boxes.
