New Treatment For Cancer

(Canadian Press)
 TORONTO, Feb. 18.—Cancer patients are now being treated in Toronto with colloidal solutions, it was announced today by Dr. A. C. Hendrick, well known Toronto Medical man, who has been associated with Prof. F. B. Burton, of the Department of Physics, University of Toronto, in the experiment. The experimental work of Prof. Burton and Dr. Hendrick became known last July when in an address to the colloidal division of the American Chemical Society they explained their experiments on animals.
 "Our experiments have now reached the stage where the treatment is being used on selected patients," Dr. Hendrick said today. "The result in some cases is encouraging enough to warrant a hopeful attitude for the future of the treatment."

NIAGARA FALLS, Ont., Feb. 18.—Francis R. Stewart, United States Consul in this city, believes that about 500 residents of Niagara Falls, Ont., will be thrown out of employment when the Box Bill, which passed the house in Washington on Friday, becomes law. The majority of these men are laborers and their unemployment may cause a serious state of affairs in this city. Many of them have come here from other points because of the belief that they could cross the river under recent rulings and obtain work there. Locally there is some talk of retaliation. Large numbers of Americans daily cross to this city to work, many of them holding high salaried positions.

and friendship of the many who knew him.

Central Guardian

CENTRAL PARISH—Services will be held as follows: Saturday Nine Mile Creek at 7.30 p. m.; Sunday Canoe Cove 10 a. m.; Churchill 2.30 p. m.; People's Church, City, 7 p. m. Rev. D. V. O'Meara, minister.

CARNIVAL A SUCCESS—The carnival held at Stanley Rink on Saturday evening, February 16th, was largely attended. The costumes were beautiful to behold. James Cole and Elmore MacKay won the gent's prizes, and Florence MacKay and Elaine Morris the ladies' prizes. The judges were Mrs. W. T. Weir, Miss Marion MacLean and Eric Woodside. After the judging, the crowd enjoyed a skate.

TEACHING THE BLIND—Miss Marcelina Boudreault, of the Halifax branch of the Canadian National Institute for the Blind, is at present in Charlottetown on her errand of mercy, namely, teaching the adult blind in the manufacture of handicraft articles by which they can earn a living. This instruction is given free of charge to any desiring it. It will be remembered that a fund was collected last summer for the purpose. Miss Boudreault has had considerable experience in this line, having taught in Toronto and other parts of Ontario. She has spent the past three months in Prince County, this Province, where she taught a number of men and women in handicrafts. She will be in Charlottetown as long as there is a demand for her assistance.
 Minard's Liniment eases pain.

BIRTHS

NORTON—At the P. E. Island Hospital, on Tuesday, Feb. 19, to Mr. and Mrs. John Norton, Annandale, a son. (Stillborn).

DEATHS

MacLEOD—Died of influenza at Belmont, San Mateo County, California, on December 11th, 1928, Edna MacLeod, age 19 years, daughter of Mr. and Mrs. John MacLeod and granddaughter of Nathan Acorn, Dundas.

HOWATT—Suddenly at Augustine Cove on Tuesday, Feb. 19, Mrs. Jas. E. Howatt. Funeral Thursday at 2 p. m. from her late residence.

BEER—In this city, Feb. 19, Frederick H. Beer, age 76 years. Funeral from his late residence, 217 Weymouth St., on Thursday, Feb. 21, service starting at 2 p. m. Funeral leaving at 2.30 p. m. for Sherwood Cemetery.

SHAW—At Brackley Point, on Feb. 19, Martha M., beloved wife of Mr. Albert Shaw, aged 63 years. Funeral from her late residence to West Cove Head Cemetery on Thursday, Feb. 21st, service starting at 2 p. m.

In Memoriam

In sad and loving memory of our dear Brother William A. MacSwain, who passed away to the life beyond one year ago today, February 20th, 1928.

Gone is the Brother we loved so dear, Silent the voice we loved to hear, 'Tis sad but true we wonder why, The best is always the first to die.

At home in the beautiful hills of God, By the valley of rest so fair, Some day, some time when our task is done, We shall meet our loved one there.

In the graveyard softly sleeping, Where the flowers gently wave Lies the one we loved so dearly In that lonely silent grave.

We did not know the pain you bore, We did not see you die, We only knew you passed away And could not say good bye.

Thy hands are clasped upon thy breast, We have missed thy marble brow, And in our aching hearts we know We have no Brother now.
 Inserted by his Sister, Mrs. H. E. Gurney, East Royalty.
 4457-2-20-11.

In Memoriam

In loving memory of our daughter Vivian Johnstone, who died February 20th, 1928.

There is no death! The stars go down To rise upon some father shore; And bright in heaven's jeweled crown They shine forever more.

Inserted by her Parents, Josiah and Mrs. Howatt.

KING COLE TEA and COFFEE

A GOOD TIME expected in Hearts Hall, East Royalty tonight. Come and enjoy the fun.

A SPECIAL MEETING OF L. P. U. will be held this evening at 7 o'clock sharp. Very important business. Daniel Gillis, Pres. L. P. U. 4472

AT GYRO—Henry J. Fitzgerald presided at the weekly Gyro luncheon Monday evening. The speaker of the evening was Prof. Blanchard who gave an interesting address on his European trip. At the conclusion a hearty vote of thanks was tendered the lecturer. Mr. Raoul Raymond was a guest.

RETURNED FROM MIAMI—Senator Prowse and Mrs. Prowse, who have spent a most enjoyable honeymoon in Florida, have returned to the city. Among the places visited were Washington, where they visited the White House, Richmond, Virginia; the cotton fields of Georgia, Daytona, Palm Beach and Miami, where a stay of some length was made. Mrs. Prowse has a number of very interesting snap shots of the various points visited to serve as souvenirs of the occasion.

STUDY GROUP—The Tryon Study Group was held on the afternoon of Thursday, January 31st, in Tryon Consolidated School, with an attendance of seven teachers. The president, Miss Adelaide Ives, occupied the chair. The minutes of the previous meeting were read and adopted. The School Fair lists were then further revised. Miss Clements and Miss Best then gave outlines of their time tables for Grades I to VIII, after which Mr. MacKenzie gave a very interesting outline of his work on Nature Study. Several questions of school work were discussed by the teachers and their supervisor, Mr. Murphy. For the next meeting which is to be held on Wednesday, March 6th, each teacher is asked to bring an outline of their notes in Hygiene.

JUDGMENT IN PERRY CASE—In the application of Olivia Perry for a certiorari which was argued last month before the Supreme Court, a decision was handed down yesterday by the full Bench, dismissing the application. The effect of the decision is that Mr. George J. Tweedy is confirmed in what he has done under the Prohibition Act since his appointment as the main ground of argument of defense counsel was that Mr. Tweedy had no jurisdiction to hear cases under the Prohibition Act. The application was dismissed with costs all the Judges concurring. Messrs. Johnson, K. C. and Strong K. C. for the applicant. Mr. Thane A. Campbell opposed the motion on behalf of the Prohibition Commission. Written judgments were read by the Chief Justice and Mr. Justice Hazard. In the absence of Justice Arsenault the latter's judgment was also read.

CENTRAL COMMITTEE MEETING—The Central Committee of the Cross Roads, Hazelbrook and Alexander Baptist Churches held their annual meeting on Tuesday evening at the home of Earl Jenkins. Meeting opened with prayer by Rev. R. W. Lindsay. Rev. Mr. Lindsay then gave a brief review of his past ten years work on this field, which were a

pleasure and a work of love. One only needed to be present to understand the kindly relationship between pastor and people as each member of the committee arose and testified of his respect for the Pastor. A unanimous call was then extended to Rev. Mr. Lindsay to remain with the churches for another year. His present year ending May 31st, 1929. Mr. Lindsay accepted the call. Although a young man he is a preacher of the old school and always in all his sermons emphasises the prophetic warnings the cross and the blood of Christ as man's only hope of Salvation. We in this age have a tendency to minimize the warnings of God, presume on His love and mercy and believe that eventually through some great miracle or mystery we shall awake to find ourselves on God's right hand. The writer of this article fully agrees with Mr. Lindsay and hopes that in the year that we have pledged ourselves to work together he will still preach that the way of the cross leads home for the hymn states that "We shall ne'er get sight of the gates of light if the way of the cross we miss."

PERSONALS
 Miss Florence Power, Emerald, returned home yesterday after spending the week end in the city with her sister, Mrs. W. F. Devine.

Mr. J. J. Inman, editor of the Summerside Journal, was in the city yesterday.

Mr. J. Sutherland Chief Engineer of the Car Ferry, and Mrs. Sutherland arrived from Borden yesterday to spend a few days in the city.

Dr. John McNeill M. L. A., arrived from Summerside yesterday to attend a meeting of the executive.

Miss Florence Thorne (of S. A. McDonald's) is confined to her home, after undergoing a minor operation on her foot.

Mr. and Mrs. Vernon Moore and Miss Margaret Livingston of this city left yesterday morning on a visit to Moncton. While in that city they will be the guests of Mr. and Mrs. E. A. Wood.

Minard's Liniment for Chapped Hands.

THE MARKETS

MONTREAL, Que., Feb. 19.—The demand from local buyers for American corn for immediate shipment from Chicago and Canadian western oats from Fort William was a little better today. Sales of quite a few carlots were made, but apart from this the market was quiet and prices were unchanged. Little business was done in spring and winter wheat flour but values were well maintained. The millfeed market was firm under a good demand. A fair trade was done in standard grades of rolled oats at steady prices. An active business was done in all grades of fresh and storage eggs and wholesale and jobbing prices were firm. Receipts were 1,002 cases. The undertone to the market for butter was steady but the volume of business was small. Receipts were 425 packages. The cheese trade was dull and featureless. Receipts were 67 boxes. The trade in potatoes was steady and prices were unchanged. Prince Edward Island green mountains sold at 80c and whites at 75c per 90 lbs. in bags; New Brunswick green mountains at 55c and whites at 50c per 90 lbs. in bulk. Canadian handpicked beans sold unchanged at \$5.75 per bushel.

Proposal Re Transportation

SUMMERSIDE, P. E. I., Feb. 19.—From information received by parties in Summerside it is learned that Mr. A. E. MacLean, M. P., on his way to Ottawa discussed with some of the most prominent Canadian engineers the different features covering the transportation problem of Prince Edward Island. Mr. MacLean through realizing the new car ferry will improve conditions feels that something more permanent and satisfactory in the line of continuous connection facilities should be provided. With this in mind he discussed the matter and drew the attention of the engineers to the fact that shoal water extended out on both the Island and mainland side of Northumberland Straits and enquired as to the feasibility of taking advantage of this shoal portion of about two or three miles and filling this in and extending the fill from both sides a sufficient distance to enable a bridge to complete the remaining portion. It appears that the railway with its greatly improved machinery is able to do this filling in work at much less than half the cost of steel or other work.

Livestock Market

(Canadian Press)
MONTREAL, Feb. 19.—There were 221 cattle, 375 calves, 996 hogs and 34 sheep and lambs for sale on the two markets.
 \$9.00 was offered for medium good northwest steers weighing around 1050 and \$7.50 for good northwest cows. Common cows sold around \$5.00 and common bulls from \$5.50 to \$7.00. The calves were mostly veals. The best were sold up to \$14.25 with common to medium kinds from \$13 to \$14.00, pall fed calves brought \$8.00 and grass calves \$6.50, common to medium lambs including bucks were sold for \$10 to \$11.00.
 \$11.25 was the ruling price for hogs of good weights fed and watered not graded. Light hogs and feeders were sold for \$11 sows were steady at \$9.50.

INCREASE

—Continued from page 1—

proportion amounted to \$7,294,270. The increase is \$1,189,056. There is also an increase in the appropriation for the Department of National Defence. This does not involve a larger vote for the militia services, but the appropriations for the naval and air services are increased by \$875,000 and \$313,432 respectively. The militia services vote amounts to \$11,065,800. The vote for naval services is \$3,800,000. The appropriation for civil air operations, which come under the Department of National Defence, is \$3,658,469.

One of the most important decreases shown in the estimates tabled today, as compared with those of last year, is in the appropriation to cover interest on the public debt. Last session the amount appropriated for this purpose was \$128,537,126. This session, parliament is being asked to vote \$125,041,757 or a decrease of \$3,495,369. The amount asked for soldiers and general land settlement this session is \$2,845,000, as compared with \$3,115,000—a decrease of \$270,000.

Labor department estimates show a marked decrease as a result of the fact that the appropriation for technical education, in Canada, authorized by statutes, does not appear this year. Last session the amount for technical education was \$1,100,000, while this session parliament is not being asked to appropriate the money.

Three large items contribute to an increased vote for the Department of Public Works. There is an appropriation of \$1,500,000 for the confederation building in Ottawa, and also a similar amount for the lower lakes terminal at Prescott, Ont. Last session the appropriation for the new departmental building at Ottawa was only \$500,000, but the amount for the Prescott terminals was the same as this session. Parliament is again being asked to vote the \$750,000 for National Research Council Laboratories at Ottawa. This amount was not expended last year.

OTTAWA, Feb. 19.—An increase of \$297,785 in the appropriation for fisheries, to be utilized during the fiscal year 1929-30, is shown in the estimates tabled in the House of Commons today. The total amount allocated to fisheries is \$2,243,385. Of this sum \$1,160,000 is appropriated for salaries and disbursements of fishery officers and guardians, fishery patrol and fisheries protection services. This is an increase of \$180,000 over the 1928-29 estimates. The amount of \$10,000 provided in the last estimates for oyster cultivation is increased to \$39,000. A sum of \$50,000 is appropriated to provide for the payment of a bounty for the destruction of hair seals in tidal waters. For the marine biological board of Canada there is an appropriation of \$348,885, an increase of \$148,785. The sum of \$15,000 is provided for the expenses of the British Columbia fisheries reference to the privy council.

PROCEEDINGS RADIO

—Continued from page 1—

had the ardent support of the Hon. R. B. Bennett, leader of the opposition, in a vigorous speech. He would go the length of abolishing all armaments as the only means of preventing war and this sentiment was loudly applauded by his supporters.

He was followed by Mr. Woodworth in a speech highly critical of Great Britain as the chief offender in breaking pacts of peace. Thorson of Manitoba, in a long academic discourse on peace and war and Canada's relation to them. Thorson is a Rhodes scholar—and Tommie Church of Toronto, who was cynical of all good resolutions of the kind. The last named had the floor when the House adjourned at six.

OTTAWA, Feb. 19.—Approval of the Kellogg-Briand peace pact was moved in the House of Commons this afternoon by Premier W. L. Mackenzie King. The treaty was signed by the prime minister, with representatives of other countries in Paris on August 27 last. Sixty two out of 64 countries, Premier King declared, had signified their intention to adhere to the terms of the treaty. The only two countries, he proceeded, who had not signified their intentions to come under the terms of the pact were Argentine republic and Brazil.

The treaty, said Premier King, afforded a new basis for international law. Heretofore war was assumed to be an instrument of policy; much of existing international law having this thought behind it, he added. Hereafter, however, relations could not be expressed among nations by the possibility of war between them, they would rather place their reliance upon courts.

A lively passage at arms ensued between the Prime Minister and the leader of the opposition, Hon. R. B. Bennett. The latter rose, as the Premier resumed his seat, and asked if the Prime Minister had anything to say with regard to reservations. Mr. King replied in the affirmative. He chose to accept the statement of Right Hon. Sir Austen Chamberlain, the British Foreign Minister, who had declared in the British House that there were no reservations as far as Great Britain and the United States were concerned.

Perhaps Mr. Bennett had in mind the statements of other unauthorized persons. This treaty would have two effects. It would arouse the conscience of the nation to determine how far national policy would run counter to the spirit of peace; and in addition there was in the league of nations, a body that was continuing from day to day and from year to year. The different nations signatory to the treaty had obligations as members of the league and it might be that the league would be expected to examine more closely any alleged reasons that had barring on the question and also to mobilize all its members against one which sought to evade the obligations imposed on them under the solemn covenant.

Mr. Bennett insisted that in the speech by Lord Cushendun, which the Prime Minister had read, there had been one reservation—self defence. The Premier declared that self defence was inherent in human nature. Also, the Cushendun statement had carried the term "bona fide self defence." The League of Nations and all its members regarded self defence as a bona fide national right.

Mr. Cahan asked if it were not cor-

The Late Fred. H. Beer

Citizens were saddened to learn of the sudden death of Mr. Frederick H. Beer, which occurred yesterday afternoon, at his home in the city, in the 77th year of his age.

The late Mr. Beer was a son of Mr. George Beer and Mrs. Beer, who before her marriage was Miss Annie Holland, both of whom came to this Province from England many years ago.

During the whole of his life, the late Mr. Beer resided in this, his native city, where his brothers, who predeceased him as well as himself played a prominent and honourable part as respected members of the community. In partnership with the late Mr. Louis Goff he conducted an extensive grocery business, both wholesale and retail in the premises on Queen Street occupied at present by the BeHune Hardware Company. After the death of Mr. Goff, Mr. Frederick Beer was taken into the firm. Mr. Beer shortly afterwards retired and accepted an appointment as appraiser in His Majesty's Customs—a post which he filled for twelve or fourteen years, at the end of which time, owing to advancing years he accepted superannuation, and has since been living in retirement.

The late Mr. Beer was a member of the Masonic and Oddfellows societies. For some time, also, he served his community in the capacity of City Councillor, carrying out his duties in these as in all business and social activities with such fidelity and consideration as to win for him the esteem

and friendship of the many who knew him.

A widow and three sons—Dr. C. H. Beer, Frederick Beer, in California, and Russell, who is employed in the Potato Service here, survive.

To the bereaved family The Guardian extends sincere sympathy.
