Captain T. G. Taylor Retires From Marine Service

After twenty-two years service in the Marine Service, fifteen of them as Marine Agent, Capt. T. G. Taylor has retired from the latter position. Yesterday he was welcomed on by the Marine Agency staff and was tendered the following address, which was accompanied by the presentation to the Captain of a handsome gold Waltham wrist watch suitably engraved. The address was as follows: Charlottetown, P. E. I., Oct. 31, 1924. To Captain Thomas Gibson Taylor, Agent Marine, Charlottetown, P. E. I. Division, Charlottetown, Dear Sir: We, the members of the staff of the Marine Agency at Charlottetown, having learned that you have decided to retire from your present position as Marine Agent, cannot allow this opportunity to pass without extending to you our sincere regret at losing your wise counsels and advice. That you have proven yourself to be a worthy official cannot be denied. During your long service in the Marine Department—some twenty-two years—you have endeared yourself to all who have worked with you. You have always been ready to give advice, and willing to overlook the faults of any official. You have been a constant source of inspiration and encouragement from your arduous duties. Now in the event of your life, we wish you continued health, contentment and happiness. As a small token of our esteem we ask you to accept this wrist watch. We wish you to keep it as a reminder that we may not pass too swiftly for you. Signed THE STAFF.

\$50,000 AND MORE IN P. E. I. ORPHANAGE CAMPAIGN

Grand Total of 48,225.60 Reported in Charlottetown Last Night—Additional Thousands Expected From Outlying Districts.

Charlottetown closed its part of the campaign to raise \$50,000 for Prince Edward Island Protestant Orphanage last night with a grand total of \$48,225.60, with more coming in every hour from the provincial centres. When Team 11 announced a report of \$300, Vice-Chairman W. F. Fildmarsh sprang to his feet to tell the volunteer workers that the \$50,000 mark had been passed. From that time, the flood climbed rapidly. "When the Trustees were considering the amount to be sought from the Protestants of Prince Edward Island," said Mr. Donald McKinnon, Chairman of the Board of Trustees, in Campaign Headquarters, 101 Queen Street, last night, "they took into account what would be a fairly widespread feeling in many parts of the Province that the times perhaps were not quite as good as in previous years. They realized that just in this season there might be a temporary dullness in the cities as well as in the rural regions, and though they believed that such a condition at worst could be only of brief duration they also sensed the fact that the temporary dullness might come just at the height of the campaign. Therefore, as they wished to be thoroughly considerate toward both the business men and the agricultural interests, and as Mr. George S. Inman, whom they had selected unanimously as Executive Chairman of the campaign committee, felt the same way, the trustees decided that \$50,000 was the minimum amount that would save the Protestant Orphanage from extinction. "Careful computation of the existing indebtedness and the other immediate needs of the institution led to the conclusion that the very smallest sum that would keep the Orphanage's door open, that amount, consequently, was fixed as the official goal of the campaign. "The Trustees, however," Mr. McKinnon continued, "consider it only fair to inform the Protestant public that to attain a full measure of efficiency without further delay, the Orphanage needs at least \$60,000. We wish to be thoroughly frank, of course. We do not mean to say that unless the Orphanage obtains \$60,000 it must cease to function. Thanks to the generosity of Prince Edward Islanders already shown up to this moment, the Orphanage is now out of danger so far as continuance of its existence is concerned. The \$50,000 which we have reason to feel is assured already has saved its life. With that amount, the Trustees can continue to care for the thirty-two orphans who at present are in the institution. "A philanthropy, on the other hand, is like a human being," Mr. McKinnon explained. "It cannot stand still. Unless it goes forward, it goes back." "You're perfectly correct in that," commented G. Dudley Wright, another member of the Board, who had dropped into campaign headquarters just then. "Exactly," Mr. McKinnon agreed. "I am sure you and all the other trustees are unanimous on that point. Mr. Wright. Therefore since the Protestant Orphanage cannot be permitted to go back, since it must go forward at least rapidly enough to meet the increasing demands of the immediate future, all of us feel that it is advisable for the Protestants of the Province to do their utmost to carry the present fund to \$60,000 or more, so that it need not be necessary to make a similar appeal in behalf of the institution for many years to come.

DEEPEST PLACE DOCTOR CHARGED WITH MANSLAUGHTER

Warship Unable to Reach Bottom With 61-4 Miles of Line

(Canadian Press) WASHINGTON, Oct. 31.—The deepest place in any ocean so far discovered is located about 50 miles off the coast of Japan in the Pacific ocean, according to information made public by the Department of the Interior through the geological survey. The Japanese man-of-war, the Manchu, found the spot recently while on a chart making expedition for the Japanese navy department. Its depth was so great that it could not be measured, for the reason that the sounding wire carried by the vessel reached only 32,644 feet, or nearly six and a quarter miles. How much deeper than the length of the sounding wire used the ocean may be at this place cannot even be guessed. The greatest ocean depth previously known was discovered in 1912 at a place off the coast of Mindanao, Philippine Islands, where bottom was reached at a depth of 32,133 feet. These great depths have lately become interesting in connection with the study of earthquakes that appear to be produced by the slipping of strata along planes deep in the crust of the earth. The deepest place in the Atlantic ocean thus far found lies just east of the Island of Haiti, where the depth is 29,922 feet.

It is understood that the general consequences of business depression and a considerable amount of non-liquid loans are believed to have played an important part in making the amalgamation advisable in order to afford the greatest degree of protection to the shareholders of the Molsons Bank.

Moose Attempt To Kill Hunter

DAWSON, Y. T., Oct. 31.—The occurrence of an unprovoked moose attacking a man was the recent experience of Chris Olsen, hunter and trapper of Indian River. A moose charged him furiously when Olsen took a flying shot, hitting the moose in the head, but the next instant the moose hurled him to the ground, goring him in the thigh, hand and head. At the moment when Olsen thought he would have succumbed, the moose stepped over and Olsen scrambled to his feet. As he picked up his gun a second bull moose charged him but he managed to drop the animal in the last ten feet. The suspicion is that the two animals had challenged each other to battle and Olsen happened to pass between them as they drew together.

All the sections of the dictionary have been completed, but the editors have been finding it necessary to make several additions and revisions, so changeable is the English of today.

SOME APPOINTMENTS MAY BE MADE

(Canadian Press) OTTAWA, Oct. 31.—The cabinet is in session today to dispose of a large number of proposed retirements from the civil service. Some of the applications are voluntary coming from civil servants who feel that they will benefit more under the Calder Act, which becomes operative today, than under the new superannuation act which replaces it. The appointment of G. Tomkins of the staff of the Royal Bank of Canada to the position of Chief Government Inspector of banks may be made at today's meeting. There is a vacancy on the Board of Railway Commissioners resulting from the retirement of W. B. Nantel, Deputy Chief Commissioner, but it is stated no appointment will be made till the return of Premier King. A wire was sent to the Premier asking that a deputation be heard in the city of Winnipeg on the Crown's Nest agreement rates but J. F. Fisher, barrister, was asked who formerly served as the basis of Lord Curzon's note.

There were 42 men in the crew, all of whom were forced to jump overboard when the flames blocked their escape to the dock. All but 12 were picked up in the water. The explosion was caused by the collapse of the wharves, which dragged down electric wires, which set off the gasoline.
