Mark Wright Furnishing Co.

THE CHARLOTTETOWN GUARDIAN

WEDNESDAY MORNING NOVEMBER 14, 1906.

THE PROVINCIAL LAND GRAB.

Between the Provinces of Ontario, Manitoba and Saskatchewan on the one aid and Hudson Bay on the other lies a tract of territory, roughly speaking 100,000 square miles in area, and forming part of the vast territory of Keewatin. It is part of the tract of land purchased from the Hudson Bay Company by the Dominion and paid for in cash. It is a e part of the public domain and belongs to all the people of Canada.

There may not be in it much good agricultural land, but it is valuable for its forests, its game and furs, its abundant wa'er powers, its mineral resources and the fisheries on the shores of Hudson and James Bays. Upon this tract of land, which is twice the size of the three Maritime Provinces taken together, the Governments of Ontario, Manitoba and Sask t cheman have fixed covetous eyes and desire to possess it for themselves. With this object in view the Premiers of the three Provinces have just now been in conference with the Government at Ottawa.

Be it observed that the three Provinces have now a very large territorial area. Ontario and Manitoba have had their boundaries extended since the union. Saskatchewan was this year created a Province nearly as large as Ontario. The three together are ten or eleven times as large as the three Maritime Provinces. And they do not propose to purchase the lands which they covet. They propose to take them over as a free gift, with all their valuable resources. Ontario modestly claims more than three quarters of the whole. Saskatchewan claims all that remains and overlaps Ontario's claim. Manitoba wants all she can get.

Be it also observed that Sir Wilfrid Laurier, who some time ago promised a further extension of territory to Manitoba proposes to recognise the pretensions of the three Provinces, the only question in his mind, according to our Ottawa despatch, being as to the portion to be allotted to each Province. The decision to be arrived at by the Ottawa government will of course, be subject to the ratification of Parliament, but such is the subservience of the party majority that whatever the Government may decide upon will almost inevitably be endorsed by Parliament and take effect. It remains to be seen whether this vast territory, which belongs to the people of all the Provinces shall be thus given away without compensation to or protest from the other Provinces which are to be despoiled of their legitimate rights.

Our correspondent, "Justice," ably discusses this question in other columns of this issue and we bespeak for his lengthy communication the careful persual it deserves. "Justice," however, has fallen into error when he says this matter has not been discussed by any public man or newspaper. The subject is by no means a new one to The Guardian. Frequent reference has been made to it in these columns and it was discussed at some length in connection with our claim to have six representatives in the Commons. It is a very vital and important matter and we earnestly hope that the Maritime Provinces will not "sleep upon their rights of compensation," if the proposed huge land grab goes into effect.

Premier Stolypin says the New Duma will meet on 4th March next. Of course the election must be held in the meantime.

British and French warships are going together to Moorish waters in the interest of maintaining order there. What will the Kaiser say to this?

It is of interest to learn that the temperance members of the Imperial Parliahave acquainted Premier Peters that they would like to get copies of our Prohibitary Law with a view to improving British le islation on the liquor traffic.

The proposed measure of Home Rule for Ireland seems to be not the creation of an Irish Parliament but the extension of the English municipal system of elective county councils to Ireland.

Mr. Croskill has accomplished wonders in bringing the Public Library up to-date, and making it useful and attractive. More assistants are needed. We feel strongly that the City Council, if within its power to do, ought to make a grant to this excellent institution.

New Brunswick suffered for a time under a telephone monopoly. A second company was formed and competition for a time was felt. Last spring the two companies were merged together and again the rates have gone up. Moncton is in revolt, and there is a loud call for a Government or municipal telephone service.

President Roosevelt has gone to Panama to inspect the canal operations. There is a rule which prevents the Chief Executive of the United States from visiting foreign lands or going outside the jurisdiction of the nation during his term of office, but the canal strip is wholly under United States control and he travels thither and will return on an American warship, which is American territory when on the high seas. His interest in the canal project is most praiseworthy. He is impatient too over the long delay in "making the dirt fly."

Calgary's census has been taken over again and gives several thousands more than the first count, making its population now 14,938.

VERY PREVALENT IN YOUNG WOMEN.

A Condition of "White-Bloodedness" is Fast Increasing.

It is always associated with langour and sensitiveness to cold. All the mucous surfaces, such as the gums, lips and eyelids, are blanched and waxy looking, the skin is pallid and colorless.

The pulse becomes rapid and feeble; there is also loss of appetite and enfeebled digestion, palpitation of the heart, breathlessness and tendency to faint. In extreme cases there is complete disappearance of the menstrual flow and dropsical swelling of the limbs.

Physicians know of no remedy so prompt in results as Ferrozone, which contains all the elements lacking in debilitated blood.

Ferrozone not only improves the present quality of the blood, but actually forms more blood—the rich, red kind that nourishes and feeds the organs that require assistance.

"About a year ago", writes Mrs. S. G. Stanhope, of Rothesay, "my daughter complained of feeling tired. She was very pale and listless, and kept losing strength until too weak to attend school.

"We read of a similar case that of Miss Descent, Stirling, Ont., being cured by Ferrozone, and this induced us to get it for Elaine. It took three boxes of Ferrozone to make any decided improvement, but when six boxes were used my daughter was beginning to be her old self again. It didn't take much longer to make a complete cure. It has made a new girl of Elaine. She has gained ten pounds in weight and looks the picture of perfect health. She is stronger and enjoys the best of spirits."

Every growing girl and young woman can make herself strong and healthy with Ferrozone. Price 50c per box, or six for $2 50, at all dealers.

SELECT YOUR MEDICINE WITH CARE.

In debility and weakness medicine hould be mild and far reaching. Many ills and purgatives are too harsh, are rastic instead of curative. Excessive ction is always followed by depression, nd knowing this, Dr. Hamilton devised his pills of Mandrake and Butternut so as to mildly increase live and kidney activity, flush out the elementary canal, tone and regulate the bowels. Thus do Dr. Hamilton's Pills eliminate poisons from the body, restore clearness to the skin, bring strength and that sweet restorer of health —sleep. Best medicine on earth, 25c. per box at all dealers.

ANOUNCEMENTS
