

WILL WATCH THE ECLIPSE

OTTAWA, January 9.—Arrangements have been made by the government for an expedition to watch the double eclipse of the sun on the 30th of August next on the coast of Labrador, about 100 miles north of Belle Isle. W. F. King, chief astronomer of the Dominion, will have charge.

Contracted Chronic Diarrhoea While in t Philippines

"While with the U. S. Army in the Philippines, I contracted chronic diarrhoea. I suffered severely from this terrible disease for over three years and tried the prescriptions of numerous physicians, but found nothing that did me any good until I tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, two small bottles of which entirely cured me and I have since returned to the disease."—HERMAN STEIN, 212 N. Union Ave., Pueblo, Colorado. For sale by all druggists.

CHARLOTTETOWN GUARDIAN.

FRIDAY, JANUARY 13, 1905.

ALARMED FOR RUSSIA.

The New York Herald, whose proprietor James Gordon Bennett, spends much of his time on the European continent and is well informed in the affairs of the old world, has been from the beginning of the war strongly pro Russian. The strong sympathy of The Herald for the Muscovite cause gives point to a recent editorial article in its columns headed "Regeneration or Revolution Which?" The article sets forth that grave trouble is brewing in Russia and a grave mistake is being made by the Czar in loading down the safety valve. Hope deferred makes the heart sick while hope shattered makes the heart defiant. The feeling in Russia has grown, and may no longer be trifled with.

The Herald recalls that by not knowing when to yield Charles I. and Louis XVI, both well-intentioned rulers, lost their heads and thinks the Czar would do well to lay to heart these historical lessons. Monarchs of amiable disposition are only safe when behind the bulwarks of a constitution, a protection which the Czar is unwilling to set up. The strong friendship for Russia which The Herald has always felt and expressed, when read into its latest deliverance, would seem to indicate that Russia is now in imminent peril of a revolution which may quite overturn the existing order of things there.

Ontario is now within two weeks of the coming general election, and we gather from the tone of her newspapers of both sides the impression that the Ross Government's chances of victory have improved. It is not that the Government deserves a further lease of power, or that a change is not desirable. The prospect of change has led the people to scrutinize more closely the leader of the Opposition and his leading associates. And Ontario is not enamored of Mr. Whitney. Power and patronage are on the side of Premier Ross. The result will be in doubt till the votes are counted and at present the chances of victory between the opposing parties seem fairly equal.

Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Vapo-Cresolene tablets, ten cents per box. All druggists.

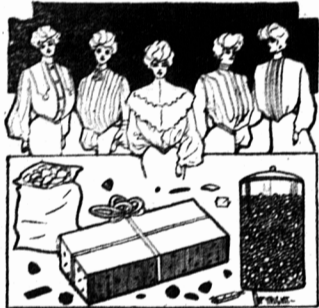

The Right Food for the Baby

We have all the good infants' foods, and, as they deteriorate with age, we order frequently so as to keep a fresh stock at all times.

If the food you are now using does not agree with baby perfectly try some of the fresh foods we carry.

Come in and Guess.

Mark Wright Furnishing Co.

Sunnyside Carpet and Furniture House.

Showing a pretty dressy frock for young girl. The material is light blue silk batiste over green satin. The ribbon is a shade darker than the batiste. White gloves and slippers are worn with it in the evening.

It is a notable and somewhat mysterious fact that of the hundreds of Russian officers who surrendered at Port Arthur only eighty would accept the offered privilege of release on parole. The rest preferred to remain prisoners of war. One explanation offered is that they expect a victorious advance of the Russian forces next spring when many Japanese prisoners will be taken and they may be exchanged and be free to fight again. If now released on parole they would be excluded from fighting again during the present war. The Japanese would be glad to have them all paroled, and thus be freed from the cost of maintaining them. It will cost Japan as much to maintain and guard the 20,000 prisoners taken at Port Arthur as to maintain a like number of her own men in the field.

Sir William McEwen, an eminent English surgeon, takes strong ground against the prevalent practise of excising the vermiform appendix in case of inflammation. He holds that so far from being an entirely useless organ, as has been concluded by many practitioners, the appendix has a very important function in assisting digestion. He believes that this organ, which has been perpetuated in the human species for so many thousands of years was not made in vain, and that medical science in the future will be directed along the lines of keeping the appendix healthy, or curing it when diseased, rather than resorting to the use of the knife. Statistics of operations prove but little. Some die under the process and some die afterward. What we shall never know is how many might have been saved by medical and dietetic treatment without operations.

WAIT ON THE PREMIER

OTTAWA, January 9.—A deputation representing the Dominion cotton shirt and collar manufacturers waited on the prime minister and minister of customs to-day to ask readjustment of cotton duties. They claim that the duty on white cotton is too low to enable the industry to be carried on in Canada, the duty being but 13 per cent, under preferential tariff.

Cured His Mother of Rheumatism.

"My mother has been a sufferer for any years from rheumatism," says W. H. Howard of Husband, Pennsylvania. "At times she was unable to move at all while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried. In fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with. For sale by all druggists."

LA PRESSE AFFAIR

MONTREAL, January 6.—It is expected that Henri Bourassa will bring the matter of the sale of La Presse before the Commons at an early date and ask for an enquiry.

Chamberlain's Cough Remedy Absolutely Harmless

The fault of giving children medicine containing injurious substances, is sometimes more disastrous than the disease from which they are suffering. Every mother should know that Chamberlain's Cough Remedy is perfectly safe for children to take. It contains nothing harmful and for coughs, colds and croup is unsurpassed. For sale by all druggists.

Emperor William is a keen observer of the war in the East. He has recently granted decorations to both Generals Nogi and Stoessel, the victorious besieger and the gallant defender of Port Arthur. The action is impartial as well as spectacular. But just why the German war lord should decorate either of the opposing generals while the war is in progress is one of the things difficult to understand. William is, however, a sort of self-constituted umpire in the great war-game wherever it may happen to be played about the world.

THOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquitoes and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles to every square millimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousand. Many popular patent medicines or tonics are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed is an alterative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking from the food such elements as are required for the blood, also an alterative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air do not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs. Neglected constipation means headache, heart-burn, sour stomach, foul taste in the mouth, biliousness, pimples, and palpitation of the heart. Constipation is promptly cured by Dr. Pierce's Pleasant Pellets. One for mild cases, otherwise two.

TENDERS

Just Arrived at **C. P. Fletcher's,** Opera House Building.

Charlottetown, P. E. I., Dec. 17, 1904.

The Berlin Robe & Clothing Co., Ltd., Berlin, Ont.

Gentlemen,—I have been using your Arctic brand of imitation Buffalo Robes in my livery business for some time and can recommend them to the public as being the best robe on the market, being wind, moth and rain proof and will dry out quicker than any other robe I have in my stable. They are superior to the real furs in many ways, and would strongly advise intending purchasers to see the Arctic brand.

Yours respectfully,
W. F. ROBINS.
