FIRST MEETING AFTER 36 YEARS

WINNIPEG, July 6.—(CP)—Mrs. N. J. Woodman of Cindorf, Gloucestershire, Eng., and her brother George Terouth of Winnipeg met here for the first time in 36 years.

DOG RUNS UP DOCTOR BILL

CALGARY, July 6.—(CP)—Paddy, big Chesapeake dog owned by Mr. and Mrs. M. D. McLean, knows when to visit the doctor. Taken by his owners to a veterinarian some time ago to have painful ear cankers dressed, "he now goes along every time his ears hurt," said Mrs. McLean.

SEVEN-MILE RUN FOR STOCKINGS

CARLYLE, Sask., July 6.—(CP)—Jimmy's Maxie Cree Indian of the White Bear Reserve, 36-year-old lone distance runner, ran seven and one-half miles from the reserve into Carlyle in 30 minutes to buy his wife a pair of stockings.

DISPLAY REFRIGERATORS

We have been appointed Distributors for the Martimes for that magnificent line of Refrigerated Display Counters—Reach-In Refrigerators, and Walk-In Coolers, manufactured by THE EUREKA REFRIGERATOR COMPANY, LIMITED, Ontario.

These conveniences are indispensable to enterprising merchants and rapidly coming into popular use. The Eureka goods have no superior in sturdiness of construction, economy of up-keep, beauty in their perfection of models, and the lowest priced in Canada.

"GOODS WELL SHOWN ARE HALF SOLD", is a literal truth, and in increased trade, your butter, cheese, cooked meats, fish and perishable products appearing fresh, clean and free from taint will attract customers who refuse to buy matted up, dust-covered, soft or rancid foods when slovenly displayed. These will pay for themselves in a reasonable time.

We have such a large number of Models that we can fit almost every need. NOTE—There are Models for both Ice, or Mechanical Refrigeration. Write us, or call, and it will be our pleasure to mail or furnish, descriptive literature and price on whatever your store demands. Wholesale or retail. Easy terms to responsible buyers.

DON'T NEGLECT THIS CHANCE TO KEEP AHEAD OF THE TIMES.

We have two left of those almost new high grade household Refrigerators closing out regardless of cost. First choice, usual terms, ten days trial.

reports. Mrs. W. B. Shaw gave report of the Federation Convention. Paper by Miss L. Hassard. Instrumental music by Mrs. Ernest McEwen. Gaelic Solo by Mrs. Wallace MacKay. Demonstration by Miss MacDonald (Supervisor). Address by Mrs. M. Bulman. A spirited discussion on T. B. testings took place concluding by each retaining her own opinion, but agreeing to disagree in a most amiable way. Nominating Committee returned the following report. Pres.—Mrs. Brenton Dickson. Vice-Pres.—Mrs. Warfield Orr. Secy.—Miss Anita Webb. Representative to Annual Convention—Mrs. M. J. Doyle. A motion was carried that our resolutions be sent to the resolution Committee a month before the District Convention and that the present Committee be permanent for the year. Many kindly and appreciative remarks were made of the work done by the retiring officers, especially that of the President, who has hazarded the execution of personal responsibilities in order to be present at the convention, to which we hopefully look forward to the future and what it may bring forth. The invitation to hold the 1939 Convention at Mayfield was gratefully accepted. The evening session which was largely attended opened by singing "The Island Hymn." Resolutions Committee submitted the following. 1. To resolve that the thanks of this Convention be extended to the members of Sterling Institute for their entertainment. 2. To the retiring officers for their services, so willingly given. 3. To the supervisor for her splendid demonstration and paper reading. 4. To Miss Hassard the assistant Supervisor for her talk. 5. To all who in any way helped to make the program interesting.

LONG CREEK WOMEN'S INSTITUTE

The buying committee was ordered to purchase a gift and present it to Mr. and Mrs. Alden MacPhail. Mrs. Agnes Moore kindly invited the members to her home for the July meeting, roll call to be answered with a collection. The meeting closed with singing.

Protect Plants From Attacks By Aphids

Aphids or plant lice are soft-bodied insects frequently found feeding in clusters on a wide variety of plants. They vary in colour, white, green, blue, and black often being found. When they are discovered, they should be checked before further damage is done. They can be controlled much more easily at the beginning of an outbreak than later in the season when their numbers have increased and the leaves on which they were feeding are curled up in such a way as to protect them from sprays or dusts. Spraying of plants with nicotine sulphate 40 per cent (Black Leaf 40) and water, to which has been added a small amount of laundry soap, is the easiest and best method of control. Nicotine should be used at the rate of 3-8ths of a pint to 40 gallons of water and two to three pounds of soap added to this quantity of spray. In small amounts, two teaspoonfuls of nicotine in a gallon of soapy water should be used. Apply the material on a hot, calm day and drench both the upper and lower surfaces of the leaves so as to actually hit all the insects. In protecting field crops, at least 100 gallons of the spray should be used per acre at each application. Two or three applications at weekly intervals will be necessary for complete control.
