SOVIET ARMY

Things which many Soviet writers have been saying — were interpreted here as being important. Last year at this time, Stalin's order said that "under new conditions the Red Army must vigilantly protect the peaceful constructive labor of the Soviet people, reliably safeguard state interests and political education of the frontiers of our homeland inaccessible to enemies."

Today's order, while instructing officers and men to continue to study warfare, placed more emphasis on political education. "The most important condition of the combat ability of our armed forces is a firm military discipline based primarily on the high conscience and political education of our service men," the Generalissimo said.

WINNIPEG, Feb. 23 (CP)—The \$5,000,000 windfall received by the Manitoba Government in the recently concluded Dominion-Provincial tax settlement and the \$6,000,000 provincial liquor profit are expected to provide fireworks when the 22nd session of the Manitoba legislature opens Tuesday.

The government announced last week that it would divide the money received from the dominion with the municipalities but members from Winnipeg have publicly announced they will take issue with the 50-50 division on the grounds that it was not fair to Winnipeg.
