Dr. MacPhee Gets WAKE UP YOUR LIVER BILE—

Rousing Reception In West Prince

Addressed Largely Attended Meetings At Tignish And Alberton.

The people of West Prince turned out in great numbers on Tuesday night to hear Dr. J. A. MacPhee, National Conservative candidate for Prince County speak on the subject of "The Rights of the People of Canada Today."

Mr. C. P. McCarthy, President of the National Conservative Association for Prince County presided over the gathering which filled the spacious hall to the doors. In his opening remarks Mr. McCarthy thanked the people for turning out in such numbers, especially on a night when the weather was so disagreeable. He stated that it was a sure indication that the County was getting ready for the fight with those of the "old party" who are interested in the issues of the day.

In speaking of Dr. MacPhee, who will represent Prince County in the next Parliament, Mr. McCarthy said that his professional duties look him into the homes of the farmer, fisherman and laborer, and he knew their needs. The National Conservative Party of Prince County had chosen wisely, he said, in their candidate who was very conversant in political matters. He was a Prince County man and would be available at all times to hear the people's requests. The Liberals had chosen a man outside the Province, with whom it would be difficult to get in contact.

There were rounds of applause and a "tiger" as the chairman called on the Doctor to address the meeting.

Carleton and Vicinity

Mr. Fenton Howatt, Carleton, was a passenger to Summerside on Monday.

Mrs. George Heffell, Carleton, was a passenger to Charlottetown Monday.

Miss Winnie MacWilliams of Cape Traverse is taking the Short Course in Household Economics in Charlottetown.

Mr. and Mrs. Melville Bell of Deseronto spent the weekend in Cape Traverse with guests of Mrs. Bell's parents, Mr. and Mrs. John MacWilliams.

Mrs. Willard Crooks of Cape Traverse was a weekend visitor to Charlottetown.

Mr. and Mrs. Fred Bell of Carleton were in Summerside last Thursday attending the funeral of the late Mr. James H. Bell.

Liberals Are

with worn out governmental machinery.

Hon. Mr. MacGuigan upheld the Liberal war effort record and the action of Mackenzie King in setting Parliament.

Mr. McPhee pointed out the Liberal Government must have had credit for the war effort. He stated that when it had the records in its archives at Ottawa and rushed to the country. The Liberal war effort had been condemned when they admitted that they caused them to dissolve Parliament.

It had been intended to have a Senator John A. MacDonald of Charlottetown, the time with Mr. MacPhee but Dr. Grant entered a strong protest and the Conservative candidate did not press the issue.

Kensington Scores Upset Over New Annan

Spotting their opponents the "New Annan Stars" heavy favorites to win the Brier Trophy in the North Shore League five goals in the opening and second frame before bagging their opening score, the Kensington Ramblers, led by their ace centerman Millar (Bill) Waite rambled right to town in a furious attack on the Queen Mary rink. The period ended with the Stars four in the lead.

Opening fast with both teams checking closely, it was not until the seventh minute mark was reached that the score was registered as two for the Stars and one for the Ramblers. In the eighth minute, the Stars scored a goal on a scoring rampage, they did and pumped in, despite the sensational net minding of R. McInnis the Kensington Ramblers three more goals to give the "Stars" what looked like a winning lead.

Schurman on a nice solo at 7:40 in the second session they came up; at this point the Ramblers came to life and registered two quick goals. The period ended with the Stars four in the lead.

HEPBURN Bans War News Films As Propaganda

Hebburn bans war news films as propaganda.

Mr. De Rochemont's statement said: "Apparently March of Time's film 'Canada at war' can be shown everywhere throughout the world except in Russia, Nazi Germany and the province of Ontario."

This film was prepared for world-wide exhibition, and Premier Hebburn is attaching rather undue importance to himself if he thinks the March of Time spent three months filming 'Canada at war' to bring their propaganda to the attention of Canadians.

In suppressing this film Premier Hebburn is adopting tactics which are being used by the late Huey P. Long who banned the March of Time from its Louisiana theatres when its contents displeased the Kingfish.

Our picture, 'Canada at war' is straightforward pictorial journalism and every citizen is entitled to see it from the screen.

Found Bodies

The actual finding of the bodies, it developed, was made by Leonard McNeil, 21, his wife and brother, while making a winter round of traps. They were camped out 200 yards from the cabin when he went alone to the little building.

McNeil said he was passing through Leonard's kitchen as he "parlor" when he was amazed at the sight of a dead man on a bunk. Without waiting to look around further, he ran back to where his father and brother were.

The pair accompanied him back, and together they found the bodies of the other two.

On the door of the cabin, they found pencilled this tragic query: "Why doesn't McNeil come this fall?" The trapper had visited the camp earlier the previous fall, marking his name and an October date on the wall.

McNeil believed that the Queen men, who must have landed there in September, confidently expected

Waste of Money

Dr. MacPhee reviewed the waste of public money since 1935, waste which he said was a Government favor which has involved \$180,000,000 of the public money, and patronage to political friends.

Reports given to the Prime Minister but they were not allowed to be given to the House. The inefficiency of Ministers of the Government was not disclosed but was camouflaged by the shuffling of words around instead of dismissing them which in itself was an admission of inefficiency.

Dr. MacPhee exposed the unpreparedness of Mr. King in his war, by his own admission, two years ago, that he feared a general strike, but that was so unprepared that the soldiers who enlisted had neither clothing nor ammunition. There was not even any cloth available for uniforms. The Government was unwilling to serve but were turned back because there was no place for them to go.

He pointed out that Australia with no greater population had put forth a greater effort than Canada, not because Canadian people were not loyal and united but because the Government could not handle the job. The war veterans offered their services but were not encouraged. The speaker pointed out the great advantage of a National Government in times such as these, free from political strife with one aim to stand united to win the war and afterwards to conduct the affairs of the country so that we may have the youth who have returned.

Dr. MacPhee stressed the need of men such as Hon. Dr. Manion, men who have served the country in the war and know the needs of the country and the men fighting for our liberty and freedom. "The soldiers have the right leader in Manion, who will see

Need Tourists Dolan Says

"We want United States tourists now more than at any other time in history. Their foreign exchange is a necessary fact in aiding Canada's war effort," Dr. Leo Dolan, chief of the Canadian Travel Bureau said in an address here tonight.

It is estimated that people of the United States spend six billion dollars annually for traveling. He said, "Last year \$154,000,000 were spent in Europe and Canada should benefit if this year would go to Europe."

Light Colored Martens For Spring

"There is a high-tide trend in the natural lighter shades of martens and Hudson Bay sables for spring," says a well-known furrier. "But the blended dark brown tones will still be popular." He continues.

Fur stores are expected to be much in demand for spring.

CENSORSHIP Top Man In Winnipegger Badminton

WINNIPEG, March 6—(CP)—Eddie Lemon, best-placed Winnipegger, was the Canadian badminton tournament's top giant-killer today after two rounds of men's singles play in the first national championships to be staged in Winnipeg since 1936.

Such seeded stars as Dick Birch of Montreal, Johnny Sams of Vancouver and Jimmy Forsythe of Winnipeg advanced easily but fourth-seeded Jack Storer was the first day victim of Lemon's unexpected brilliancy. The Winnipeg boy upset Storer 17-16, 18-17.

Betty Snell of Ottawa provided an upset in the women's division, winning fifth-seeded Audrey Winnipeg's singles champion, 6-11, 11-3. In the first round, Jean Eklund of Vancouver shunted fourth-seeded Mrs. Guy Partridge of Ottawa to the sidelines in another surprise, winning 10-12, 11-7.

Highly-favored Mrs. W. R. Walton of Toronto all-England champion, marched through two rounds easily, the need of experience in choosing a Government, adding: "What is greatly needed in such a Government is knowledge of war." During the last war Dr. Manion (Conservative Leader Dr. R. J. Manion) served gallantly at the front and then saw service in a wartime Parliament.

"This is the sort of experience which is of the utmost value today. You might tell us, Mr. King, how your experience in that respect compares with that of Dr. Manion."

No Airmen Questioned

No airmen will be questioned by Mr. Hepburn unless assurance is given that the men will be given honorable discharges should they be required to leave the service. He stated that he was not going to be placed in the position where he might become "victims of the Rogers Gestapo."

"We will see the high county council, the provincial police officers, the civic police, the civic authorities and the reporters and editors of The St. Thomas Times-Journal," said Mr. H. P. Rogers, "and then we shall see whether these men walked out in protest."

The Premier claimed newspapermen had been prevented by censorship from confirming any details of the alleged trouble, which he claimed arose when the airmen became "tid-up and disgust" with shining door knobs and polishing floors.

All the details of any trouble could be sought by Mr. Hepburn by questioning anyone he desired at the air centre. Mr. Rogers said in a statement, issued through his Ottawa office. Doors of the school would be open to Mr. Hepburn and any representatives of the press who wished to go along.

Press Statement

A statement by Mr. Hepburn that the press was warned not to publish reports of the alleged disturbance was denied at St. Thomas by the Times-Journal which on Feb. 10 pushed a news story that a new system of "tid-up and disgust" instituted, resulting in a large number on the streets and giving rise to rumors they were "A. W. O. L."

The Times-Journal statement today said it had "learned sufficient, however, to convince us that there had been trouble in the nature of a partial walkout at the school and that it had been due in a great measure to a misunderstanding over a new system of tid-up and disgust brought into force through the replacement of a shift work system with a double-shift work system."

The Times-Journal said it had no news score registered at this point before or after publication of the Feb. 10 story.

Blasts Hepburn

NEW YORK, March 4—(CP)—Louis de Rochemont, producer of the March of Time, said tonight Premier Hebburn of Ontario is "attaching rather undue importance to himself" if he thinks the March of Time spent three months filming "Canada at war" to bring their propaganda to the attention of Canadians.

In suppressing this film Premier Hebburn is adopting tactics which are being used by the late Huey P. Long who banned the March of Time from its Louisiana theatres when its contents displeased the Kingfish.

OVERSEAS, AGED 17

SAULT STE. MARIE, Ont., March 4—(CP)—Another candidate for the title of Canada's youngest soldier was revealed today when Mrs. E. DeRoche of Sault Ste. Marie, made known the age of her son, R. Douglas, who went overseas with the first division. Mrs. Wyper's son is 17 and was born Dec. 9, 1922.

SISTER SHIP

The Clyde River was wide. She was headed upstream but the current had been deepened and widened and went down the ways with 2,300 tons of drag chains attached to her hull.

The 1,030-foot Queen Elizabeth is 10 feet longer than the Queen Mary, can accommodate 400 more passengers—2,400—and has 14 decks, two more than the Queen Mary.

When travelling down the Clyde from the fitting-out base last Feb. 26, the drag gray liner, aided by eight tugs, took nearly an hour to negotiate the difficult Rashiee Bend where the Queen Mary touched the bank on a similar trip.

Near Grounding

The Queen Elizabeth's bow, caught by an incoming tide, swung toward the south bank but tugs pulled the big ship back into mid-stream.

Shipping sources in London said New York was the safest of the few big harbors able to handle the Queen Elizabeth.

Official statements on reasons for the voyage were withheld for the time being.

Election Nonsense

Another rather unwarranted thing being said is that we mustn't "swap horses when crossing a stream." Like many of these ancient saws, this is the sort of people who don't think; who are just impressed. Nobody wants to change horses. What a lot of people believe though is that we might usefully change jockeys; mount somebody on the horse—which in this case is the Canadian people—who knows how to ride; who will not be afraid to ride. These people think—and not wholly without reason—and that the present jockey is not quite getting the best out of the horse.

It is not at all to be possible to discuss with this election about without using terms as phrases that have little meaning. Mr. C. D. Howe telling us that we have a bigger air force now than we had in 1935 (when the whole world was talking, disarmament), Mr. King in office, Mr. King in office as a reason for keeping Mr. King in office, Mr. King in office to despair.

40,000 UP IN SMOKE

MANCHESTER, England—(CP)—Clearing away 400,000 tons of snow in the recent blizzards in the north of England, Manchester used 200 tons of salt to melt the snow. It cost the corporation \$111,400.

BANBURY England

BANBURY, England—(CP)—Banbury's 40,000-sold, built 10 years ago, was destroyed by fire one night while the fire brigade, hampered by lack of water, stood by almost helpless.

Belief here is that the men died of starvation early in December. They are known to have been alive on Dec. 3, the 1st date marked up on their improvised calendar on the cabin wall.

There is a high-tide trend in the natural lighter shades of martens and Hudson Bay sables for spring, says a well-known furrier. "But the blended dark brown tones will still be popular." He continues.

Fur stores are expected to be much in demand for spring.
