

*Here's how YOU CAN* **REPAIR • REMODEL OR BUILD** *at a SAVINGS*

**TAKE ADVANTAGE of the HOME IMPROVEMENT PLAN**

**GAMBLING!**

You may gamble a thousand dollars on the stock market — think little about it — you gambled. You may drop a thousand dollars when you trade-in the old bus for a new one — think nothing about it — you expected it. **SAVE MONEY!** You may save the thousands of dollars you throw away in rent during the years—when you invest in a new home—easily purchased in the Smallwood location—doubly protected by Civic zoning and the Smallwood Special deeds. Investing in a new beautiful home in this strictly residential area makes for appreciation in value with the years. Why pay rent? Invest your rental payments in the best location—the Smallwood sub-division. **Save Money!**

**Re-Roofing**

When a wood shingle roof needs replacement time and labor can be saved by putting down the new roofing over the worn shingles. By so doing, stiffness and heat resistance are increased and dirt inside and outside the house, usually to be encountered during a re-roofing job, avoided.

**Airtight Double Hung Windows Available**

You may now get metal double hung windows as well as metal casements. The new window is made of light aluminum. All parts of sash and frame are "extruded"—that is, forced through a die under tremendous pressure rather than cast.

These windows are water-tight and air-tight, and this is doubly insured by weatherstripping in all sliding parts. These do not stick or bind and are very easy to raise or lower. No sash weights are used—they are balanced with a metal tape and spring which oper-

**YOUR HOME**

Check over this list, decide what you want done, and arrange for the work immediately.

**ATTIC**

Apply finishing material to walls and ceiling.

Apply fire-stopping between studs at floor line.

Finish off room for playroom. Walls can be covered with wall-board or insulating board with wood battens to cover the joints.

Lay finished flooring.

Partition off rooms.

Provide disappearing stairway.

Provide insulating materials under floor.

Glazing is simple because glass is set without putty. The metal shape which holds the pane is sprung into a groove. The sash is fitted in place with but four screws. No adjustment is needed once it is installed.

**BASEMENT**

Apply bridging between floor joists.

Apply fire-stopping around sills.

Apply special floor treatments.

Apply waterproofing to walls.

Build basement garage.

Build foundation footings and walls.

Build game room for children's playroom.

Cover basement ceiling.

Excavate cellar.

Enclose inside stairway.

Increase window space.

Install fruit closet, shelves, etc.

Install partitions for storage bins, etc.

Install wash tubs, toilet, etc.

Install work bench and equip-

**Corner Beads**

Installing metal corner beads over all exposed corners or edges of a room before plastering it provides protection against the plaster becoming chipped or broken along the edges when it is accidentally hit by a broom handle, a piece of furniture or other hard object.

**BATHROOM**

Build and equip bathroom where none exists.

Install built-in wardrobe.
