German producers are unable to make enough sound films to supply the German demand, and the audiences do not want the programs filled out with silent films, so the theatre managers are in trouble.

On Saturday, he told me that his doctor had said he would have to stay in bed for a fortnight and rest and sleep. He was then going home to obey. But a greater Physician stepped in, and His kind servant Death touched him with his finger and our friend went peacefully into the other life.

He died a loyal gentleman—unafraid. May we all pass as bravely and leave as proud a memory behind.

To our fellow member Clarence Bissett, I have to express the sympathy of the members of this Club who feel for him in the sorrow which is inevitable when one who is near and dear passes away. We assure him that his grief affects us all, and our friendly condolences go out to him in the hope that the pain of the loss of his sister may be lessened by the loving regards of his friends in Rotary.

In loving memory of Mrs. Hugh MacLure, North Rustico, who departed this life June 11, 1929. No one knows the silent heartache. Only those who have lost; can tell of the grief, that's borne in silence For the one we loved so well. Dearest Mother we know you're happy In the mansions of the blest. Where there is no pain or sorrow. In your sweet eternal rest. Inserted by her Daughter and Son, Annie and Adran. 4332-11.

FUNERAL OF THE LATE MR. PERCY POPE

To the memory of the late Mr. Percy Pope a large crowd paid a last tribute to respect yesterday afternoon at the funeral, which took place in St. Paul's Church. The services at the church and at the grave in Sherwood Cemetery were conducted by Rev. H. D. Raymond assisted by Canon Malone. The long train of mourners composed of many of the prominent public men of the province and of the city betokened the esteem in which the deceased was held by all who knew him in public and private life, bespoke a man whose personal influence touched the lives of many, and bore testimony of a recognized character of sterling integrity and honourable principles.

The honorary pall bearers were Lieutenant Governor Hertz, Chief Justice Mathieson, Judge Haszard, Dr. H. Johnson, H. W. Longworth, A. E. Ings. The active pall bearers were D. A. MacKinnon, A. B. Cosh, Geo. D. DeBlais, J. A. McMillan, J. O. Hyndman, R. L. Cotton. Following were the mourners: Reginald Pope, Dr. W. Pethick, D. B. Stewart, H. R. Stewart, W. W. Owen, Edward Owen, John Morris, Fred Morris, Thos. Morris, Senator McArthur, H. W. Weeks, L. E. Brecken, D. K. Currie, A. A. MacLean, A. W. Hyndman, Judge Stewart, Reginald Aitken.

The Rotary Club of which Mr. Pope was past president, attended the service in a body, and preceded the hearse.

At the meeting of the Rotary Club Monday, Past President Archibald Irwin paid the following tribute to the late Past President Percy Pope: "Our President has asked me to refer today to the passing of our honored and well-loved member, Percy Pope."

It was my privilege and pride to introduce him into this Club some years ago. He was older than most of us, and was well known as a man of more than average intellectual ability. It was felt by some of my fellow members that he would be rather too serious to enter into the spirit of Rotary. In this we were happily mistaken. He reacted quickly and eagerly to the ideals of this organization, which has so miraculously welded together men of many nations and of diverse dispositions. He acknowledged many times the good he received from Rotary. He gave of his best in return. None in this club worked more sincerely than he. No detail of work entrusted to him was neglected. His death speaking in relation to our club, is a distinct loss—one that brings grief in its realization. Here week by week he met us, if possible. His chair was never empty for trivial reasons.

May we follow the good example he has set us in loyalty to Rotary and loyalty to friends. May we find pleasure in recalling that he, whose mind was so gifted and so broad in its reach found pleasure in being amongst us, and considered it his duty and pleasure to loyally fulfill his obligations to Rotary.

He was to many besides myself, a faithful guide, counsellor and friend.

On Saturday, he told me that his doctor had said he would have to stay in bed for a fortnight and rest and sleep. He was then going home to obey. But a greater Physician stepped in, and His kind servant Death touched him with his finger and our friend went peacefully into the other life.

He died a loyal gentleman—unafraid. May we all pass as bravely and leave as proud a memory behind.

4317-6-10-1week.

KINGS COUNTY (Continued from page 1)

Murray Harbor South, was adopted: "That the Liberal-Conservative Convention record with deep regret the demise of many prominent members of our party since our last assembly and especially the demise of the late John Keays, of Souris, and the late Michael Murphy of Panmure Island, both of whom during their lifetime devoted time and energy so generously in the interests of our party; and that the secretary of this meeting be instructed to convey to their immediate relatives the deep sympathy of this Convention."

Summerside visitors present at the meeting, in addition to Mr. A. F. Arsenault, included Mr. J. E. Wyatt, K. C., and Mr. Leonard McNeill.

MR. MACDONALD'S SPEECH

Because of the fact that he had been in Opposition during the past five years, Mr. MacDonald regretted that he had not been able to serve the County as well as might otherwise have been the case. However, he performed his duties to the best of his ability, and it was indeed gratifying, on the present occasion, to receive the convention's approval of the course which he had followed. (Applause.)

"There is now no Parliament," Mr. MacDonald continued, "but there is still a Government. The duty before the electors of Canada during the next seven weeks is to elect a new Parliament, which may or may not return the present Government. The one hope that I have of being able to repay the people of King's County for the honor they have shown me in the past two elections is that we may change the Government on the 28th of July and place ourselves in a better position to do something for you. (Applause). And when that day comes I want to assure the electors of King's County that whatever it is possible to do, whatever can be obtained in the way of meeting the requirements of the County, it will be my chief aim and object to secure."

Tributes From Rotary Club

At the meeting of the Rotary Club Monday, Past President Archibald Irwin paid the following tribute to the late Past President Percy Pope: "Our President has asked me to refer today to the passing of our honored and well-loved member, Percy Pope."

It was my privilege and pride to introduce him into this Club some years ago. He was older than most of us, and was well known as a man of more than average intellectual ability. It was felt by some of my fellow members that he would be rather too serious to enter into the spirit of Rotary. In this we were happily mistaken. He reacted quickly and eagerly to the ideals of this organization, which has so miraculously welded together men of many nations and of diverse dispositions. He acknowledged many times the good he received from Rotary. He gave of his best in return. None in this club worked more sincerely than he. No detail of work entrusted to him was neglected. His death speaking in relation to our club, is a distinct loss—one that brings grief in its realization. Here week by week he met us, if possible. His chair was never empty for trivial reasons.

May we follow the good example he has set us in loyalty to Rotary and loyalty to friends. May we find pleasure in recalling that he, whose mind was so gifted and so broad in its reach found pleasure in being amongst us, and considered it his duty and pleasure to loyally fulfill his obligations to Rotary.

He was to many besides myself, a faithful guide, counsellor and friend.

On Saturday, he told me that his doctor had said he would have to stay in bed for a fortnight and rest and sleep. He was then going home to obey. But a greater Physician stepped in, and His kind servant Death touched him with his finger and our friend went peacefully into the other life.

He died a loyal gentleman—unafraid. May we all pass as bravely and leave as proud a memory behind.

great moral issue" failed of its object. We do not hear a word about it now, simply because Hon. Mr. Bennett, the leader of the Conservative party, took exactly the same attitude as Mr. King, except that Mr. Bennett pointed out that the Prime Minister's action with respect to liquor clearances should have been taken seven or eight years ago! "Then they had to cast about for something else on which to go to the country. The result was the introduction of the Dunning budget. There is no doubt that this budget was designed for the one purpose of catching votes. Mr. King and his Government had for many years carried on by a series of compromises between the protectionist element in the Liberal party in Eastern Canada and the extreme free trade wing of the Prairie provinces. For the past three years the free traders from the West had been demanding action. At that time Mr. King appointed a Tariff Advisory Board, which, he said, would have to function and make recommendations before action could be taken. The following year this Board was just getting into action. In 1929 he declared that the Board had not sufficiently progressed with its work to recommend a general reclassification of the tariff. But this year it could not be held back any longer. The Liberals and the Liberal-Progressives were becoming restless and something had to be done. The only thing was to concoct something that nobody could understand, and the result was the Budget recently brought down by the new Finance Minister, Mr. Dunning.

"It was neither a protectionist nor a free trade budget. It has clauses which allow supporters of the Government in Western Canada to take the tariff as proposed, read it to the free-trade farmers in their constituencies, and point out the hundreds of items that are put on the free list. It has other clauses which can be picked out by Liberal speakers in Eastern Canada, and read in the industrial centres, showing how strongly protectionist the Government is. The budget is designed that way; and it is for the people of Canada to understand the motive behind these tariff changes and pass judgement accordingly on a Government that thinks it can fool the electors in this fashion." (Applause.)

Mr. MacDonald quoted trenchant passages from the speech of Hon. R. J. Manion, denouncing the Dunning budget as "a strange patchwork of economic humbug."

British Preference

"It will be claimed all over Canada by our opponents," Mr. MacDonald proceeded, "that because we have criticised the British preferential clauses in the budget were not patriotic British subjects. I do not think there is any need to refute that insinuation. Largely the descendants of British stock, our people are probably as loyal to the British Empire as the best English or Scotch or Irish citizens of the Old Land. But we have in addition to our interest in the British Empire our interest in and our love for Canada. We have to think about that. (Applause) Matters of this kind must be approached from a business standpoint. We cannot afford to give away our advantages as Canadians to any part of the British Empire unless we get something in return. We have, for example, our natural resources. Why should we say to New Zealand, or to Australia, or India, or the West Indies, or England itself: 'Come here and take advantage of everything that we have; exploit our markets freely; we don't ask anything of you in return.' Would you do that in your own business? Would you do it to your neighbour on the adjoining farm? I do not think you would feel called upon to do so, even if those neighbours were very near and dear to you. A young man with a farm does not reverse his father's less, nor love him the less, because he puts a fence around his own cows and keeps his father's cows out. He puts the fence there because he is a good farmer. The same with tariff regulations. These regulations are not matters of sentiment but of business. We have in England the greatest market in the world for some of our products. But the British Government leaves that market open to the whole world and when we go there to sell our wheat, or our cheese or anything else that we produce in Canada, we find that we have to meet the competition of other countries, all over the world, that have similar commodities to sell. What we contend is simply this: 'Yes, we will give Britain a preference, but let Britain give us some of their markets in return!' (Applause.)

Empire Reciprocity

"That is the vital difference between the Conservative and the Liberal policies in respect to British preference. We have heard a great deal about Reciprocity from the Liberal

party during the past number of years. Reciprocity with whom? With the United States. Why not Reciprocity with Great Britain? Why not Reciprocity within the British Empire? Why not forego about this hoax of Reciprocity with the States, which we cannot have anyway, because the States refused to give it to us, and concentrate upon a reciprocal policy that will be of real practical benefit to the producers of this country. (Loud Applause.)

"We find that for a number of years the United States has been treating Canada, as has been stated by one of their own Senators a few days ago, 'as a big bully treats a small boy.' And for years Mr. MacKenzie King and his Government have taken the bullying, and taken it lying down. (Applause) What is the result today? Canada has begun to resent that kind of thing. They are ten to our one, so far as population is concerned, but we still have our self-respect, we still have our courage; we still have our country; and it is for us to live our lives here and not be dictated by the United States or any other nation. (Applause.)

"Mr. King, apparently, has at last recognized that Mr. Bennett was right in this respect and that he was wrong. But even as late as 1929 his cry was: 'Don't provoke Washington.' He now gives us 'countervailing duties against certain foreign products. Those duties only apply to sixteen articles of Canadian production, but they show more clearly than words can express just what a 'flip' the Liberal party has taken in bringing forward this budget."

Quoting Mr. Bennett's comment on the Dunning budget in the House of Commons, Mr. MacDonald showed that the word "budget" applied to this document was a misnomer, inasmuch as it left completely out of account the estimates of revenue during the year. This was further convincing evidence that the King Government's design was to fool the electors. For years the Liberal cry has been the great prosperity that Canada has enjoyed. They boasted of boyaunt revenues, of great trade expansion, etc. But the tune has changed. We hear a great deal about a surplus last year of \$44,000,000 revenue. But the estimates of revenue for the coming year, if put before Parliament, would have shown a very heavy deficit. This is why in his budget speech Mr. Dunning did not make any estimate of revenues for this year. We know however, that the revenue of Canada during the month of April—the first month of the present fiscal year—shows a net decrease as compared with April, 1929, of \$617,291. And this without taking into account the new budget regulations, none of which came into effect until the 1st of May. If applied to the two months of the year, this would be a loss of nearly \$70,000,000 in revenue yet the Government has tabled large

estimates of expenditures than they did a year ago. Where, then, is the "surplus"? It has vanished; and that is why it was not referred to in the budget.

Decline in Exports "In matters of trade, the total exports of Canada in 1928-29 were \$1,363,000,000. In 1929-30 those exports had dropped to \$1,129,000 or a net loss in the trade of Canada in the year ending March 31, 1930, of \$234,000 as compared with the previous year.

"In April of the present year the imports were \$714,001,000, the exports \$50,000,000. In that month alone the trade balance was against us by \$20,603,000. If April is taken as a representative month, our unfavorable trade balance for the present year threatens to be in the vicinity of \$240,000,000 or \$250,000,000."

The manner in which the King Government introduced protectionist tariffs under another guise was convincingly shown by Mr. MacDonald. A few days ago it was discovered in the House that the Customs officials had been instructed to advance by 40 per cent the valuations on certain classes of furniture coming into Canada.
