It has been definitely stated that the Brackley and Winsloe mail route will on and after Dec. 1st be served daily, in line with all the adjacent routes, some of which have had the privilege for a long time. Hitherto Brackley and Winsloe have had daily delivery for only six months in the year.

Owing to the continued rainy weather there is a good deal of grain still out in stock around Cornwall. A few fine sunny days and the grain would be all saved. The rural telephone is proving most satisfactorily, those who have it in their houses are delighted, and often have friendly chats over the line, it is proving both a convenience and pleasure.

A Cornwall correspondent writes that Mrs. Min, Cove, has taken a position in the store of B. C. Webster. Mrs. Alex Stevenson and son returned Friday from a visit to relatives and friends in the western part of the province. Richard and Mrs. Noonan of Palmer Road have the deep sympathy of the community in their great sorrow caused by the death of their eldest daughter Rosalie Mae, who died of heart trouble on the 14th inst., in Medford, Mass. About two years ago she married Chas. M. Boyd of Boston, who accompanied the remains to this island. The funeral which took place at the Immaculate Conception Church, Palmer Road, on Wednesday, the 19th inst., was very largely attended. The service in the Church and at the grave was conducted by Rev. Father Johnston, while the singing was under the leadership of the pastor, Rev. Father Gauthier. Besides an infant boy of two months she leaves a sorrowing husband to mourn his loss. Five sisters and one brother also mourn the loss of an affectionate sister. May her soul rest in peace.—Com.—Boston papers please copy.

Heintzman and Co. Invade New York. Louis xv. Grand Piano Goes to Leading New York Financier.

There is an exhibition this week in the window of Ye Olde Firme of Heintzman and Co., Limited, 193-195-197 Yonge Street, Toronto, a beautiful Grand piano in Santa Domingo mahogany. The case is a work of art. This piano was built specially for Mr. J. Platten, president of United States Mortgage and Trust Co., New York, and is one of the finest of the many fine pianos built by this old established Canadian concern.

More than anything else, however, the piano is prized by its owner because of its delightful tone and touch—a piano mellow and rich in quality, with a touch delightfully flexible and finely adjusted. The piano is to be shipped to Mr. Platten at his New York home.

The Guardian is always anxious to take note and encourage home industry and has much pleasure in complimenting Messrs. McInnis Bros., carriage builders of Charlottetown on a specially fine express delivery built for Cameron's Home-Made Bread. The work reflects the greatest credit on these workmen, also on Fred G. Waller, who did the painting in a most artistic manner. The pity is that there is not more encouragement given to Charlottetown people along these lines.

A Concord, N. H. correspondent writes that a very interesting event which calls for more than passing notice, was the marriage of Miss Katie MacDonald, formerly of New Argyle, P. E. I., to Albert Barrett of Concord, N. H., at the Methodist Parsonage by the Rev. C. C. Garland. The bride was attended by Miss Margaret Dymont, formerly of Northam, P. E. I., and the groom was ably supported by his brother. The bride looked lovely in a travelling suit of blue and a very becoming hat to match. They left immediately on their honeymoon trip for P. E. I. It being Mr. Barrett's first visit to the Garden of the Gulf their island friends wish them bon voyage. The young couple will be greatly missed here, and especially will the bride be missed by the Ladies of the Home For the Aged where she has been employed for a number of years. They stand located in the Canadian West. A large number of their island friends met them at the depot and showered them with rice and confetti.—Miss Jeanett and Martha Dymont, formerly of Northam, P. E. I., have gone to Boston to spend their vacation.—Elmer W. Buchanan of Hathorn, Mass., formerly of Fredericton, P. E. I., spent a few days here visiting his sisters, Mrs. James Stewart and Mrs. G. H. Stewart.

THE TENDERFOOT'S TURN. To night the Colonial Stock Company will offer this popular Western play. It is without a doubt, one of the best plays staged by this popular company in Charlottetown, and though dealing entirely with Western life, is devoid of the usual impossible situations, so often found in plays of this kind. The story is laid on the border of Mexico, and Texas, that romantic part of the West about which so much has been written, and presented on the stage. Dave Barnett—a rancher's son—shoots an Indian, who had insulted his sister, and is assisted by Val Brandon—a "Tenderfoot" to escape. The Rangers are put on his track, and their Lieutenant—Burton Shackleford—comes to the Barnett ranch for another mount. Whilst there, he is drugged, by Val and old Barnet Julia Barnett, who is in love with the rancher, takes his coat and hat, and under cover of night delivers them to the Fort, those betraying-unknowningly—her own brother to the authorities. Val assisted by Paquita succeed in freeing him, and bringing him safely home. The entire company have congenial parts, and give a performance far above the average travelling company, charging higher prices. Without a doubt, the Colonial can pride themselves on giving one of the best Western studies ever seen at the Opera House, and should be greeted with a large audience. This being Exhibition week, there will be a big demand for seats, so it is advisable to get them early, as last year numbers were turned away, not being able to even find standing room.

GREY IS IN. Grey in all its shades and tones figures very prominently among the best of the new stuffs, toning down more vivid colors, or in itself color of two tones of the one color. Many of the brighter colors of the new season, while not mixed frankly with grey, seem to have a softening dash of grey in their composition, a greyish bloom, one might call it, and mixtures in which grey figures openly are legion. This is especially true of the wool stuffs for tailored wear, and both these materials and some of the smartest velvets for street wear are made of have the effect of grey by a sprinkling mixture of black and white.

EASTERN CAR COMPANY'S EXECUTIVE MANAGEMENT.

The Board of Directors of the New Glasgow Corporation is composed of the "Scottia" Executive.

No element is more vitally important in bringing success to a manufacturing or any commercial or industrial enterprise than is that of management.

One thing among many that commend the securities of the Eastern Car company, limited, now constructing a car building plant at New Glasgow, to the attention of careful investors, is the character of the personnel of the company's board of directors. This is comprised of the executive of the Nova Scotia Steel and Coal company—that is, the men on that board who are the real moving and directing force of "Scottia" are the men who are entrusted with the management of this allied car building industry. Here are their names—James C. McGregor, president; Robert E. Harris, K. C., vice-president; Lieutenant-Governor Jas. D. McGregor, George F. McKay, R. B. Chambers and Thomas Cantley.

The plant is being built under the supervision of the engineers and experts of the Nova Scotia Steel and Coal company. The general manager of the new company has been selected with the utmost care and one of the best known car building experts in the whole industry has been secured to take charge of operations and assume the direct management. The Eastern car company directors have taken \$250,000 of the 6 per cent preferred shares and the balance of \$500,000 is offered by J. C. Macintosh and company, Halifax, at 90 per cent of par. The offering is being well received.

Minard's Liniment Co., Limited. Dear Sir,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks, I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes. Yours truly, W. A. V. R.

TO MAKE RACING POPULAR. LONDON, Sept. 21—With the object of raising light harness racing to the high standing prevailing in America, the London Trotting club has been organized. The club has adopted many of the latest rules in light harness racing and will insist on their observance. The system of penalties and suspensions, which prevailed under the old trotting union of Great Britain, will be revived and enforced. The style of starting has been remodelled and all horses will be required to be sent off from behind the tapes. The track will be closed to horses that are late in answering the starter's bell, thereby obviating the delays which have made the sport unpopular with spectators. A new body of stewards has been appointed and it will operate under a fresh set of racing rules. The first meeting of the new club will be held at Amber Court Park, Thames, Ditton, at the end of this month.

CHICAGO POLICE HAVE LOST CLUB.

CHICAGO, Sept. 21—Acting Chief of Police Schuttler, in charge of the search for the two Canadian bank robbers, who eluded arrests here, declared today he believed the robbers had left Chicago. He said he was cooperating with detectives in a country-wide search for the suspects. Two men who are being held in connection with the case were said by Chief Schuttler not to be implicated in the robbery. They became acquainted with the robbers here.

The police are searching for two women who were companions of the robbers in Chicago. Two Greeks, said to have been engaged to assist in disposing of the Canadian currency, also are being sought.

A DESPERADO FIRES INTO SALVATION ARMY HALL.

HALIFAX, Sept. 23—Throw up your arms! This command greeted Jessie Knight as he emerged from the Hollis street entrance of the Salvation Army harbor about nine o'clock Saturday evening. The next instant Knight was looking down the barrel of a revolver held within a few feet of his head. Thinking it more advisable to seek shelter, Knight dodged behind the door, but scarcely had he done so when three bullets whizzed past his shoulder in quick succession, passing thru the adjoining window and lodging in the wall at the opposite end of the corridor.

TO HELP FARMERS.

PARIS, September 21—Sweeping recommendations for legislation designed to help the development of agriculture in the United States are contained in an elaborate report forwarded to Washington by the American ambassador, Byron T. Herrick, who has completed terms of agricultural credit facilities which are now in operation in Europe. The ambassador wrote the document after receiving the reports from other American diplomats in Europe and conferring with others.

Ambassador Herrick has been assisted by a commission which received here from the United States in July. The ambassador's report recommends the adoption by the United States of the Riefmessen system of agricultural cooperative credit societies. This system has been particularly successful in Germany, where its operation represents half the business of the commercial banks. It included organizations composed of small co-operative societies, whereby farmers are able to borrow money for a short time on their collective guarantees. These societies have become the nucleus of a series of central co-operative banks.

STEEL FIGHTERS IN LUNENBURG.

LUNENBURG, September 22—The vessels of the fishing fleet are returning from the banks and a great many men are ashore. The catch has been on the whole below the average. A few of the vessels have full catches, but many of them have not more than half.

There has been the usual trouble on the streets when big crowds of men are about. A fisherman was summoned to appear in court tomorrow on a charge of resisting the police.

Yesterday afternoon there was a series of fights on the street, and big crowds of people got mixed up with them, more as spectators than as combatants. The chief fight was between five and six o'clock, and the crowd between the post office and the Bank of Montreal made the street almost impassable. There were a number of black eyes and broken heads, but no serious casualties. It looks as if a stronger police force were needed at this time of the year anyway.
