DAMAGES SHOULD BE CLAIMED.

Canada has a billion of dollars invested in railways, and the public investments alone in railways and canals amount to half that sum. Both railway and canal building are going on apace and still the demand everywhere is for new and vaster works. British Columbia wants the Transcontinental Railway pushed to completion and is also calling loudly for rail connection between the Island of Vancouver and the Mainland. The Prairie Provinces are clamoring for a railway to Hudson Bay to afford them a new outlet, and for more branch lines and rolling stock.

And there the cry is loud, long and urgent. The grain grown in last year's harvest is half of it yet in the farmers' hands, in many cases lying in heaps in the fields covered with straw. It will keep thus till spring and then must suffer greatly in quality or become a total loss. Hauling it to the elevator across the soft prairie in the spring is a difficult task, and the full elevators do not permit it to be handled in winter. In a word the new, and as is hoped the larger harvest of 1907, will be harvested before the crop of 1906 is marketed.

Ontario wants the Trent Valley Canal completed to give a short cut from the Upper Lakes to Lake Ontario and then the greater Georgian Bay Canal, as it is called down the Ottawa Valley to give a direct water route from Lake Huron to Montreal. That great city, with Quebec, Halifax, Sydney and St. John want big money spent on their ports to nationalise them and equip them for the great commerce of the growing Dominion. Such are some of the urgent demands, and problems which are challenging the attention of the Government and Parliament of Canada today and which are crowding into the back-ground our own transport troubles and disabilities in this Province.

How are we to obtain a hearing and fair consideration for our just claims in face of so many other urgent demands each backed by powerful interests and large representation in Parliament? It is but natural that our island disabilities look small to the men of the west whose last year's harvest is rotting in the fields, or to the Ontario manufacturer of farm implements and machines, 80 per cent of whose sales are in the Northwest, to customers who cannot pay their bills until they first market their wheat. This is what we have to face when we endeavor to arouse Canadian interest and sympathy on our behalf.

Still the situation must be faced and we must not yield to despair. A good deal of interest has been aroused by our few representatives in Parliament this year, even under such adverse circumstances. We must hold the ground we have gained at all costs. We think our own Government and the Legislature now in session ought to be heard from in an emphatic way at this juncture. We have still some points of vantage in our favor. The Canadian Government has confessed its liability to pay us damages for nonfulfillment of the transportation clause of the Union Terms down to 1901.

We have six years of accrued damages since then. Has the bill been presented? If not it ought to have been. The Dominion ought to pay us at least \$10,000 a year for their default in each of those years. We must assert ourselves if we are to obtain justice and recognition. It is for the Government and Legislature as guardians of the people's rights to assert our claims and without delay. We have an undoubtedly valid claim for the failure of continuous steam communication in each of those six years. That claim will become weaker from year to year if delayed—dead in time, if we continue to sleep upon our rights. All the west is alert and active on the transport question. A damage claim from Prince Edward Island would needs command attention just now, and would hasten the day of our liberation.

The Legislature by unanimous vote pronounced itself strongly on this question in 1905, and since that time the Ottawa authorities say there has been no correspondence on the subject. In all that time nothing has been done by the Federal Government to make things better. Is there not great danger that a further silence on the part of the Legislature would be construed as giving assent to have things go on as they are? In any case we think it the duty of the Government and Legislature to speak out in a resolute and decided way as to the nonfulfillment of the Union Terms at the present session. And nothing would be more in accord with popular sentiment than such action.

PILES CURED IN 6 TO 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c. 11-11dmwfm.

THE DETAINED PASSENGERS' CASE.

There are a considerable number of persons variously estimated at from one hundred to two hundred, now on the Island who hold return tickets by the winter steamers from Georgetown to Pictou. The steamers are stuck in the ice and many of these passengers desire to return to the Mainland by way of the Capes. A deputation on their behalf waited upon Mr. Lord on Saturday asking that their return tickets by steamer be made good for passage by way of the Capes.

Their request seemed to them a most reasonable one. Both the steamers and the Capes ice-boats are under Government control and management and the passage money goes into the Canadian treasury. The men passengers are willing to go as "strap" passengers, that is, help to pull the boats, and only ask that they shall not be required to pay passage money a second time. The lady passengers only ask that they shall be taken across in the open boats at the price they have already paid for passage in the steamers. But it seems the request cannot be compiled with.

After long detention on expenses, with tickets of passage by the Government steamers which cannot run, these passengers are required to pay again and also work their passage by the small boats at the Capes. The best the Marine Department will do is to allow each passenger one dollar rebate on the fare by the Capes on surrendering the return ticket by steamer. Mr. Lord, the Marine Agent here, informs The Guardian that such are his instructions from the Department at Ottawa.

It is figured out in this way: The price of a return ticket by winter steamer from Pictou to Georgetown is three dollars. The price of a ticket for the single passage is two dollars. The passenger with a return ticket who has crossed one way is charged two dollars for that, and is held to be only entitled to one dollar refund if he chooses to return by another route. This is hard on the passengers, but they must submit. Their thanks are due to Mr. Messervey, Mr. Tidmarsh, Mayor Paton and others who intervened on their

behalf, but without effect. Still this sort of thing shows how inexorable the Government can be toward us in our emergent circumstances, and is calculated to increase rather than allay the prevalent discontent in Prince Edward Island.

SELECT YOUR MEDICINE WITH CARE.

In debility and weakness medicine should be mild and far reaching. Many pills and purgatives are too harsh, are drastic instead of curative. Excessive action is always followed by depression, and knowing this, Dr. Hamilton devised his pills of Mandrake & Butternut so as to mildly increase liver and kidney activity, flush out the elementary canal, tone and regulate the bowels. Thus Dr. Hamilton's Pills eliminate poisons from the body, restore cleanness to the skin, bring strength and that sweet restorer of health—sleep. Best medicine on earth, 25c. per box at all dealers.

IMPORTANT

The Charlottetown Guardian is the only Prince Edward Island newspaper that places its circulation figures before the public. Prospective advertisers are invited to call and investigate the Guardian's circulation statement before placing their advertising elsewhere.

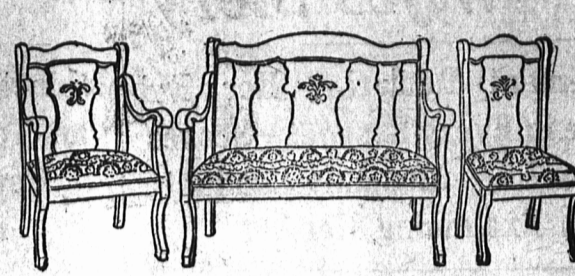

AN HONEST MAN.

wrote and told us that Ozone had not cured him of stomach trouble. He did not say what kind of Ozone so we wrote and asked him if he was sure he had been taking solution of Ozone, the kind that contains a coupon entitling the purchaser to one full sized 25c package of Celery King free of cost. He replied that he had unknowingly taken some other brand, and was sorry that he had treated us unjustly. Then he commenced to use Ozone (the coupon kind) with Celery King—he is a well man today. You can be cured just as easily if you are careful to ask your druggist for Ozone (the coupon kind) made by the PUBLIC DRUG CO., BRIDGEBURG, ONT.

Rapid Business Penmanship, taught by a rapid business writer, and a thoroughly COMPETENT and EXPERIENCED teacher at the Charlottetown Business College.
