

NEW SENSATIONS IN MEDICAL WORLD

Collingwood Bright's Disease Cure Brings to Light Others Equally Wonderful.

Mrs. Fred. Philip of Eglinton Tells of Her Remarkable Experience.

Discharged from Two Toronto Hospitals—Dodd's Kidney Pills Brought Back Her Health.

TORONTO, Jan. 25 (Special). The report from Collingwood of the wonderful cure of Mrs. Thomas Adam of Bright's Disease by Dodd's Kidney Pills has aroused great interest here and the discussion of it has brought out the fact that Mrs. Adams' case is not an isolated one, that right in Toronto there are people who, suffering from the most dreaded and fatal of Kidney Diseases, have found a positive and permanent cure in Dodd's Kidney Pills.

One of the most striking cases that has been brought to light is that of Mrs. Fred. Philip, now residing on Broadway ave., Eglinton, one of the northern suburbs of the city. That Mrs. Philip was suffering from Bright's Disease and was in a most dangerous state, there is not the shadow of a doubt. She was in two city hospitals Grace and the General, and left both places without a hope for the future.

In the Hospitals.

In Grace Hospital the doctors wished to operate on her but she objected, and leaving the hospital called in another doctor. He told her at once that she had Bright's Disease and had her removed to the General Hospital. The doctors here determined to operate on account of the danger.

On being discharged a second time without benefit Mrs. Philip stopped the doctors and started to take Dodd's Kidney Pills. The result is that to-day all the terrible swelling is gone, she is able to do all her own work as well as look after her bright little four-year old child.

In an interview Mrs. Philip spoke freely of her terrible trouble and gave unstinted praise to Dodd's Kidney Pills.

Mrs. Philip's Story.

"I was sick for six months," she said, "before taking Dodd's Kidney Pills. During that time I was six weeks in Grace Hospital and two months in the General Hospital. I was told in both places that nothing more could be done for me. I started taking Dodd's Kidney Pills in April and am still using them. They have done me a world of good. The Dropsy has all left me and I am now doing all my own work just the same as I was before I was sick."

The talk these cases has caused has also served to show how general the use of Dodd's Kidney Pills has become and how numerous are the cures effected of Pain in the Back, Rheumatism, Dropsy, and all the other results of diseased Kidneys. In fact, cures by Dodd's Kidney Pills can be found by the hundred but, a case in which they have failed to cure has yet to be reported.

SIR WILFRID AS A STRONG MAN

An Able Resume of Canada's Premier

Strength Masked Under the Smile and the Bow of a Courteous Gentleman is a Characteristic.

(Toronto News.)

The final retirement of Mr. Blair from Federal politics marks the closing of another incident in the series which will inevitably cause the future historian to wonder how the fable that Wilfrid Laurier was a "weak man" ever rose among his contemporaries. Both Mr. Tarte and Mr. Blair seem to have been somewhat under its deceptive influence. Although they were in a position to know better, they appear to have imagined that the courteous gentleman who was too ready to listen to their projects, and to extend a sweet toleration to their idiosyncrasies, could be made to yield to a timely display of force. The completeness of their mistake in this is now a matter of history. Force is the one thing which the strong man will not tolerate.

We have—perhaps, under the tuition of an earlier generation—come to think that strength must always leave some of its native rudeness in sight. A brusque manner, an instantly decisive speech, firmly set opinions, an impatient of the thought of others—these we have taken as the usual signs of strength. Politeness, on the other hand, has looked to us like condescension; a broad tolerance has been mistaken for indolence; and patience—that strongest of the virtues—has been translated into cowardice.

And this is where, very possibly, the busy or superficial man has gone astray with respect to Sir Wilfrid Laurier. The fiercest debate in Parliament never made him forget his natural courtesy; all and sundry who went to wait on him for this and that purpose found him unfailingly polite; condescension and a frank desire to please seemed to shine from his face. There was no danger that he would refuse to do anything without lessening the impact of the blow as much as he possibly could.

This some people took for weakness; and so the legend began. But the recent overthrow of two of the most forceful men in the Cabinet when they ventured to come squarely into collision with their singularly kind and gentle-spoken chief, will serve—among other things—to deny that legend the smallest immortality. It is hardly to be doubted that Mr. Blair, for instance, would never have taken the stand he did if he had known that it would merely result in flinging him outside of the breastworks, while the "weak" Premier went calmly ahead as if the Master of New Brunswick were not endeavoring to master a revolt. Mr. Tarte's most erratic flights were endured with a patience which more than exhausted the patience of many of the Premier's best friends; but, at the first sign of an appeal to coercion, the iron hand emerged from the velvet glove, and Mr. Tarte's Ministerial career was at an end.

Sir Wilfrid Laurier has always been thoroughly French in his ability to mask strength under the smile and the bow of a courteous gentleman. In that he has brought to our politics a distinct and a new charm. But it is not to be expected that he could carry on the Government of

the country for years without occasionally unmasking; and this necessity will make for the better understanding of his true character now, and for its better definition by the historians of the future.

WHAT CHANCE DO YOU STAND?

If you are Afflicted With Foul, Offensive, Disgusting Catarrh Your Progress Will Be Slow.

Catarrh is a terrible handicap in the business and social world. The extreme offensive nature of the disease, the foul and sickening breath, the everlasting hawking and spitting, the feid discharge at the nose, the watery eyes and catarrhal deafness all combine to make the unfortunate victim one of the most avoided and despised of mankind.

Many first-class, competent men have lost good positions on account of their unbearable presence due to catarrh. Their catarrh victim is tabooed socially and his appearance is secretly derided. What makes the matter worse is that he does not know himself how offensive he is as his sense of smell, and frequently taste, is destroyed. Leaving out of consideration the suffering, annoyance and danger of the disease, no man can afford, from a business or social standpoint, to have catarrh for one minute if he can possibly avoid it.

Stuart's Catarrh Tablets have done more to stamp out this disease than any known remedy. They strike at the root of the malady and completely expel it from the system. Catarrh is a deep seated disease and will not yield to local applications, such as sprays, ointments, inhalations, etc. Stuart's Catarrh Tablets cleanse the system and renovate it thoroughly of all impurities. Under their influence all catarrhal poisons are carried off and the blood becomes pure, the eye bright, the breath sweet, discharges cease, the head clears up, the sense of smell and taste are restored and the sufferer becomes sound and well and fit to associate with his fellow men.

Stuart's Catarrh Tablets are for sale by all druggists at 50¢ a box. The druggist, no more thinks of getting along without Stuart's Tablets than he would without his prescription case. The demand for them is so universal and their popularity is so great and they have cured so many thousand people that he would not be considered an up-to-date druggist if he did not keep them and his customers would lose confidence in him and go to some other store to buy their other drugs as well as their Stuart's Catarrh Tablets.

Whole System Rundown and Shattered. Doctors Did Not Understand the Case.

Mr. S. B. Guild, Ellershouse, N. S., writes as follows:—"I wish to express my gratitude for the great good accomplished in my case by your Paine's Celery Compound. My whole system was rundown and shattered. I was under the care of several doctors, but they did not seem to understand my case, and could do nothing for me. I commenced using your Paine's Celery Compound, and it soon made me a new man. My nervous system is completely built up, my appetite is healthy, and I feel better and stronger than ever before. Paine's Celery Compound has done these wonders for me, and I cannot thank you sufficiently."

CAVENDISH LITERARY SOCIETY.

The subject for discussion at the last meeting of the Cavendish Literary Society was "Evolution." It was ably opened by the Hon. G. W. Simpson who produced a strong array of facts and arguments which went to show that the theory of evolution as held today was the true theory of creation, both of the material universe and of the animal life that inhabits it. He was strongly supported by Walter Simpson and G. R. McNeill, the former of whom discussed the evolution of mind as well as matter, and the latter among other arguments in support of the theory said that there was nothing in the belief of evolution to make an atheist of anybody.

The leader on the other side of the question was Rev. J. G. Belyea who could not accept the evolutionary theory. He said he believed that the account of creation in Genesis was true and scientific, stated in scientific terms. The Bible was a scientific book and the Almighty had the power and likely used it in creating the coal beds by flat same as he created man. Arthur Simpson took a kind of a middle course on the question. He believed that the material universe and the lower animals were evolved through a long course of time to their present form, but that man was created by fiat in the image of God who breathed into his nostrils the breath of life. Those who believed in the Bible account of creation, being scientific received a rude shock when it was brought to their notice that it is recorded that "the evening and the morning were the first, second, and third day" but the same account says that the sun was not created till the fourth day. Query—How could we have evening and morning when there was no sun?

The audience evinced great interest in the discussion of this subject that has been occupying the attention of the philosopher, scientist and theologian during the last quarter of a century. It came out in the discussion that nearly all of our universities and most all of our modern men accepted as true the theistic theory of evolution. On the next night of meeting the Rev. Ewen McDonald will read a paper, subject not announced yet. About \$30 worth of books has been ordered for the Society this winter. They will be mostly contemporary literature.

RESTLESS AND CROSS.

When infants or young children are restless and cross or peevish it is a very certain sign that they are not well. The mother may not know just what the trouble is, but she can depend upon it the trouble exists. Give the little one Baby's Own Tablets see how promptly it will be changed into a happy, smiling, good natured child. The little one will sleep soundly and naturally and the mother will also obtain her much needed rest. Here is the proof given by Mrs. John E. Ramsay, Port Hill, P. E. I. who says:—"My baby was cross, restless and did not sleep well, but after giving him Baby's Own Tablets he became better natured, sleeps well and is growing finely. The Tablets have been a great blessing to both baby and myself."

The Tablets are a prompt and certain cure for such troubles as indigestion, sour stomach, colic, constipation, diarrhoea, slight fevers and other minor ailments. They always do good and cannot possibly harm the most delicate child. You can get the Tablets from any medicine dealer, or they will be sent by mail at 35¢ a box by writing to The Dr. Williams' Medicine Co., Brockville, Ont.

NEW LIFT AT PORT HOOD.

The work of sinking a new, or third, lift at the Port Hood colliery will begin at once. It is expected it will be far enough advanced and levels developed to be of service when shipping opens. If the coal shows as great improvement as No. 2 lift coal did over No. 1, the company will have nothing to complain of as regards quality. Development work, generally at this colliery is well advanced, "Maritime Mining Record."

TORTURING DISFIGURING

Skin, Scalp and Blood Humours

From Pimples to Scrofula From Infancy to Age

Speedily Cured by Cuticura When All Else Fails.

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalded head; the facial disfigurements, as in acne and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, letter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and so from the thickened cuticle. Dry, without rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, to cool and cleanse the blood. This complete local and constitutional treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all else fails.

Cuticura Resolvent, liquid and in the form of Chocolate Coated Pills, Cuticura Ointment and Cuticura Soap are sold throughout the world. Depot: London, 2, Chandlers House Sq., Paris, 3, Rue de la Paix, Australia, R. Towns & Co., Sydney, Boston, 17, Columbus Ave., Postal Drug & Chemical Co., Sole Proprietors. Send for "How to Cure Every Humour."
