Potato Shippers Send Telegram to Prem. Bennett

Maritime Growers Will Face Heavy Loss As Result of Cuba's Action In Extending The Duty On Importation Of Table Potatoes.

(Canadian Press) WOLFVILLE, N. S., March 15.—Prominent growers and shippers of this district, facing a heavy loss as a result of Cuba's action in extending the duty on importations of table potatoes so as to cover the entire year, affecting the bulk of potato shipments from the Maritime Provinces have sent the following telegram to Premier R. B. Bennett: "Inasmuch as Nova Scotia ships to Cuba about 80 percent of her entire crop of potatoes, New Brunswick 50 percent and Prince Edward Island 10 percent, it appears to the growers generally that the Canadian Government should protest against any change in operations in the present Cuban duty whereby the four months trade now enjoyed with Cuba would be diverted to the United States. Every possible step should be taken by the Government to have this trade to the Maritime Provinces continued, as the very existence of our potato growing industry is threatened."

FUNERAL OF LATE MR. J.P. NICHOLSON

The funeral of the late Mr. John P. Nicholson was held yesterday afternoon from the Baptist Church to Sherwood Cemetery, and was attended by a very large number of citizens including police officers, firemen, city officials and members of the Oddfellows Lodge. The regular services at the church and at the grave were conducted by Rev. A. C. Vincent. The Oddfellows service at the church was conducted by Messrs. John Hern, and George McLeod. The remains were conveyed to Sherwood by special train.

Dr. Vincent spoke from the texts Genesis 47: 9, and Genesis 48: 15, 16, referring to the contrast of the two retrospects which Jacob took of his life. In the passing of Mr. Nicholson, Charlottetown has sustained a great loss, but monuments of his work as city surveyor remain. His death is a great loss to the Baptist Church of which he was a devoted member, to the family of which he was a kind and loving father. The speaker felt that he had sustained a personal loss in the passing of a valued friend.

BENNETT PLAN DUTY FIXED ON AGED PRELATE HAS PROVIDED COAL COMING PASSES AWAY 231,351 JOBS INTO CANADA AT KENSINGTON

(Canadian Press) OTTAWA, Ont., Mar. 15.—In order to prevent dumping into Canada of bituminous coal, the value for duty purposes has been fixed by Hon. E. B. Ryckman, Minister of National Revenue, at \$1.00 per ton on slack coal and \$1.25 on run of mine. The Order-in-Council provides that these values are to apply to the point of production, and when the coal is brought into Canada from a diversion or intermediate distributing point, all charges to such intermediate point are to be added to the value for duty purposes.

Soviets To Purchase Rly. Equipment

(Canadian Press) BERLIN, March 14.—Negotiations are under way with the Soviet Government, the Tageblatt said today, for sale by the German National Railways of 500 locomotives and 10,000 cars now idle in German yards. The deal would ensure quick delivery to Russia of railway equipment, which it urgently needs and would supply employment in Germany, where the cars and locomotives would have to be altered to conform to the Russian gauge. As business improves in Germany, orders would be given to manufacturers here for replacement of the sold rolling stock.

NEW RULES ISSUED ON BROADCASTING

(Canadian Press) OTTAWA, Ont., March 14.—The chief provisions of the new rules governing the use of records in radio broadcasting issued this afternoon by Hon. Alfred Durand, Minister of Marine, follow: Use of records in broadcasts within the hours of 7.30 p. m. to midnight is limited to three and half hours per week for each station. No station may broadcast records more than one hour any night within those hours. The records must be what are known as electrical transcriptions especially prepared for broadcasting and must be produced and manufactured in Canada. No transcription shall be played more than once in any one area. During the daytime hours before 7.30 p. m. the present rule, which places no restriction on the broadcasting of records will remain in effect. Special cases of the smaller stations in centres where few orchestras are available may be given more time for records. Each will be considered on its merits by the minister. The new rules are to remain in force until the end of the year when the Minister will again review the situation.

Immense Crowds At Opening Of Trade Exhibition

Prince Of Wales And Sir George Perley Unable To Reach Long Distance Telephone Equipment Arranged To Converse With Prem. Bennett In Canada.

(Canadian Press) OTTAWA, Ont., March 14.—So immense were the crowds at the opening of the Buenos Aires Exhibition today that at two o'clock this afternoon, Ottawa time, the Prince of Wales and Sir George Perley were unable to reach the long distance telephone equipment specially arranged to converse with Premier R. B. Bennett in the east block of the Parliament Buildings. Lady Perley, wife of Canada's representative at the Exhibition, conveyed this information to the Prime Minister over the long distance telephone. The Prince of Wales had shortly before spoken in English and Spanish and the Canadian exhibit had been the first show opened. The Grenadier Guards and the Cameronians had been prominently in evidence at the grand display. J. M. MacKie, of the Hillcrest Coal Company, Montreal, speaking to Premier Bennett after Lady Perley had conversed with the Prime Minister added many of the particulars given of the exhibition in South America.

Prinice's Speech

BUENOS AIRES, March 15.—The Great British Trade Exposition was officially under way today. While the Argentine summer played its part by providing a beautiful day as a setting, the Prince of Wales yesterday delivered his "sales talk" for the British Empire in his inaugural address. He called attention to the vast display of British goods assembled in Palermo Park as proof of a spirit of revival in British industry. He reached the climax of his address with reference to the two Spanish words which make up Argentina's name for foreign trade—"intercomercio." Translated literally into English, he pointed out the words mean "commercial interchange."

CANADA TAKES LEADING PART

BUENOS AIRES, March 14.—Canada takes a leading part in the British Empire's great bid for South American trade symbolized in the British Empire Trade Exhibition which was formally inaugurated by H. R. H. the Prince of Wales today at 1 o'clock eastern standard time. Exhibits on display have come from every part of the Empire. The large Canadian goodwill and trade mission which sailed from Halifax on Feb. 21 held an important place in the historic proceedings. The party including representatives of practically every branch of Canadian industry and production accompanied by Sir George Perley as official representative of the Canadian Government, descended upon Buenos Aires yesterday and are prepared to make the most of the present opportunities. The Canadian pavilion one of the best equipped in the whole giant exhibition, is the focal point of Canadian interest in achievement of which Canadians at home might well be proud. Under the direction of J. O. Turcotte, permanent Canadian Exhibition Commissioner at London, the pavilion has been turned into one of the most striking features of the Exhibition. An enormous Maple Leaf on the front walls, paintings of Canadian scenes valued at \$50,000 and special moving pictures, distinguish the pavilion from the rest of the buildings. In it has been established in harmonious settings a complete display of the wide range of products the Dominion offers. The Canadian Railways are also represented here instead of in the general railway building. The large party of Canadians have organized themselves into many specialized committees and will leave no stone unturned to ensure concrete and lasting benefits from the impressive gesture of the Exhibition.

President Uriburu, responding to the Prince's speech, recalled the "friendly and gentlemanly cooperation" of the last century, during which British enterprise and capital had joined to develop Argentina's resources. The relations of the two countries, he said, would never be forgotten.

(Special to the Guardian) OTTAWA, Ont., Mar. 14.—At the government caucus today it was stated the present intention was to have an Easter adjournment from Thursday, April 2, to Monday, April 13.
