Owing to the following having appeared somewhat mixed yesterday morning it is repeated correctly this morning. Mr. Vinnicombe left Tuesday evening and not Monday as he at first intended. Arthur Vinnicombe, son of Prof. Vinnicombe, City, left Tuesday night for Ottawa, where he has secured a position as assistant in the office of the International Harvester Company. Arthur, previous to this had been working with A. Horne & Co., as assistant book-keeper, (in fact his first lesson in penmanship was given at their desk) and that firm is very sorry to lose his services but what is A. Horne & Co's loss is the International Harvest Company's gain The members of the firm presented him with a substantial check Tuesday evening and his fellow employees with an address and an engraved charm which shows the esteem in which he is held.

A very pretty home wedding took place last evening at the home of Douglas and Mrs. McEwen, 280 Grafton street, City, when their daughter Gertie became the happy bride of James Caldwell Wood, of Alexandra Lot 49. The drawing room was very tastefully decorated for the occasion, with holly and evergreen in profusion. At the hour of 6 o'clock as Miss Hazel McEwen, cousin of the bride, played the wedding march, the bridal party took their place under a beautiful arch, where the ceremony was performed. Rev. Geo. E. Ross, pastor of Zion Church officiated. The bride was given away by her father, and looked most charming in her beautiful gown of cream cashmere, with satin trimmings and orange blossoms. Miss Winnifred Sinclair of Summerfield was a very graceful attendant, and looked lovely in her pretty gown of white organdie with blue trimmings. The groom was ably supported by Lester Douglas. After the ceremony, hearty congratulations were given to the happy couple by the immediate relatives who were present as guests. A sumptuous repast then followed, which was partaken of by all. It was truly a feast of good things. The bride was the recipient of a large number of useful and costly gifts, among which were those of Messrs Paton and company and the employees of that firm. Mr; and Mrs. Wood will reside at the groom's home at Alexandra, where happiness and prosperity abound. Good wishes as many as the snow flakes, accompany them from a host of friends.

Photographs of beautiful children from all the leading Canadian studios, were sent in and it may be mentioned in connection with this event that Master Morris was photographed at the studio of Geo. H. Cook well named, The Studio Where Baby is Always welcome. Prince Edward Island again to the front.

A quiet wedding took place recently at the home of Mrs. (Capt.) James Irving, aunt of the bride, China Point, when Mrs. Flora Ferguson McDonald (Donaldson) was united in marriage to Robert McRae of Pownal Rev. D. R. Chowen, B. A., performed the ceremony amid only the immediate relatives of the bride. Mrs. McRae was a widow from Glasgow, Scotland, with a beautiful voice and her fame as a singer is not unknown in this Province, which she has toured considerable under her maiden name of Miss Flora Donaldson. The Guardian joins in wishing Mr. and Mrs. McRae a happy journey through life.

The community was surprised yesterday to hear of the death of Mrs. Richard Heartz at four thirty p.m. at her late residence on Great George Street. Her husband pre-deceased her but a short six months since. This estimable lady on Monday received her friends and was apparently in her usual health and has somewhat suddenly passed over to the great majority. Born on Prince Edward Island of good old country stock, she possessed those qualities of head and heart which mean much,—a true helpmate to her husband—generous to the poor and open handed to every good work. Her children rose up to call her blessed and her life and examples in the Church and city must tell to advantage. She leaves two daughters, Mrs. W. W. Perkins and Mrs. Dr. Taylor and one son, Rev Dr. Heartz, who arrived from Amherst but a few hours before her demise, summoned by telegraph. The funeral will take place on Friday at two thirty p.m.

An immense crowd turned out again last night to the Unique Theatre, to see the big vaudeville show, Knight and Seaton, and their Roller skating dance, also, their eccentric comedy turn, created a big impression, and they had to respond to a number of encores. Tonight is the last night of the roller skating dance. George Banks, the singing and dancing comedian added a number of friends to the large number he had already made in his refined specialty. His coon songs and funny stories kept the audience in roars of laughter, and his dancing, which is acknowledged the neatest ever seen here, was highly appreciated by the large audience present. Tonight Mr. Banks changes his entire specialty, using new songs and new jokes also introducing his famous waltz clog, which is considered of the most Artistic feature in step dancing, combined with the interesting pictures. This is an immense show at the Unique for ten cents.

The highest temperature registered Tuesday night was nineteen degrees above zero. Yesterday the highest temperature registered was thirteen degrees above zero, and the coldest was nine degrees above up till nine o'clock last night.

William and Mrs. Chandler, City, celebrated their golden wedding anniversary yesterday in the midst of their children, relatives and friends. The surviving children include Mrs. Fred H. Sellar, Charlottetown, Mrs. John R. Copp, St. John, George Chandler of the P. E. I. R. staff in this city, and Frederick Chandler of Salt Lake City. Those who have gone before are William who died in Denver several years ago and Gertrude, wife of George M. Moore. Mr. and Mrs. Chandler have passed useful lives. For a number of years Mr. Chandler was connected with the Admiralty survey under Admiral Bayfield. But the greater part of his life was spent as the esteemed official of the Charlottetown Steam Navigation Company. For several years he has lived in retirement. The Guardian wishes Mr. and Mrs. Chandler many more happy years of married life.

Judge J. G. Bennett will give a talk on the good qualities of poultry, taking live birds for illustration at the Poultry Show this evening. Everyone should hear this talk as it will be most practical and useful.

The Scottish Trio at New Wonderland, last night made without exception, the hit of the season. As a refined dainty act it is without parallel in this City. As an example of the national costume which appeals to everyone, it is perfect, and as an entertainment it is both rare and unique. Mr. Brown's dancing on a marble slab is simply marvellous rythm and ease, and as for the charming highland lass Miss Wilmot she is petite, gracious and a glowing touch of beauty, in an altogether unexceptional performance. Mr. Allison, as the completion of the trio, is heard to great advantage, and the closing patriotic song, The Grand Old Flag, fairly brought down the house. The pictures were splendid steady, clear and fine subjects, and altogether the management is to be congratulated on its success in providing the best entertainment seen in the city.

W. A. Hutcheson of this City and H. J. Mabon of Souris have entered the P. E. I. hospital for treatment.

The adjourned meeting of the Charlottetown Board of Trade, will be held this afternoon in their rooms, Market Building, at four o'clock. As this meeting is called expressly to deal with important matters with the Federal Government and to strengthen the hands of the representatives in presenting them, there should be a very large and interesting meeting.

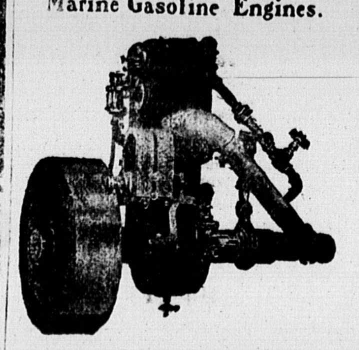
Marine Gasoline Engines.


For the past six years we have been endeavoring to get a thorough knowledge of the severe conditions under which a fisherman often finds himself placed on the exposed coast waters of the Maritime Provinces, to consider the requirements of their business, what style of engine will best meet all demands put upon it and still not take up too much room or interfere with the handling of sails, traps, etc., in boats. The engine which we are now offering is the result of these years of study and is for all practical purposes far ahead of anything yet sold in these Provinces. Our marine engines require little space, no delicate pieces to get in the way of swinging booms or sails; they are entirely free from mechanical complications that require mechanical training or special engineering skill to operate. Our chief aim has been to secure a durable and simple engine, one that would withstand the severest test of constant usage, and we believe that our efforts in this regard have been entirely successful, and we now have a perfect engine to offer to the fishermen of the Maritime Provinces.
We will be pleased to send catalogues and further particulars on request.
