75 p. c. Of Estates Left in Care Of Private Executors Is Lost

No loss has ever occurred to the funds of estates in the care of Trust Companies, which keep the funds of estates separate, from those belonging to the Company.

This method is followed by the Dominion Trust Company.

This means that estates left by Will or otherwise in the care of this Company are safe.

If left to the care of the private executor and trustee they are not always safe.

Call in and let us tell you more about it.

MOUNT ALLISON WIMS.—In the first game of collegiate football at Sackville, Friday afternoon, Mount Allison blanked King's college, 21-0. The visitors had the heavier team, but the Mount Allison had the better of the game all the way thru, the play being almost wholly in King's territory. The forward line of the visiting team was particularly good at first, but weakened toward the end of the game. Their kicking for touch was, however, a pleasing feature of the game all the way thru. Appleby, a half-line man of last year's Wanderers' team played for Mount Allison, and showed up well. Eaton, of Canada, is also a new Mount Allison boy and a promising half-line man. Dalhousie will meet the Mount Allison boys here next Tuesday.

SAVED THE JAR.—Some consternation was caused on Fitzroy street yesterday afternoon when a horse attached to a single buggy, in which were a number of young men raised some objection, either to his company or to the object of the proposed journey. The animal proceeded to take his own way and he appeared to be in a hurry about it. He headed for Government House, but the young men, thinking that he intended to call at Government Pond, decided to accompany him. They jumped out one by one, the last one to jump, being the driver, who in parting company with the carriage somehow managed to entangle the reins in the wheels. This brought the horse around with a jolt, knocking him down and mixing things up, but doing no damage, excepting the breaking off of the handle of what appeared to be a molasses jar, which was in the rear of the buggy. When the horse was set on his feet, a process which was accomplished with some difficulty, the young men expressed their gratification by passing the molasses jar around. This done they again started on their way, the horse still protesting and showing his disgust in several ways which augured ill for the success of the expedition! At latest accounts this morning the party had not returned.

Baltimore, Md., Nov. 11, 1913. Minard's Liniment Co., Limited, Sirs.—I came across a bottle of your MINARD'S LINIMENT in the hands of one of the students at the University of Maryland, and he being so kind as to let me use it for a very bad sprain, which I obtained in training for foot races, and to say that it helped me would be putting it very mildly, and I therefore ask if you would let me know of one of your agents that is closest to Baltimore so that I may obtain some of it. Thanking you in advance I remain,

Yours truly, W. C. McQUEEN, 14 St. Paul street, Care Oliver Typewriter Co. P.S.—Kindly answer at once.

C. P. R. AGENT AT VIENNA IS ARRESTED.

LONDON, October 17.—A Vienna correspondent of the Daily News states that a sensation was caused there yesterday by the arrest of the local manager of the Canadian Pacific railway and three employees of the company on the charge of complicity in the violation of the emigration laws by inducing and assisting prospective Austrian soldiers and reservists to emigrate to Canada.

It is asserted that the judicial inquiry against an ex-agent of the company in Lemberg, who is charged with giving persons liable to military service tickets, led to the arrest of Samuel Altmann, the local manager, which was preceded by police raids on the Vienna offices of the company on hearing of his illegal doings, which clearly shows that Mr. Altmann is not responsible. The action of the police is attributed by some to the violent campaign of German shipping companies, against the Canadian Pacific, which last year broke up the Atlantic pool and obtained a concession for a line from Trieste to Canada.

How to Enter

This contest is open to any person residing in the Maritime Provinces and to all others who may be within reasonable reach of the Standard office by mail.

A payment on subscriptions to the Standard, Daily or Semi Weekly, of from \$1.00 to \$6.00, entitles the contestant to submit a solution of the puzzle. The amount of money paid in will cover the subscription price for the paper according to the regular rate whether the rate be for city delivery or by mail.

As many different solutions may be submitted as the contestant desires, upon making an additional payment with each one, but not more than \$6.00 can be paid with any one solution. It is not necessary to pay the same amount with each solution if more than one be submitted.

As the prizes have an added value according to what is paid in on subscription with the winning solutions contestants should familiarize themselves with the dividend schedule before sending in their subscriptions and their solutions.

Remit by check, money order or registered letter. Whatever is paid, whether on the one or on a number of solutions will apply on one continuous subscription to The Standard. Solutions not accompanied by cash subscriptions will not be registered. This contest is open to both old and new subscribers.

The Puzzle

The problem is to ascertain the total of the figures in the puzzle chart. Just add them up as if they were in one long column under each other. The figures run from 2 to 9. THERE ARE NO DOUBLE FIGURES and no characters which are not figures. The tail of the '8's is a decided curve, while the tail of the '9's is straight. All the other figures have their usual characteristics. So there is no intent to allow any question to arise over the identity of a figure. In the event that no one ascertains the exact total, the prizes will be awarded for the nearest correct solutions.
