Quarterly Meeting Of Caledonian Club Last Night

The quarterly meeting of the Caledonian Club was held last evening in the Board of Trade Rooms. There was a good attendance of members and several matters of interest to the club were brought before the meeting. Clansman W. R. Shaw occupied the chair. The minutes of the last regular meeting were read and adopted. After payment of bills and the usual routine of business disposed of, the Games Committee presented a full report and financial statement of the annual gathering held at Kinross on July 11. Many complimentary remarks were made by the members present on the success of the gathering, special mention being made with reference to the excellent tables provided by the ladies of that district. James Paton informed the club that he had lately received a letter from Miss Flora Donaldson of Paisley, Scotland, in which she made special reference to the kind expressions of sympathy sent to her after the death of her father, Mr. Samuel Donaldson.

Several other matters of special importance to the club were discussed and several resolutions were passed and endorsed to be engrossed in the minutes of this meeting.

Textile Group Leads Decline

(C. P. By Guardian's Special Wire)
 MONTEAL, July 29.—Weakness in the textile group, where several issues touched new lows for the year, dragged other stocks lower during today's session of the Montreal Stock Exchange.
 In appearance the tone of the market was one of irregularity but losses ranged as high as two points while advances were confined to fractions.
 Volume held at moderate proportions, with interest continued to be manifest in selected issues, and demand remained almost exclusively of an investment nature.
 Observers advanced several reasons for the heaviness in the textile group, one of which was that forthcoming financial statements of the various companies would not furnish a very bright outlook.
 Others stated reports that English textile producers were attempting to obtain preferences through the Ottawa trade agreements had a depressing effect on securities in that department.
 Another of the outstanding soft spots was Canadian Dredge which also slipped down to a new 1935 low. The issue dropped a point to 2. Goodyear Tire preferred moved to the other extreme and mounted 1½ points to a new high of 54.
 In the power department International Power preferred made one of its infrequent appearances and rose a point to 41.
 Dominion Steel and Coal "B" at 43, Dominion Coal preferred at 17½, and a few others held unchanged at previous closing levels.
 Total sales were 9,760 shares; bonds \$5,950.

Denial Of Stevens Charge
 (C.P. By Guardian's Special Wire)
 (OSHAWA, Ont., July 29)—General Motors of Canada today issued a statement describing as "entirely incorrect and in no way based on facts," a portion of a speech delivered by Hon. H. H. Stevens in Winnipeg Saturday night in which the Reconstruction Party leader had had information that after a man became 45 years old such firms as General Motors and the Ford Motor Company had little use for him in their factories.
 Mr. Stevens said a plant manager told him that "at 45 they must go; we're through with them."
 "We have approximately 1,000 workmen on the payroll today who are over 45 years of age," added the General Motors statement. "Some of whom have been with us as long as 35 to 40 years. Our practice in taking on new employees—and of course recently there have not been many taken on because we have been absorbing our former employees—is quite naturally to engage younger men who have not given the best part of their lives to other work. This of course is a commonsense and justifiable practice. It is regrettable that statements of this kind should be broadcast when we are absolutely innocent of such practices as have been attributed to us."

Determined Attitude
 ROME, July 29.—The instructions six Italian experts carried with them when they departed today for the League of Nations Council meeting at Geneva, were summed up in well informed circles in four words: "Don't let Italy down."
 In the same circles this was interpreted to mean that Baron Pompeo Aloisi, seventh member of the delegation and its head, will oppose determinedly an effort by anyone to inject a general examination of the Italo-Ethiopian dispute into the council agenda. The whole weight of the Italian delegation, the spokesmen said, will be thrown behind the Italian insistence that there is only one question before that body, that of resolving the activities of the arbitration commission, which broke down previously.

PARIS, July 29—At the Palace of the Elysee tomorrow the French cabinet meets finally to determine its attitude before the fateful session of the Council of the League of Nations on the menace of war in East Africa.
 Premier Pierre Laval goes to Geneva in the role of conciliator. Despite the moving of troops and ever-increasing preparations for battle, France feels that all is not lost. She sees in Italy's consent to attend the special council of the League some result for her efforts. The policy of the Laval Government is to avoid anything which might lead to a rupture and never to despair.

Profits Went To Insiders Is Disclosed

(A.P. By Guardian's Special Wire)
 WASHINGTON, July 29.—Profits of \$2,800,000 to insiders of the Associated Gas and Electric Company while stock holders received little or nothing were disclosed today by the United States Senate lobby committee.

This testimony was drawn as the committee headed into an investigation of the company's \$700,000 fight against the administration public utility bill and received an account of futile efforts to locate Howard C. Hopson, important to the case, and place him upon a G. E. figure and place him upon a G. E. witness stand. Hopson's private companies were reported to have taken the large profits.

Evidence of profits received by Hopson and his close associates through privately owned companies performing services for A. G. E.'s subsidiaries was given by S. C. Ross, former counsel for the New York joint legislative committee for the investigation of public utilities.

"Living On Velvet" Gives Fine Role To Kay Francis At Capitol

"Living On Velvet," the first National production which opened at the Capitol Theatre yesterday for the first time locally, is a smashing drama with an unique twist on the eternal love triangle.
 An unusual angle in the romance lies in the fact that two men, friends, each tries to give up the girl they both love, in order that the other may be happy with her.
 Kay Francis, in the stellar role, gives one of the finest characterizations of her career as the beautiful society girl torn between her affection for one man and her mad infatuation for the other.
 Miss Francis is always beautiful and stunning on the screen, but her part in this picture calls for exceptional talent in dramatic and emotional acting. She portrays her role with such intense feeling and sincerity that she won the complete sympathy of the audiences.
 The star has two leading men in the production, Warren William and George Brent, the former a veritable Gibraltar of stability, and the other a likable, though daredevil aviator who has lost all sense of proportions through a terrific airplane crash in which everyone is killed except himself.
 Brent does an unusually fine piece of work as the reckless, daredevil pilot, who seems to think of no one but himself, and Warren William is excellent as the more stable lover.
 Helen Lowell and Henry O'Neill, both veterans of the stage, deserve special mention for their characterizations. Others in the cast who do fine work include Russell Hicks, Maude Turner Gordon, Samuel Hinds, Kenneth Merrill and Edgar Kennedy.
