PAYING THROUGH NOSE

In ancient Egypt tax collectors had their noses cut off and were exiled for extorting from the poor.

YOUR SECURITY and YOUR STABILITY ARE AT STAKE!

You Can Defeat Your Biggest Tax Problem . . .

That is the 8% sales tax. The one the budget missed. The one that hits you hardest. This quotation

"; ; ; This tax costs the Canadian taxpayers 30 cents for every dollar of processed material"

from a Liberal member of Parliament shows what the government is doing to keep taxes high ; ; ; despite the "bribery" reductions in the budget.

So that you may have a sure, adequate income, the Progressive Conservative Party will

- Reduce sales taxes.
- Provide deductions to farmers for members of family who contribute to revenue.
- Reduce income tax rates and increase exemptions.
- End the administrative persecution of farmers by tax collectors.

For *your* protection the Progressive Conservative Party will take these steps:

PRICES

—Permanent floor price legislation based on these principles:

- A definite formula in the Farm Prices Support Act for arriving at floor prices.
- The formula will allow for variations in production and demand for individual products.
- Floor prices will be announced well in advance of production period.
- The floor price formula will be arrived at in consultation with representatives of producers.

EXPORT MARKETS

Restoration of the Canadian Wheat Board to serve its original purpose as a Marketing Agency for wheat producers ; ; ; and its extension to include the handling of coarse grains.

Inclusion of representatives of farmer's organizations on all Boards dealing with farm matters.

Aggressive and immediate action to recapture lost markets; the development of new markets; to achieve security of export markets through foresighted negotiations.

Dominion marketing legislation based on the principle of democratic producer control.

PRODUCTION

Reclamation and conservation of existing soil resources; development of new producing lands through irrigation; greater accessibility to domestic markets by improved transportation facilities.
