

VICE-REGAL PARTY GREETED AT OTTAWA

Thousands Of Citizens Turn Out In Enthusiastic Welcome To Their Excellencies.

(C.P. By Guardian's Special Wire) OTTAWA, Nov. 4.—Canada's capital today extended its warmest greeting to Lord Tweedsmuir, the new Governor General.

The station was lavishly decorated. A red carpet had been unrolled from a platform against which the Vice-Regal train would be backed, through the inner and into the outer concourse.

There on a dais His Excellency received the official greetings of the city. Fotted plants, palms and other floral adornments, and streamers fluttering from the walls and roof, enriched the scheme.

Some minutes before three o'clock, Prime Minister King arrived with two of his secretaries. Sharp at three o'clock the train bearing Lord and Lady Tweedsmuir backed slowly into the station.

The Governor General stood with bare head until the last strains died away, then, accompanied by one aide and the commander of the guard, he made a tour of inspection. Meanwhile Lady Tweedsmuir, Hon. Alastair Buchan, their Excellencies' youngest son, A. S. Redfern, the secretary, Colonel Eric MacKenzie, comptroller of the household, and all other members of the Vice-Regal staff descended to the platform.

Presentations then followed, precedence being given to members of the Dominion cabinet. Practically all of the ministers were present. Members of the diplomatic corps, the foreign consular services, the judiciary, dignitaries of the church, officers of the militia, navy and air force, deputy minister and ranking civil servants passed slowly before their Excellencies.

Two former prime ministers were present, Sir Robert Borden and Rt. Hon. R. B. Bennett.

Eminent Educationist Visits Canada

MONCTON, N. B. Oct. 4.—One of the bright spots of the present Italo-Abyssinian controversy, insofar as the Empire is concerned, is the manner, in which all members have rallied around the lead given by the Mother Country.

The anniversary proceedings will be attended by trustees of the various trusts founded by the great industrialist and representative of the whole, more attentive and expressive of greater interest and seemed to show a more serious demeanor than student bodies in the old country.

Asked with regard to the use of radio in educational work, Sir James declared he did not look for any great change in its effects on university life as it lacked the direct personal contact between teacher and student.

Britain, he stated, has recovered to a great extent her leadership in the scientific world which before the war had passed to Germany.

Mr. Massey made known his plans for his departure tonight. He had just returned from attending the official swearing in ceremony of the new Governor-General, Lord Tweedsmuir, at Quebec.

That impression prevailed in League of Nations circles at a drafting committee handled with caution a Canadian project to add coal, oil, iron and steel to the "key products" which loyal League members may not export to Italy. Dr. Walker Riddell, Chief Canadian delegate, was named head of a sub-committee to study the project. Observers said the "concessions" which Italians avowedly offered to Sir Samuel Hoare, the British Foreign Secretary, on Saturday apparently were not deemed worthy of the consideration of either Great Britain or France.

Paris, Nov. 4.—(CP)—Eugene Corbin, inventor of the system of camouflage used in the War, has finally received recognition from the French government for his work. In August, 1934, Corbin, now 65 years old and the wealthy director of a big department store chain, was mobilized as a non-commissioned officer. Three days after he reached the front the idea of putting war materials in "disguise" came to him.

Fascist Students Renew Demonstrations After Militant Speech By Mussolini.

By JOHN EVANS Associated Press Foreign Staff (A.P. by Guardian's Special Wire) ROME, Nov. 4.—(A.P.)—Angry Fascist students demonstrated in Rome and Milan against Great Britain today after their leader, Benito Mussolini, promised the nation another "victory."

The P. E. I. Ministerial Association met in St. Paul's Hall, Charlottetown, on the 4th inst. Rev. G. A. Christie, President, presided and conducted devotional exercises, assisted by Rev. H. D. Raymond.

The President reported on his visit to the Ministerial Association, Halifax, and the message of Dr. George Pidgeon, Toronto, respecting the coordination of the Evangelical forces of the Dominion.

Matters pertaining to the Lord's Day observance and temperance, were taken into serious consideration, and it was found that infractions of the law were lightly passed over by those in authority.

The following Resolution was unanimously passed: "Resolved that this Ministerial Association express their high appreciation of the regular attendance, and fine helpfulness and brotherliness of Dr. A. C. Vincent in his meetings, and also his readiness to promote every good cause, and fearlessly denounce what he considered detrimental to the community."

PREMIER KING WILL VISIT WASHINGTON

Sets November 27 As Date For Dominion And Provincial Conference.

(C.P. by Guardian's Special Wire) OTTAWA, Nov. 4. (C. P.)—Prime Minister Mackenzie King will be guest of President Franklin Roosevelt at the White House in Washington Friday next, in the course of a vacation trip to southern United States. Mr. King made the announcement at a press conference tonight. He will arrive at the Canadian legation in Washington Thursday, go to the White House Friday and spend the night there, returning to the legation Saturday. He will probably be absent from Ottawa about a fortnight.

Hon. Ernest Lapointe, Minister of Justice, will be acting Prime Minister during the time Mr. King is away on his holiday.

Other announcements of the Prime Minister tonight included the date of the Dominion-Provincial Conference which will be Nov. 27, his desire to secure John W. Diefenbaker, President and Editor of the Winnipeg Free Press as Canadian Minister to Washington, and his request to Hon. G. Howard Ferguson, former Canadian High Commissioner in London to represent Canada at the Armistice Day ceremonies at the Cenotaph in White Hall.

Mr. King in the course of the interview intimated that he proposed to announce shortly the personnel of the national commission on unemployment, and that unless some unforeseen necessity arose Parliament would not be called until "early in the new year."

The announcements were followed long after the ceremony of welcoming the new Governor General to Ottawa had been completed. Hon. James G. Gardiner, former Premier of Saskatchewan, went to Rideau Hall immediately after Lord and Lady Tweedsmuir had arrived at the Vice-Regal residence, and was sworn in as Minister of Agriculture. He attended the cabinet meeting.

An order-in-council was passed this afternoon referring to the Supreme Court of Canada legislation passed at the last session of Parliament arising from the report of the Royal Commission on Price Spreads and Mass Buying, the Marketing Act, the Employment and Social Insurance Act, and three measures dealing with hours of labor and wages. Dominion government counsel will be named and it was possible, Mr. King said, the provinces would also be heard.

In answer to a question as to the future of relief camps Mr. King said announcement would be made shortly transferring the camps from the jurisdiction of the Department of National Defence to that of Labor.

ST. ANTON-ON-THE-ARLBERG, Austria, Nov. 4.—According to reliable information confirmed here, negotiations have been made for the members of the American women's Olympic ski team, who are scheduled to arrive at St. Anton, in the high Arlberg, in mid-December. Their final training for the February events at Garmisch will be under the direct personal supervision of Hans Schneider, head of the Arlberg School, and the most distinguished ski instructor in the world.

Schneider Former Champion Herr Schneider, who personally examines all Austrian ski instructors and is the author of the Arlberg technique, which has revolutionized skiing theory and practice, is himself a former Olympic ski champion.

When interviewed by this correspondent today he admitted that the American runners and jumpers would face very stiff competition at the Winter Olympics at Garmisch, but added that because of the natural aptitude of the Americans for fast down-hill racing, he expected them to come through the events creditably. He looks upon the choice of St. Anton as their training ground as singularly fortunate, not only because of the superlative instruction available there, but also because the attitude makes ideal snow conditions possible even in early December. Located almost upon the crest of the great Alpine divide, the Austrian resort has long been considered by serious skiers as possessing the finest terrain in Europe.

The broken nature of the range itself, the absence of heavy forests, the bus service to St. Christoph, the historic hospice, now still situated at the top of the pass itself, the jumps and innumerable runs all combine to render it an excellent retreat both for the Olympic participants and for the less serious sportsmen who are expected to flock to the Austrian resorts this winter. Snow conditions are expected to be singularly good, since there has already been a fairly heavy fall of snow on the central ranges of the Hohe Tauern and upon the Wilder Kaiser. More storms are expected momentarily.
