

Follow Shackleton

Follow Shackleton's example. He is taking Bovril to the Antarctic because his men must get every ounce of nourishment out of their food. You, too, can be sure of being nourished if you take Bovril.

In a single bottle of Bovril is packed away the nourishing value of many pounds of beef, and in addition Bovril has the peculiar property of making other foods more nourishing. Even a plain meal yields much more strength and nourishment if you are taking Bovril. Shackleton's lead is a good lead—remember his words:—

It—must—be BOVRIL

USELESS TO TRY.

Needing some ribbon one day, while in a very small Southern town, we went to the one store there. "Ribbon" questioned the storekeeper. "We all just mistook our stock of Ribbons, but if you'll come back later I'll see if I can find them." So back they went later. He had found them. "What color did you all want?"

"Blue," we replied. "Oh, blue!" he exclaimed in disgust. "We haven't got any blue. Blue is so popular we don't even try to keep it."

A MODERN MYTH.

Teacher—Jonny, name some mythical creature. Jonny—The goat that we're always afraid someone will get.

A committee of five was appointed to further the movement and to report at a meeting to be called by the chairman of that committee. A requisition signed by sixty of the citizens asking for a Home Guard was presented at the meeting. This is certainly a good move and it is to be hoped that every citizen will assist the movement who can possibly do so.—X.

—FIRE ALARM.—What might have been a serious fire was pluckily averted on Wednesday by the presence of mind of Mr. J. Henry Gallant, Street Commissioner of Summerside. Mr. Gallant, on going down Second street, noticed a blaze of fire coming through the roof of a residence. Although the wind was blowing a gale, Mr. Gallant seized a ladder and mounted the roof, and with a few pals of water which were passed up to him, he soon extinguished the flame. This action deserves much praise, as no doubt, had the Fire Brigade turned out much more damage from water would have resulted.—H.

LATEST FROM THEATRES

THE PICTURE "WHAT MADE DISTRICT ATTORNEY WHITMAN GOVERNOR OF NEW YORK AT THE NATIONAL THEATRE."

"Smashing the Vice Trust," the wonderful motion picture play in six parts and seven hundred scenes that made District Attorney Whitman Governor of New York State, will be exhibited for the first time in Boston at the National Theatre, Tremont and Berkeley streets, beginning Monday afternoon, November 16th, and twice daily thereafter at 2.30 and 8.30 p.m. "Smashing the Vice Trust" is based upon the startling revelations of the White Slave Ring unearthed by District Attorney Whitman during his great crusade against the heads of the racket system, which resulted in the arrest and imprisonment of the heads in connection with this great fight against the Vice Trust more than anything else, that made the Governor Elect of New York State. While "Smashing the Vice Trust" is founded on fact, and Governor-Elect Whitman appears in two of the reels, showing him at the head of his crusade, the result in their downfall, the play has a delightful love story and is full of real heart interest. A country girl comes to New York, falls into the clutches of the White Slavers, and through the work of her fiancé, assisted by Mr. Whitman, she is rescued and the conspirators are punished. Everyone of the 700 scenes is full of action. "Smashing the Vice Trust" has the unqualified endorsement of such social workers as Dr. Charles H. Parkhurst, Mrs. O. H. P. Belmont; Dr. Anna Shaw; and many others. The prices for "Smashing the Vice Trust" will be 10, 15, and 25 cents. The National has 3,500 seats, and there are over 1,000 good orchestra seats for 25 cents.

If You Want Results Purchase Printing With a "PUNCH" to it---

Every piece of printing that bears your name is either a good or a bad piece of advertising. There is no such thing in the printing art as a profitable piece of commonplace printing---there is no safe intermediary course.

Don't overlook the fact that your business and yourself are judged by your printing—good or bad. You cannot afford to permit your printing to be a laughing, talking advertisement of your lack of appreciation for the most essential elements to commercial success.

Your printing to be profitable must have character—individuality—must have a "Punch and Snap" to it. If it does not "Stand out" it will be buried in the oblivion of the commonplace.

For five years I have planned systematically—labored methodically with but one object: To eventually have the most up-to-date printing and book-binding plant in Prince Edward Island. I have equipped my plant with labor-saving machinery—with "Type material that talk"—with presses and ruling machines that do the work in a credible manner—with punching and wire stitching machines—and, last but not least, I am now installing a modern style embossing press.

I am in a position to do the highest class of printing, book-binding, and loose-leaf work—at a price that will compare favorably with any printing house in Canada. I charge an honest price—I pay an honest wage to my employees—the more work I get, the more local help I can employ, and with my present facilities, I can handle an almost unlimited quantity of work.

Better call, write, or phone me regarding that job—it will pay you.
