Montreal Exchange

MONTREAL, May 7—(CP)—Scattered favorites had their ups and downs on the stock market today and the trend was down.

Quebec utilities were weaker, Shawinigan and Quebec Power losing fractions, while Montreal Power managed to get back a loss only in final-hour trading.

Two new lows were registered, St. Lawrence Corporation common and National Breweries. Oils were irregular, Imperial continuing the upward move begun yesterday and International Petroleum sinking back. In mines, Bulolo was improved but International Nickel sagged.

Weaker stocks in other groups were Crown Cork, which lost 1 1-2 points, Canadian Bronze, Dosco "B", General Steel Wares and Canadian Celanese preferred. Firmer issues were Canadian Car preferred and Ogilvie.

Total sales: 14.100 shares; Industrials, 9,300; Mines, 4,800; Bonds, $1,000.

Toronto Exchange

TORONTO, May 7—(CP)—Mining stocks closed down and the industrial and western oil groups held minor gains at the close of today's Toronto exchange session. Turnover of 162,000 shares was the heaviest in four weeks.

Lake Shore and Dome firmed 1-4 to 1-2 and gains of a few cents were netted by MacLeod-Cockshutt, McKenzie, San Antonio, Uchi and Upper Canada.

Losses of a point or more appeared also for A.P. Grain pfd, Imperial Bank and Riverside Silk and recessions of minor fractions were netted by Canada Steamships pfd, Dominion Steel B, Fanny Farmer, Union Gas and the United Fuel issue. Beverages were stronger with Canada Malting, Industrial Alcohol and Walkers common posting gains.

FINANCE

By Bernard S. O'Hara
Associated Press Financial Writer

NEW YORK, May 7—(AP)—Traders took profits in today's stock market, stalling the all-around rise which appeared to be getting under way in the previous session.

Canadian issues were generally easy, Bell Telephone leading the losers with a one point decline. Distillers Seagram lost 3-8, Dome 1-8, International Nickel 3-8, and Hollinger 1-8.

The Associated Press average of 60 selected stocks slipped .1 of a point at 39.9. The turnover was 558,560 shares compared with 97,940 yesterday.

Among the shares which carried minus signs at the last were U.S Steel, Youngstown, Chrysler, Phelps Dodge, Ownes-Illinois, Texas Corp, Great Northern pfd, Pacific Gas and North American, the last two reached 1941 lows. Included among advances were Bethlehem, Air Reduction, Cerro de Pasco, Montgomery Ward and U.S. Rubber.

Grain

CHICAGO, May 7—(AP)—Wheat futures soared more than two cents a bushel today. The upturn was held in check by profit taking.

Corn advanced fractionally to above 70 cents, highest since 1937, while soybean and lard futures at one time were at new peaks for the past several years.

Wheat closed 1 1-8—2 1-8 higher than yesterday, May 98 1-4—3-8, July 96 1-8—1-4; corn 5-8—1 higher, May 70 1-2, July 70 1-2—5-8; oats unchanged to 3-8 up.

WINNIPEG, May 7—(CP)—Good buying by mills and exports lifted May wheat off its price today on Winnipeg grain exchange for the first time since April 14. The nearby month failed to hold its gain of 1-8 cent over the minimum of 75 7-8 cents a bushel but the flurry was welcomed by traders.

Buenos Aires quotations were 1-8 cent down at the half way mark.

Robot Lighting Plant

Port Macquarie, a small seaside town in South Wales, is to be lighted by an electrical generating plant which runs itself.

It is a new British 6 cylinder 240 h. p. engine, two models of which will supply the town's electric powers.

Port Macquarie asked that the plant should be capable of functioning unattended and the necessary mechanism was duly devised. If there is a rise in the temperature of the engines' lubricating oil, the absentee attendant will hear an alarm.

So, if there is any failure of the water cooling system, or overloading, or overspeed; failure of oil pressure, or too rapid drop in the temperature of the water of the cooling system, forth will blare the warning signal.

And if nobody hears the warning the engines will stop work within five minutes.

Baghdad Dials British

One of the largest public automatic telephone exchanges in the Near East has gone out from Great Britain to Baghdad.

There will be 5,000 subscribers to begin with, but the apparatus and equipment, of the most modern design, will ultimately provide for twice that number.

Selector switches are of the latest British Post Office type and a new exchange building has been built to house the automatic switching plant and trunk switchboards.

Two small automatic exchanges which have been in service for some time will be incorporated in the network of sub-exchanges, with direct Functions to the new Central Baghdad Exchange.

Aerial photographs cannot be shipped from the Netherlands Indies except by government permission.
