condition these men. The 600 women enlisted since early September for service with the active forces on a full time basis would be increased to several thousand within the next year, he informed the House.

Keep Minard's in the home.

Monthly meeting Of local C. W. L. Irish Regiment Has new Mascot

The Charlottetown Subdivision C. W. L. regular monthly meeting was held in the K. of C. Hall on Tuesday evening, Nov. 4th, with Mrs. W. T. Coady presiding. Prayer was recited by the Chaplain, Rev. L. A. Dougan, who also briefly addressed the meeting, exhorting the members while continuing in their good work to try if possible to accomplish even more especially along the lines of patriotic endeavor.

The business meeting followed with the reading and adoption of the minutes of previous executive and regular meetings. Correspondence submitted included letters as follows: P. E. Island T. B. League, per Dr. Wayne; Mrs. Adrian McInnis, Diocesan President; Mrs. D. F. McNeill, Diocesan Convener; Sisters of Service; Mrs. M. J. Mahar; Mrs. Louis Condon. The Treasurer's report showed a satisfactory balance, with National and Diocesan obligations cared for, and all bills paid.

Following discussion as to the best means of contributing to the War Service work, convened by Mrs. P. J. Casey, it was decided to contribute to the Blanket Fund for Refugees, and \$10. was voted for this purpose. The subdivision will also send several thousand cigarettes to Capt. Rev. R. P. McDonald for distribution to our men overseas. To put into practise the Resolution passed at the National Convention in Toronto, pledging the League's active interest in, and support of, the Men of the Merchant Marine, it was further decided that the work will begin this week. This will take the practical form of Ditty Bags, which will be filled with the numerous comforts needed by the men. \$5.00 was voted for the purchase of a wreath, to be placed at the Monument on Remembrance Day.

Reporting re War Mail, Miss M.

McDonnell asked that members mail papers and other literature for overseas, now to insure delivery for the Christmas season. Eight hundred wrappers have been distributed for this purpose, and books are being collected for the men at Beach Grove.

According to the report on Social Service, 81 articles have been collected and distributed to those in need. Mrs. S. Benoit supervises the sewing which is held weekly at the City Hospital S. S. Rooms. Reports were given on Publicity and Book Review and members were urged to avail themselves of the opportunity which is theirs of selecting and reading the best in literature.

Mrs. Murray told of being interviewed by Mr. W. Roy Smith of the Canadian Broadcasting Corporation, in the interest of a higher and better form of Radio entertainment for the Canadian people. Constructive criticism was welcomed, as were ideas as to how best this worthy objective could be obtained.

Members were asked to cooperate by sending in ideas along this line, in accordance with the expressed wish of the C. B. C. representative. Mrs. E. Paquet who is leaving to spend the winter with her family in Montreal was tendered regretful farewells and bon voyage. Meeting adjourned.

DEBERT, N. S., Nov. 5 (CP) — A new mascot to replace the late Capt. Kilkenny, a magnificent Irish wolfhound who used to march in the ranks and attend all parades but died last month.

The new mascot, an Irish wolfhound, arrived at the camp by rail today. Unlike his predecessor, however, the new mascot has no official army status. His name is Private McInnis.

WAAF HAIR-DOS

LONDON, Nov. 4.—The Women's Auxiliary Air Force soon will have its own hairdressers. Women in the service with hair-dressing experience will be trained to give other Waafs hair-dos meeting the requirements of neatness and trimness.

POLICE COURT — In the Police Court yesterday morning a Prohibition case was further adjourned one week. The case of a man charged with stealing a robe, was also further adjourned until today.

JOIN AIR FORCE — Messrs. Jack Taylor, Charlottetown and Roy McNeill, Lot 16, leave this morning to join the Royal Canadian Air Force. They enlisted at the recruiting office. Mr. Taylor is a well-known local artist and his paintings have been displayed in Toronto.

CHANCE SAVED SURVEY TRUCKS — Chance saved trucks used by an oil survey crew, working in this province, from destruction in the fire which levelled the Agricultural Hall last night. The crew completed their work yesterday and are leaving this morning for Oklahoma. To save time in getting away to catch an early crossing of the ferry from Boston the men parked the trucks at their boarding houses. Previously the machines had been stored in the Agricultural Hall when the crew was in Charlottetown. One of the trucks, with its equipment is valued at approximately \$10,000.

CONCERT AT GRAND VIEW—The Charlottetown Male Chorus presented an enjoyable concert at Grand View last night. Tuesday night in aid of the Carry On Canada Corps. The entertainment was under the auspices of the Women's Institute and proved to be very successful. A large crowd was in attendance and heartily encored the various numbers presented by the Chorus. Dancing specialties were put on by Misses Teresa Costello and Peggy Campbell and Connie LeClair. Miss Jemimah Power also gave a pleasing impersonation number. The program was rounded off with short talk given by Dr. E. E. Robins, President of the Chorus, who outlined the aims and objects of the Carry On Canada Corps. A box social was also on the program. Similar entertainments were presented previously at Murray River, Murray Harbour and Graham's Road.

Personals

Master Stewart Smith, East Royalty, is resting comfortably in the P. E. I. Hospital following an operation for appendicitis.

Trpr. John C. Garnham, Montague, left this morning to rejoin his unit at Camp Borden after spending a short furlough with his wife and family.

Oil survey Of Island Concludes

The crew of the Seismograph Service Corporation of Tulsa, Oklahoma, after concluding "a successful summer's work" on a geophysical survey of the province, left this morning on return to their native country. While quite satisfied that they were able to obtain "good data" and were successful in mapping the area of the north end of Montserrat, declined to make any predictions as to the existence of oil here.

The man who did volunteer information as to the possibilities of the valuable fuel being found was Mr. M. L. Burr, the surveyor. He confirmed an opinion expressed by Mr. J. M. Corbett, Tulsa, who was interviewed by the Guardian last week and stated in his opinion there isn't much question but that there is oil in this province. To the same query, Mr. Burr said, "there is not the least doubt about it." However, he modified his remarks by adding, "But there is only one way to tell if there is oil—and the only way is to bore a hole." On the other hand, Mr. Corbett was confident "you are sitting on oil here." He also pictured Prince Edward Island becoming a "valuable reservoir" which could supply oil to England.

There is a great deal of skepticism as to the oil possibilities of the Island but these optimistic statements by "those in the know" seem to indicate that there is "flowing gold" beneath the surface of the province. Mr. H. H. MacKay, of Tulsa, who holds the oil rights of the Island, expressed himself as being quite confident that drilling would take place here once again. He said that during a recent visit to Charlottetown.

It will be recalled that drilling operations were carried out on Governor's Island, in the Hillsborough Bay area, in 1925. However, at that time the hole was only bored to a depth of a little over 5,000 feet as the equipment at that time prevented going any farther. Now it is possible to go to a depth of about 10,000 feet, Mr. Corbett, who is a well-known oil man in Oklahoma, holds the belief that drilling will have to go down over 9,000 feet before results will be achieved. He based his conclusion on a study of the "log" which charts the rock structure in the hole on Governor's Island.

The Seismograph crew consists of: Messrs. G. W. Reid, in charge; W. E. Perry, assistant; L. E. Burns, surveyor; A. M. House, observer; D. C. Hart, in charge of explosives; W. MacKenzie, assistant to the observer; C. S. Roberts, driver and "blow" driller. They all belong to Tulsa and leave for there this morning. The Corporation, which started the survey last summer, is under contract to the Cities Service Oil Company of New York which is de-

Outstanding interest has been manifested in the twelfth Silver Fox Show to open in Charlottetown next Monday. Every year this Show has increased in its attractiveness. Its value and its importance. During the first years registered foxes only were permitted to enter. During the past few years, however, as new types of foxes appeared, and great improvement took place in "non-registered animals, the necessity of opening up the show to breeders of unregistered foxes became apparent.

The 1940 Exhibition marked a distinct departure from the policy laid down by the original promoters. So keen was the interest particularly in the ring-necks and platinum types during last year's Exhibition that the Board of directors have given minute scrutiny to those classes and types that exert a spectacular appeal and that have outstanding market value. The Show will, this year, therefore, be a far more comprehensive than the previous ones held under the auspices of the P. E. I. Fox Breeders' and Exhibitors' Association. For this reason exhibitors who have not attended the show for the last three or four years will find a great change in the quality and attractiveness of present-day animals.

It is hard to analyze one's feelings as the judging table is watched as class by class and section by section of these products of the breeders' skill and sometimes the breeders' good fortune appear under the inspection of the judge. There is a dazzling intense beauty that is almost unbelievable as the modern marvels of the ranches of P. E. I. are thus brought to the public notice. Whether the exhibitor is a breeder of foxes or not, the senses are stirred to tremendous depths by the sight which only the Prince Edward Island Fox Show is capable of bringing to the public gaze. It is not too much to predict that the 1941 Show of Prince Edward Island will go down in history as the finest ever held in this Province so far in the history of the world.

Temping Prize List The Prize List provides for standard silver and standard platinum registered standard platinum silver, standard platinum, marked silver and standard silver pearl blues. Approximately seventy (70) sections will pass under the careful inspection of the judge. It is questionable if this Show will be cancelled in one week. The Exhibition standings are now being prepared and cages are being set up for the largest entry list in the history of the organization. This is something that should not be missed by any citizen in this Province who is in a position to attend. Fox production during the period following the last war proved to be a great credit to the work they are doing in keeping alive an industry of such vital importance to Prince Edward Island.

Classification of foxes will commence early on November 10th and as soon as this has been completed on Tuesday, judging will be started under the capable hands of George Callbeck, Summerside. In order to facilitate judging, arrangements have been made to serve luncheon each day at the noon hour in the Exhibition Building.

SOVIETS REPORT

(Continued from page 1)

offensive." The radio announcement summed up the military situation thus:

Three days ago a big Red counter offensive began on the right flank, presumably in the Kailian area 85 miles northwest of Moscow, after stopping a German drive which left hundreds of Nazi dead on the field.

The Red tank forces then destroyed 15 Nazi tanks and cut through the German ranks to enveloping the oil rights of the province in an agreement with Mr. MacKay. The work of the survey was carried on in the Scurry Georgetown and Hillsborough area during the summer. A few experimental "shots" were also made at O'Leary. About one-third of the Island is covered and "good information obtained." The survey may be continued next year.

MARRIAGES

KENNEDY — RHUDE — At the Baptist Parsonage, Montague, Sep. 17 1941, by Rev. J. Gordon Duncun, Nell Kennedy, Montague, to Mable Rhude of Belmont, Nova Scotia.

DEATHS

TRAINOR—At the Charlottetown Hospital on November 5, 1941, James Trainor of Sparrows Road. Remains are resting at the A. A. Hennessey Funeral Home. Funeral arrangements later. DAVID—In this city on November 5th, 1941, Isaac David of Georgetown. Remains were transferred from the A. A. Hennessey Funeral Home by motor hearse, to Georgetown yesterday afternoon. Funeral on Thursday morning at 9 a. m.

Charlottetown's New Shoe Store

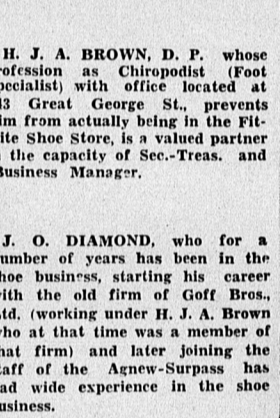

The FIT-RITE SHOE Co. Ltd.

137 GRAFTON ST., CHARLOTTETOWN, P. E. I.

Last April two well known figures in the Shoe Business J. O. Diamond and H. J. A. Brown D.P., took over the old and well known firm of Purdie & Ferguson Ltd. They immediately put on a successful clearing out sale, after which they formed a new company under the name of The Fit-Rite Shoe Co., Ltd. with J. O. Diamond, President and Manager and H. J. A. Brown, D. P., Sec.-Treas. and Business Manager. They then completely renovated the store, changing the lighting, etc., and adding a new modern store front that presents a very attractive appearance. They then proceeded to re-stock the store

H. J. A. BROWN, D.P., SEC. TRES.

J. O. DIAMOND, PRES. MGR.

H. J. A. BROWN, D. P. whose profession as a Chiropractor (Foot Specialist) with office located at 143 Great George St., prevents him from actually being in the Fit-Rite Shoe Store, is a valued partner in the capacity of Sec.-Treas. and Business Manager.

J. O. DIAMOND, who for a number of years has been in the shoe business, starting his career with the old firm of Goff Bros, Ltd. (working under H. J. A. Brown who at that time was a member of that firm) and later joining the staff of the Agnew-Surpass has had wide experience in the shoe business.

Car Wrecked When Tire Blows Out

This mass of tangled wreckage, out of which four persons crawled unharmed, was a perfectly good car on its way to the local C. N. R. depot at seven o'clock yesterday morning until the rear left tire blew out. The accident occurred on Longworth Avenue, on the city side of the railway crossing near the Jib. The four persons who miraculously escaped serious injury were all residents of Mount Stewart and were en route to catch the train in Charlottetown. They were: Mr. Winston Birt, driver, Mr. Colin MacDonald, Miss Marjorie Affleck and Miss Stella Affleck. Miss Marjorie Affleck complained of minor bruises to her hip but the others stated they were all right after the accident. When the blowout occurred the driver lost control of the machine and after continuing for about 50 yards, it rolled completely over. The force of the crash reduced it to a complete wreck. The top was smashed and all the glass which was scattered over the pavement. The passengers telephoned a taxi and caught the train at Winsloe.

Salient facts Revealed on Canada at war

OTTAWA, Nov. 5—(CP)—In brief, here are some salient facts given by the House of Commons today on Canada at war: From Defence Minister Ralston: Manpower survey now completed and army needs to be considered by cabinet war committee. Total enlistments in past six months 105,773 including army 59,502; air force 35,108; navy 11,163. During two months recruiting campaign last summer the army enlisted more than 34,000 men, and the air force and navy 15,500. Since the campaign which ended last July, the army has asked for 37,000 recruits and has received somewhat more than 24,000. More than 110,000 Canadian soldiers are overseas. The Royal Canadian Air Force in Canada and overseas, has 90,000 men. Five new Forestry Corps companies to be organized. No limit has yet been set on the number of divisions Canada will have. No corps in United Kingdom more completely provided with corps and auxiliary troops than Canadian corps. Canadian corps rapidly approaching army status. From War Services Minister:

HALL WAS ONLY (Continued from page 1) Rink, which flourished for several years until destroyed by fire. The Citizens was justly celebrated for its hockey games, races, figure skating, dancing and splendid fancy-dress carnivals.

There was also another rink, on Kent Street, called The Peoples, used for roller skating in summer, but was destroyed by fire after a few seasons' use, the flames spreading to the Citizens' and causing its destruction also. The Peoples was situated about the present site of the Central Christian Church, but was never rebuilt. The Citizens, however, rose from its ashes in greatly improved form and was re-named The Hillsborough, and continued as the centre of winter sports until the erection of The Arena, a much larger building, when the former was disposed of to the Provincial Government.
