The New Zealand Trade Agreement

OTTAWA, April 30.—(By The Canadian Press)—The bill respecting a new trade agreement between Canada and New Zealand was given second reading. The House immediately went into committee of the whole to consider it. Prior to adoption of the second reading, Hon. H. Stevens, Minister of Trade and Commerce, who negotiated the agreement with New Zealand authorities in Honolulu last December, gave a brief synopsis of the document. The treaty itself was tabled in the House on Wednesday.

One provision in the Treaty, that had not appeared in previous similar agreements, will make it possible for either country to vary the rate on a certain commodity after due notice has been given. It was thus a little more elastic than other treaties, Mr. Stevens said, and the danger of necessity of abandoning the whole treaty over a difference on one class of commodities was avoided.

Like all treaties both parties had to give concessions, one to the other, and neither could secure all the advantages it might desire. The Minister was of the opinion that Canada's interests were well provided for and that the treaty would be acceptable to both countries. Canada stood to gain more in the magnitude of trade because of the size of the country and the diversity of its products. On the other hand New Zealand had hopes of enlarging her export trade to this country in commodities heretofore little known in Canada—and which would not compete with any Canadian products.

A salient point to be remembered, Mr. Stevens said, was that each country extended to the other the full British preference on all commodities except those especially named in the schedule. There was a natural anxiety both in New Zealand and Canada to have the treaty become operative at the earliest possible moment, Mr. Stevens said, and he asked that discussion on the bill be reserved for the time when it was in committee of the whole. He would then be ready to answer all questions.

Hon. Charles Stewart, (Lib., Edmonton West) asked the Minister to give more details at the moment, such as outlining those commodities on which the British preference would not apply, and those on which Canada got the preference as compared with the commodities in which the advantage went to New Zealand.

Mr. Stevens asked indulgence of the House to let these matters go over to the committee stage and this was done. The House then resolved itself into committee of the whole.

Ready For Soccer Clash

LONDON, April 30.—(Canadian Press Cable)—Everton and Arsenal renew their struggle for the championship of the first division of the English Soccer League tomorrow. Everton are favorites to win but the Arsenal, with cup tie worries gone, are in good shape to put up a game battle. Everton have played 39 games and have 53 points. They have three more matches to play including tomorrow's Arsenal game. They have two more games to play. Two points are allowed for a win and one for a draw. It is thus possible for the issue to be undecided until the last match of the season.

N. S. Premier Takes Strong Objection To Liberal Misstatement

HALIFAX, April 30.—(By The Canadian Press)—Speaking on a question of privilege in the Nova Scotia legislature Premier Gordon S. Harrington read a telegram from D. G. Munroe, general manager of the LaSalle Coking Plant, Montreal, to the effect that terms of the order in council encouraging the use of Canadian coal for coking were satisfactory to the plant, and that "we are prepared to enter into a contract immediately for 150,000 tons of washed process coal for 1932. The message ended with "hearty congratulations on your bringing this issue to a successful termination."

The Premier rose to "take most grave and serious objection" to an editorial appearing in the Halifax Chronicle, which had cited the fact that the U. M. W. district convention recently passed a vote of censure on the Premier, and which went on to say that "in the light of the facts the Premier himself would surely be the last to say that the vote of censure was not richly deserved."

The editorial stated that "in 1930 he backed Mr. Bennett on the platform when he told the miners that the whole fault of their condition lay with the Government at Ottawa," and that "now he tells the miners by wire that the present emergency arises from world conditions entirely beyond our control."

Prior to making the announcement from LaSalle, the Premier declared that a year ago this government obtained from Ottawa as-

Coal From The Maritimes

OTTAWA, April 30.—(By The Canadian Press)—Announcement will shortly be made by the Dominion Government, it is understood, of steps to create a market for 900,000 tons of coal from the Maritime Provinces in Quebec Province and eastern Ontario.

The proposed market for the sale of this additional quantity of bituminous coal from Nova Scotia and New Brunswick, it is stated, lies largely between Quebec City and Belleville.

Creation of a market for the 900,000 tons is expected to be brought about through the greater use of the Maritime product by the two railway systems and various industries. The scheme will probably be handled through the Dominion Fuel Board by way of a subsidy.

Debate On Censure Vote Prolongs Session

HALIFAX, N. S., April 30 (By The Canadian Press)—Debate on the question of whether or not Premier Gordon S. Harrington deserved the vote of censure imposed by the United Mine Workers of district 26 prolonged a session of the Nova Scotia Legislature that opened at eleven o'clock yesterday morning and closed at 2.30 this morning.

DORNIER-X WILL RETURN HOME MAY 20

HALIFAX, N. S., April 29. (By The Canadian Press)—Having completed plans for the projected trans-Atlantic flight of the German alrship Dornier-X, commander Frederick Christensen is returning to New York from Newfoundland.

The giant flying boat will hop off from Newfoundland for Spain about May 20, he said today following his arrival in Halifax on the liner Rosalind, accompanied by Captain Wilhelm Neimann, his navigation officer.

"We have been in Newfoundland studying weather conditions and seeking a suitable place to hop off on our return trip to Germany," said the Commander.

"The Do-X is still in New York, having arrived there last September from South America when it was too late in the season to fly home. The alrship is being overhauled at New York and several test flights will be made before we start our long journey."

Discussing his Newfoundland base, he said: "It will be St. John's Harbor or Conception Bay. Tropic Bay is out of the question. It is nearer, but there is too much fog and we might be held there eight or ten days, and that is too long."

He said the route would be from New York to Newfoundland, to the Azores to Lisbon to Vigo, to Southampton, thence home to Germany.

"The air trip from New York to Newfoundland is 1300 miles and we plan to make it in one hop, but if the weather is bad, why of course we will stop at Halifax, where you have a wonderful harbor and a wonderful stopping place for a ship like the Do-X. No sea or swell here."

New Phone Tax Is Postponed

SAINT JOHN, N. B., April 30 (By The Canadian Press)—A new tax of five cents on long distance telephone calls in Canada has been postponed indefinitely, S. B. Ebbett, assistant general manager of the New Brunswick Telephone Company, Ltd., said tonight. He said he could give no reason for the postponement but expected an announcement regarding the matter would be made shortly.

The five cent tax on telegrams and cables will become effective Monday, as well as the new taxation on railway sleeping car berths and parlor chairs.

Prize Offer To Farmers

FREDERICTON, April 30.—(By The Canadian Press)—To encourage the production for commerce of Grade No. 1 farm seeds, the Provincial Government, through the Minister of Agriculture, Hon. Lewis Smith, is offering \$1,000.00 in prizes this season for a series of country-wide competitions among the farmers of New Brunswick.

Fields entered in these competitions will be inspected free of charge, according to announcement made today by Hon. Mr. Smith. The harvested crop will be officially analyzed and graded and a certificate issued at no charge to the grower.

The competitions are arranged to include three crops, wheat, oats, and potatoes. Any farmer who is a member of an agricultural society may make entry according to the schedule of competitions and the regulations which apply to them.

The Dominion Seed Branch and the Dominion Potato Certification Service will co-operate with the Provincial Department of Agriculture in carrying on these contests.

IN MEMORIAM

MRS. NORMAN MCLENNAN
 The community of Enmore and vicinity was saddened Friday, March 11th, when they learned of the death of Mrs. Norman McLennan, an aged and highly respected resident of that place. Although not having very good health for some time she was able to be about her work until the last of February when she grew suddenly worse, and all that tender nursing and medical skill could do was of no avail and on the above date she was taken home to be at rest. The late Mrs. McLennan was greatly admired by all who had the pleasure of her acquaintance. Kind in her manner, always thinking of others she endeared herself to everyone, and although at times her suffering was intense she bore it all with patience with always a pleasant smile and word of thanks for any attention given her, and ever mindful of the comfort of those who visited her in her sickness. She leaves to mourn besides a sorrowing husband, three sons and four daughters. The sons are William in Vancouver, B. C., Angus in California; John B. at home; the daughters are Mrs. Wm. Mooner, Victoria West; Mrs. Geo. W. Ballum, Mt. Pleasant; Mrs. Theo. Enman, Enmore; Mrs. Frederick Bryant, Vancouver, B. C., also twenty-nine grandchildren and four great grandchildren, one brother, George G. Henry, Fairfield, Maine. Two sons, Isaac A. and Norman, predeceased her about fifteen years ago. The funeral, which was very largely attended, took place from her late residence to Victoria West Cemetery and was conducted by her pastor, Rev. Mr. Robertson, service being held in the Presbyterian Church of which she had been a life long member. The pallbearers were her six grandsons, Henry Mooner, Sidney Enman, Allen, George E. John and Ansel Ballum.

U. S. Secretary Delays Sailing

GENEVA, April 30.—(A.P.)—Prime Minister Ramsay MacDonald of Great Britain conferred today with Henry L. Stimson, United States Secretary of State, and Dr. Heinrich Brüning, Chancellor of Germany and met them again this evening at a dinner given by Norman H. Davis, a member of the United States delegation to the Disarmament Conference.

With failure of the "big five" conference to materialize, Mr. MacDonald plans further conversations with the American and German statesmen on disarmament and also the Sino-Japanese conflict.

Mr. Stimson decided today to remain in Geneva a little longer in order to continue the discussions with Mr. MacDonald and Dr. Brüning. He plans to leave Saturday or perhaps later, sailing from Cannes next Wednesday. He announced the sailing date after having been informed that an attack of laryngitis would make it impossible for Premier Tardieu of France to meet with the British, German and Italian ministers.

Civic Owned Tenements Is Advocated

SAINT JOHN, N. B., April 30 (By The Canadian Press)—Establishment of civic owned tenements for the unemployed was suggested today by Rev. Dr. M. E. Thomas, chairman of the unemployment committee of the Evangelical Alliance, an organization including ministers of the Baptist and United Churches in Saint John. More than 300 families who have been unable to pay rent face possible eviction from their homes here next Monday, generally observed as moving days.

Dr. Thomas asked if it would be practical "to take the empty cotton factory, the pulp mill or any such building and quickly transform it into small tenements to be rented at a nominal sum, if not free."

Similar action was taken in one Ontario city, he said.

T. E. Keith, son of Mr. and Mrs. Wm. Keith, was born May 12th, 1863, at Montague, Prince Edward Island, Canada. He came to Iowa forty-three years ago.

He was united in marriage to Ada Pierigi May 27th, 1893, and made their home in Benton until her death on Oct. 15th, 1924.

To this union were born two children, Chester R. Keith of Des Moines, and Gladys M. Carson of Benton. He became a member of the Lenox Christian Church in 1890.

Besides his children, he leaves to mourn his passing nine grandchildren, two brothers, John Keith of Montague, P. E. I., and Clarence of Winnipeg, Manitoba, and three sisters, Miss Priscilla Keith and Mrs. E. W. Benson of Clearwater, Florida, and Mrs. Martin McKinnon of Montague. A brother and sister pre-deceased him. He was a charter member of Ringold Lodge,
