THE Halifax Chronicle says: The steamer Bonavista had a narrow escape on her way to Montreal two weeks ago. Just below Quebec a sailing vessel was coming down and by some mismanagement she crushed into the steamer, driving in one of her bow plates. As the Bonavista was laden with a cargo of coal it was feared she would go down, and the boats were ordered out. An examination, however, proved that she was not in any great danger, and after an hour's delay she proceeded to Montreal, and repairs have since been made. The sailing vessel will be libelled for damages.
