come from errors in diet, from too little exercise or from the mistakes we commit without thinking of consequences. These sicknesses may be slight at first, but they hinder work, prevent advancement or bring depression and spoil enjoyment. What is worse, they lead to serious physical disorders if not checked in time; but you CAN check them easily and quickly. They will

Headache vs Glasses

If you are always trying to see through a blurring mist or if your eyes give you pain or discomfort you are straining them, and glasses are needed.

Ninety per cent of all headaches are caused by eyestrain.

Let us examine your eyes at the first symptoms and find out precisely what is wrong with them. We will then recommend to you the glasses that will give you the most relief.

Charge made for examination whether you purchase glasses or not.

KURIOS FROM KORRESPONDENTS

Q. Will you please tell me how to tell the gender from the goose?
A. The gander is larger, his head is coarser, and he has a squeaking voice, while the female makes hoarse sounds. Turn a dog into the yard and the gander will hiss and chase him.

Q. The ground in my poultry yard is rank. How can I get it sweet again?
A. Cover the top with air slaked lime, let it lie a day, then spade under and sow a quick growing crop.

Q. I notice whole wheat in the droppings of my fowls. Is this usual, or is it a disease, and how can I stop it?
A. You are not furnishing your fowls grit or what you do give them is not sharp enough to grind grain.

Q. I have a beautiful Buff Leghorn cock bird and would like to know how to straighten his lopped comb. Would you breed from a bird in such condition?
A. If your fowl's comb is creased and has finger marks, is too thin or has something else about its shape that makes it turn, nothing can better it; otherwise the fowl may be out of condition. Examine him for lice or any ailment you may not have observed, place him in seclusion and feed him well, especially of meat. Hardly think we'd breed him in such condition, especially for show.

Q. If I give my fowls good care and rations in January and February can't I get as good fertility as in April?
A. No. Fowls have their natural reproductive season, and those months aren't on their calendar. April and May are best.

Before the wool is spun into yarn for Stanfield's Unshrinkable Underwear it is washed, scoured, picked and combed repeatedly, until it is so clean that even you would say "good enough". But our critical system knows no "good enough" short of extreme perfection. For again when the garments are knit they must undergo another series of vigorous washings. Then they are double processed—an exclusive improvement of our own; rendering every garment beautifully clean and sanitary. Finally, a rinsing in distilled water—water pure enough to drink—perfects a most grateful softness.

Soft, grateful—even to the most tender skin

STANFIELD'S Unshrinkable UNDERWEAR

Made both for women and for men in perfectly fitting sizes. Twenty-one different weights and qualities; from warm, heavy ribbed garments particularly suitable for outdoor workers to the soft, finely knitted underwear so soothing to sensitive skins. Your local dealer sells Stanfield's Unshrinkable Underwear. Catalog on request.
