OF SPECIAL INTEREST

LISBON, Portugal, Sept. 30.—(Special).— A confession that they intended to assassinate the Portuguese premier and instigate a revolt was made by the five men arrested last night while placing bombs around the Premier's villa at Praia das Macas, a watering place near Cintra.

According to the Mundo, the men were delegated by a syndicalist group to explode the bombs in Dr. Affonso Ceastais garden. His attention was to be attracted in this way and they intended to shoot him down when he appeared at the window to find out what had happened. Dr. Costa's death, they declared, was to be the signal for the revolt armed band they said, were ready to rush the prison amid the confusion, and to liberate the prisoners.

The syndicalists, they asserted, had plotted also to kill the Minister of War.

The Mundo avers that the Royalists, Radicals, and republicans were implicated in the conspiracy.

FRANKFORT, Sept. 30.—(Special) —The conference under the auspices of the International Law Committee of Aviation yesterday adopted the following principles, on which they will endeavor to obtain international legislation for the uniform control of aviation:—

"Rights of private property do not entitle land holders to prohibit aviators flying over their lands if such flying is done without occasioning inconveniences, but any abuse of this privilege by a flier will make him legally responsible.

"The owner of an aircraft sha l be responsible for damages to persons or property, except to persons on board an aircraft; but the owner of the aircraft may recover against a person who causes damages and also may plead that damages were due to forces beyond human control."

After passing these proposed measures the conference adjourned.

PARCHIM, Sept. 30.—(Special).— The German soldiers were killed and one was severly wounded last night by an army of officer's "striker" whom they were attempting to capture after he had been detected in a robbery. He then committed suicide.

The "striker" was attached to an officer of a dragoon regiment, stationed here. When he found he had been seen committing the theft he fled to an attic of the barracks and was pursued by several of his comrades, led by an officer, He was armed with two ordnance revolvers, with which he shot three men, two of them fatally, and then killed himself with the last cartridge.

GUAYAQUIL, Sept. 27—(Special). —A rebel band under Colonel Carlos Concha yesterday morning attacked and captured the police barracks at Ssmeralda, on the north west coast, after a severe fight. A detachment from the garrison reinforced by the crew of the cruiser Cotopaxi, then marched against the rebels, and another engagement ensued, the rebels being routed and losing a number killed and wounded.

It was learned that revolutionary movements have been afoot in various parts of the republic, but it is believed that the ensurgent defeats at Riobamba on Sunday night, and at Esmeralda today will probably serve to check further uprisings.

BERLIN, Sept. 27.—(Special).— Terror reigns among the population of Styria, Austria, arising from the depredations of a lioness and her cubs and a number of wolves and hyenas which recently escaped from a menagerie, according to despatches reaching her from Gratz.

The wild beasts have established their liar in the centre of a region of inaccessible mountain country extending over 400 square miles. They seized and devoured 200 cattle and 400 sheep.

The inhabitants will not allow their children to go to school in the remote districts, in one of which a country policeman had been missing for some time and is believed to have been killed.

It is feared the beasts after the herds have been taken from the mountain pastures in autumn will invade the inhabited districts in search of food.

NEW YORK, Sept. 27.—(Special). —A bright office boy yesterday kept Thomas A. Edison, inventor, cooling his heels for five minutes outside his own office. Mr. Edison, who has been taking an enforced vacation of two weeks in his home, in West Orange, on account of a cold, was permitted to go to his laboratory on condition that he remain only a few minutes. The boy, who had been engaged since Mr. Edison became ill, met him at the office door.

"You can't see Mr. Edison without an appointment," he said firmly.

"But this is most important," remonstrated the inventor, who wanted to prolong the joke.

"Nothin' doing, and, anyway, you'll have to see the secretary," the boy added. Mr. Edison said very well, he would see the secretary.

After about five minutes the secretary came out and greeted Mr. Edison by name.

"That's all right," said the inventor, patting the boy on the head, "I like to see my own rules obeyed."

TWENTY-YEAR-OLD MYSTERY SOLVED

NEW YORK, Oct. 2, (Special)—A cable from Christ Church, New Zealand says: A twenty-year-old mystery of the sea is explained by a letter received here, stating that two survivors of a vessel wrecked on Cape Horn, found the wreck of the Glasgow ship Marlborough in a cove with twenty skeletons nearby.

The Marlborough left Lyttleton, N. Z., in January 1890, for London, and never was heard of again. It was supposed she sank after colliding with an iceberg.

PRODUCTION OF MUTTON IN U. S.

WASHINGTON, D. C., Oct. 2, (Special)—Government officials have turned their attention toward the greater production of mutton in the United States as another way of reducing the constantly increasing high cost of living. Simultaneously yesterday two branches of the government service, the Indian bureau and the bureau of animal industry, had directed their efforts toward the mutton industry.

Cato Sells, Indian commissioner, urged the Indians to raise sheep, showing them the good profit both in wool and mutton. He intends to create cattle and sheep ranges on the large reservations. The bureau of animal industry has sent out a warning against the sheep measle parasite urging farmers to fight it.

To Restore Good Health

The first thing to do is to correct the minor ailments caused by defective or irregular action of the organs of digestion and elimination. After these organs have been put in good working order by timely use of

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World)

better digestion results, and then the food really nourishes and strengthens the body. The first dose gives relief and sounder sleep, quieter nerves, and improved action of all the bodily organs are caused by an occasional use of Beecham's Pills. They give universal satisfaction and in safety, sureness and quickness of action Beecham's Pills

Have No Known Equal

Sold everywhere. In boxes, 25 cents. The directions with every box are very valuable.

MOTHER! IS CHILD'S STOMACH SOUR, SICK?

IF CROSS, FEVERISH, CONSTIPATED, GIVE "CALIFORNIA SYRUP OF FIGS."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.
