POSTER

Grades 7 to 10—1, Hazel Stewart, Harrington; 2, Mammie Stewart, Harrington; 3, Erna Coles, North Milton; 4, Ruth Cudmore, North Winsloe.

WEATHER CHART

Sec. 7—1, Vaunda Saunders, South Winsloe; 2, Avis Prowse, South Winsloe; 3, Alice Good, South Winsloe; 4, Rena Coles, North Milton.

NEW YORK, Oct. 27—Woman, in her quest for beauty, will turn her attention to her throat for the next few years, Miss Nella Webb, astrologer, said today.

Miss Webb has a booth at the American Beauty and Styles Exposition at Grand Central Palace this week and talks on the subject, "Beauty in the Stars."

"You see, when we have eclipses and things like that it always indicates that something is going to happen," she explained. "When Aries was in the ascendency bobbed hair came in. Now Taurus is going to have a wonderful development of the throat."

Just to give you an idea of what the stars have to say about beauty, Miss Webb says if you are born in February you are likely to have prett ankles.

PLASTICINE MODELLING (A Flower)

Sec. 8—1, Gladys Hooper, North Milton; 2, Alton Younker, North Winsloe.

The League Of Nations

The Royal Edward Chapter of the I. O. D. E. under the Regency of Mrs. J. A. Mathieson, has for several years endeavored to encourage the pupils of Grades 9 and 10 of the City Schools in the study of the work of the League of Nations—its aims and measures of procedure.

First and Second Prizes have been awarded for the highest marks made on the examination set, and the pupils have shown keen interest in following world events.

To help students, a series of articles dealing in a simple manner with the League work will be published in the daily newspaper each week. These should be carefully read and preserved.

It is interesting to know that the Women's Institute of the Province have prepared a questionnaire which they are sending to the rural institutes, whose
