THE STANLEY.—The C. C. S. Stanley with a broken rudder port was yesterday morning reported 20 miles southeast of Entry Island, Mag- dalen Islands, drifting. No word of any assistance being sent to her has been received. The crew were then trying to work the ship through the ice to make temporary repairs to the rudder.

ISLAND LADY DEAD.—A very wide circle of friends will hear with regret the death in Calgary on April 22nd of Mrs. A. J. MacNeill, daughter of the late Mr. Francis L. MacNutt of this city. Mrs. MacNeill, whose health has been failing for the past six months was a lady of charming personality and her death can be as a severe shock. The remains, ac- companied by her sister Mrs. Francis MacNutt were taken to Victoria for burial beside her husband and sister Mrs. MacNutt visited this Province about two years ago, spending the winter among her relatives and friends.

BURGLARY.—Thieves are on the rounds in Charlottetown. The establish- ments of Messrs. Auld Bros. and J. A. Farquharson were broken into on Wednesday evening. In the former place the entrance was made through a cellar window. The cash- drawer was forced open, but all the burglars received for their pains were a few stamps and a very small sum in cash. A half caddy of tobacco was also missing. In Mr. Farquharson's the entrance was effected in the rear of the store. Seven caddies of tobacco were taken. These were found by the police officers yesterday morning near the scene of the burglary and are now at the station. This is all the goods that Mr. Farquharson missed. A pair of glasses belonging to one of the clerks in the office of Auld Bros. were picked up near their ware- house on Water street, where they had evidently been dropped by the burglars. The recent big increase in tobacco duties must have led certain parties to try to secure a supply with- out being compelled to pay for it. It is also reported that several of the summer houses at Inkerman and Brighton have been broken into and many things destroyed. It is to be hoped all the guilty parties will be rounded up so that an example may be made of them.

SUDDEN DEATH.—A sudden death occurred yesterday morning when Mr. Charles McKinnon of this city died at the Winsloe Hotel. He was the son of the late Mr. John McKinnon, and a brother of Gunner Stephen McKinnon, the first Island soldier to return home wounded from the war and who is now at Toronto. He also leaves his mother, a brother, James, and a sister, Mrs. F. H. Trainor, who are at present in Boston.

Lens Grinding Do You Know? That we operate the only Lens Grinding Plant on P. E. Island? That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most com- plicated kinds of lenses? These are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses. Send your glasses in by mail; you'll get them back promptly and in perfect con- dition. Call in and look over our plant.

Saving Money by Spending. "SAVING" money by continuing to use an inferior machine is like "saving at the pigot and wasting at the bung." For in- stance, if your machine skims down to 1 per cent, for every thousand pounds of milk skimmed, compare that result with the splendid, proven record of the Renfrew. You find by having the Renfrew that you will save about 1/2 pound of butter-fat per week for every cow. The Renfrew skims down to .01 per cent. That loss of 1/2 pound means money! With eight cows, and butter-fat at say 30 cents per pound, you would be losing every year (40 weeks' milking) the tidy sum of \$18. This sum saved is accepted by us as a first payment on a Renfrew. The saving soon pays for the machine—and then the \$48 per year for eight cows becomes extra profit. Will it not pay you to discard the old machine for the Renfrew? It gets all but the last three ounces of butter-fat in a whole ton of milk skimmed. If you could reckon the losses the old machine made the last few years, wouldn't it decide you right away to get the close-skimming Renfrew? Our illustrated booklet gives in- teresting proofs of the Renfrew's close- skimming, including tests by Govern- ment Dairy Schools. It also explains the Renfrew's self-oiling system, the interchangeable capacity feature, easy-to-clean advantages, etc. Send for booklet to-day. A University at the Front "Rah, Rah, Rah, for Vimy!" —"Khaki University" a Marvellous Development of Y.M.C.A. Service for the Morale and Future of Canadian Soldiers NOT the least of the wonders of this war of marvels is a university for soldiers in the field. Ever on the alert to minister to soldiers and to the Great Cause, the Y.M.C.A. has, with the co-operation of chaplains and military authorities, brought into active service the "Khaki University." It started only in January and already four thousand students have enrolled! There are branch "Khaki Colleges," one at Vimy Ridge, more in London and in the English camps. "Rah, Rah, Rah, for Vimy!" The need! Think of the slow intellectual stagnation due to the monotony of life in camp and billets; the complete surrender of personality and loss of mental exercise due to the necessary restrictions of military discipline! Does healthful study form a welcome mental change from the "sameness" of military work? And does it keep a man from going mentally soggy? Does it enhance his morale? For answer, witness the eagerness with which soldiers of all ranks have fervently welcomed the idea! Think of the thousands who ex- changed the scholar's gown for khaki, and those other thousands who need training in industry. "We are going soggy," was their spoken and unspoken thought. The ambitions of many soldiers seemed to have been nipped in the bud by the exigencies of war. Now the Future is full of Promise, and they fight more gloriously than ever! High Standards University careers interrupted by the war are being resumed. Men are learning lucrative trades. The curric- ulum is comprehensive. The studies are fully up to the best Canadian University standards. The work is so thorough that students of the pro- fessions from the Khaki University can have their work credited by their alma matres. The subjects include history and economics, applied science, languages and literature, agriculture and business. There is, too, a special course in the problems of the Coming Reconstruc- tion Period—the lessons of the war, the Canada of to-day and to-morrow. Surprising Success The teaching staffs are Canadian soldiers, including distinguished pro- fessors. The students are soldiers. Examination results have been as- tonishing. Five men completed an eighteen months' wireless telegraphy course in three months, and every man of them passed the British Ad- miralty exams! They say these mar- vellously alert brains in physically fit bodies soak up knowledge like a sponge drinks in water. Writes a soldier, "There is no doubt about it, the Y.M.C.A. is a God-sent institution for the soldiers!"

"Here's your son, Uncle Mose?" "Ain't he right well, sah. You'd be surprised to see him, sah." "I suppose he got over all his childish tricks. Probably he'd consider robbing an or- chard pretty small business now?" "Yes, indeed, he would, sah. He wouldn't rob nuffin smaller den a bank now, sah."
