Every Joint Limbered, Rheumatism Cured!

That Old Family Remedy "Nerviline" is Guaranteed for the Worst Cases

CURES NEURALGIA, BACKACHE, LUMBAGO

Rheumatism today is unnecessary. It is so well understood and so readily curable that every day we have reports of old chronic being freed of their tormentor.

"I can speak confidently of the Nerviline treatment, for the simple reason that it cured me," writes Albert B. Cornelius, from Kingston. You can't imagine how stiff and lame and sore I was. Nights at a time I couldn't sleep well. I followed the Nerviline directions carefully—had it rubbed into the sore regions four or five times every day. Every rubbing helped to reduce the pain. The swelling went down. I got a fair measure of relief in a week. I also took two Ferrozene Tablets with my meals. They increased my appetite and spirits, purified my blood and toned up my system generally.

"I am as well today as a man could be—in perfect good health. I give Nerviline all the credit."

A large family size bottle of Nerviline costs only 50c., or the trial size 25c., and is useful in a hundred ills in the family. Whether it's toothache, earache, headache, neuralgia, lame back or a cold, Nerviline will cure just as readily as it will cure rheumatism. For family use nothing equals Nerviline.

—AGRICULTURAL SHORT COURSES.—In a former issue an announcement was made that Agricultural Courses would be held at points throughout the country during the winter months. The first of these will be held at Palmer Road, commencing January 10th, and continuing throughout the week. The lecturers and demonstrations will be as practical as possible and will be arranged to meet local conditions. Lantern lectures for the evening are being arranged to give diversity and to practically replace the work with animals; the accommodation not being sufficient to ensure successful handling of live stock in all cases. The second one will commence at O'Leary on January 17th, and will be conducted very similarly to that at Palmer Road. On January 24th, a third will be open at Souris. These courses will be arranged in order that practical men can take part and the lecturers and demonstrations will be given by men who have had experience on farms. The length of the courses will depend altogether upon the support given by the people. Members of the Provincial and Dominion Departments of Agriculture will co-operate in the arranging and carrying on of every course. Every subject of interest will receive consideration. 6317-12-28 E11
