An interesting event took place at Manchester, New Hampshire, on the evening of July 20th when Miss Sarah I. Taylor of Cranville, P. E. Island, and Thomas W. Manley of Manchester, were united in marriage. They were married at the residence of the bride's sister, Mrs. John McEwen, by the Rev. R. J. Elliot, pastor of the Methodist church of that place, in the presence of the immediate relatives. The room was beautifully decorated for the occasion with platted plants and flowers. The bride wore a dress of white silk batiste, trimmed with lace and carried a bouquet of white roses. After the ceremony a reception was held and refreshments served. The happy couple then started for their new home amidst showers of rice and best wishes. Many presents were received from relatives and friends.

As the Hazelton came steaming in to port Monday afternoon, decorated fore and aft with a string of shoes, etc., the citizens wondered who the young couple could be that had been set afloat in the hymeneal boat of life, and were surprised to see J. E. McEwen and bride disembark amid showers of rice and tones of the steamer's whistle. J. E. McEwen, an enterprising merchant, and Miss Rhena Summers, of Greenwood, B. C., were quietly married in Victoria, June 15th, and are now at home to their many friends in their new residence on Cascade avenue. The congratulations on the happy event are numerous and this paper is greatly pleased on this occasion to add its hearty good wishes to those being so freely extended. The Imperial II, Bruce Stewart & Co.'s latest addition to the motor boat fleet of Charlottetown, will be launched next week. This boat is not as large as the company's first Imperial, her length being but 23 feet by four beam, but she is built on lines that make her just as good for comfort with a considerable advantage over the former in speed, a statement which carries with it a suggestion that there will be some fast sailing in Charlottetown harbor shortly. The boat was constructed by the well known boat-builders, L. and N. Paquet of Souris and is from designs by E. E. Griswold of Edge-water, N. J. The new craft is a very creditable looking production. She will be fitted with a four cylinder Imperial engine. The model is considerably different in appearance from that of any other motor boat here.

Sir:

If the "nappy-go-lucky-slap-it-on-a press-and-let'er-go" kind of advertising you are using is doing you some good doesn't it seem reasonable to suppose that "something different"—bright, convincing, thought-out and mailed regularly "direct" to your list will prove of much greater values (This is intended only for the man who feels the bullet strike him).

I study Printing! I make a feature of preparing printing that is profitable. That is, I make it profitable to my patrons. I study types and effects to insure attractive arrangement, and I believe you'll appreciate how I handle your work. From a card to a catalogue I want to figure on your work.
