Corticelli Sewing Silk is all silk; it is full size letter A; it is smooth, strong and free from knots or flaws.

Knowing ones like it better than linen or cotton because it lasts longer and goes further—and does not fade.

One reason why practical farmers buy Gay's Vegetable Seeds in preference to any others is, that they know they plant more seeds than any other firm on the Island, and they have noted their success and they are also aware of the fact that they are the only seedsmen in the province that plant largely of the same seeds they sell. Our seeds not only grow—but our extensive experience has enabled us to know just the varieties best suited to our climate. See ad in this paper. 25c a w w l.

THE FOLLOWING DESPATCH:
REVELSTOKE, B. C. April 10th—Deal closed today with C. P. R. whereby that Company obtains an interest in the Trout Lake town-site. The Company agree this summer to build a wharf and slip at Trout Lake, also to erect a station and warehouse and to place a steamer on the lake. Engineer Sullivan and party will be in Trout Lake just as soon as the ice is clear of the lake to look after all preliminaries for carrying out the C. P. R.'s side of the agreement. Your correspondent was informed that if the Provincial Government can be prevailed upon to meet the C. P. R. half way, with regard to expenditure, they are willing to undertake work of lowering the lake.

This from the Trout Lake, B. C. Topic confirms the good news as to Rail way transportation. This will materially and favorably effect the Rob Roy, C. M. stock, Old Gold and other properties, the shares in which I have been offering through these columns. Now is a good time to make careful investments and I should be glad to forward maps and information to interested parties. Prices .10 to .30 per share.
